Oracle 1z0-1073-24 Exam candidates all know the Oracle 1z0-1073-24 exam is not easy to pass. But it is also the only way to success, so they have to choose it. In order to improve the value of your career, you must pass this certification exam. The exam questions and answers designed by ActualPDF contain different targeted, and have wide coverage. There is no any other books or other information can transcend it. The question bprovided by ActualPDF definitely ace exam questions and answers that help you pass the exam. The results many people used prove that ActualPDF success rate of up to 100%. ActualPDF is the only way that suits you to pass the exam, choose it equal to create a better future.

Oracle 1z0-1073-24 Exam Syllabus Topics:

Topic	Details
Topic 1	• Maintaining Inventory Replenishment: This domain assesses the capabilities of Replenishment Specialists in maintaining inventory levels. It includes running min-max plans, setting up min-max planning strategies, and outlining PAR location management.
Topic 2	• Implementing Enterprise Structures: This section measures the skills of Enterprise Architects and covers designing fundamental structures for an enterprise, explaining the role of legal entities within the system, setting up inventory organizations, modeling managerial and functional structures, and describing item and cost organizations.
Topic 3	• Integrating with External Systems: This section measures the skills of Integration Specialists in integrating inventory systems with external systems using ADFDi (Application Development Framework Desktop Integration) and FB DI (File-Based Data Import). It covers integrating inventory transactions, balances, receipts, and shipments for seamless data flow.
Topic 4	• Implementing Supply Chain Orchestration: This domain focuses on the skills of Supply Chain Analysts in illustrating the capabilities of Supply Chain Orchestration. It includes analyzing and managing business flows and exceptions within this orchestration framework.
Topic 5	• Creating Inventory Transactions: This domain assesses the capabilities of Inventory Managers in creating various inventory transactions. It includes creating sub-inventory transfers, inter-organizational transactions, summarizing movement requests, creating transfer orders and receipts, and explaining the relationship between discrete manufacturing and inventory transactions. Additionally, it covers executing picking processes.
