## 1z0-1077-25 Pass Rate | 1z0-1077-25 New Dumps

1z0-1077-25 learning materials are high-quality, because we have a professional team to collect the latest information for the exam. We can ensure you that 1z0-1077-25 exam braindumps you receive is the latest information we have. Our company is strict with the quality and answers, therefore you just need to use them at ease. We offer you free demo to have a try before buying 1z0-1077-25 Exam Dumps, so that you can have a better understanding of what you are going to buy. In addition, you can receive the download link and password within ten minutes, and if you don't, you can contact us, and we will solve that for you.

## Oracle Order Management Cloud Order to Cash 2025 Implementation Professional Sample Questions (Q67-Q72):

### NEW QUESTION # 67

You are in the process of setting up a constraint that prohibits update to an extensible flexfield in a fulfillment line if Ship From Warehouse is X and the fulfillment line is booked. You are able to see the extensible flexfield on the "Manage Constraint Entities" page but not on the "Manage Processing Constraints" page.

What could be the reason?

- A. The extensible flexfield is not enabled.
- B. The "Publish extensible flexfield" process was not run.
- C. The "generate packages" program was not submitted.
- D. A "Record Set" needs to be created for the extensible flexfield to be visible on the "Manage Processing Constraints" page.

**Answer: D**

Explanation:

A record set is a group of records that are bound by common attribute values for the purpose of constraint evaluation. You can define conditions and specify a record set to be validated for a given condition as defined by the validation template.

#### NEW QUESTION # 68

Your organization requires you to include Extensible Flexfield values into your sales order approval rules.

Which three order entities support the use of Extensible Flexfield attributes in approval rules for sales orders?

- A. Header
- B. Process
- C. Line
- D. Delivery
- E. Fulfillment Line

**Answer: A,C,E**

Explanation:

Extensible Flexfield attributes are custom attributes that you can add to Order Management entities to capture additional information that is specific to your business needs. You can use these attributes in approval rules for sales orders to define conditions and actions based on the values of the attributes. The order entities that support the use of Extensible Flexfield attributes in approval rules for sales orders are Header, Line, and Fulfillment Line. These entities have predefined Extensible Flexfield categories that you can configure and deploy in the Setup and Maintenance work area. You can also access and update these attributes in the Order Management work area.

#### NEW QUESTION # 69

Your organization processes several types of highly specialized customer orders, which require you to create multiple types of configurator frameworks in order to support these various order types. As part of implementing and maintaining Configurator Cloud, you will be working heavily with workspaces.

Which three statements are true about workspaces?

- A. An effective date must be specified when you create a workspace.
- B. To add a model to a workspace, you must modify it first.
- C. While creating a workspace, the name must be unique.
- D. You can edit the workspace description, but not the name.
- E. You can edit both the workspace name and description.

**Answer: A,C,E**

Explanation:

A workspace is a container that holds one or more models and their associated user interfaces, rules, and data.

A workspace enables you to create and manage multiple versions of your configurator frameworks in Configurator Cloud<sup>1</sup>. The following statements are true about workspaces:

\* An effective date must be specified when you create a workspace. The effective date determines when the workspace becomes active and available for use. You can specify a past, present, or future date for the effective date<sup>2</sup>.

\* You can edit both the workspace name and description. You can change the name and description of a workspace at any time, as long as the workspace is not locked by another user. The name must be unique within the Configurator Cloud instance<sup>2</sup>.

\* While creating a workspace, the name must be unique. You cannot create a workspace with a name that already exists in the Configurator Cloud instance. The name must be alphanumeric and can include spaces and special characters<sup>2</sup>.

Create Workspaces

#### NEW QUESTION # 70

Your company sells engines that are preconfigured by engineering, based on the customer location for which the engine-product is

being sold. You must also include a user-manual specific to the customer's language, which represents a separate part number on the configured order.

Which type of Configurator model do you need to create?

- A. Configure to Order (CTO)
- B. Pick to Order (PTO)
- C. Make to Stock
- D. Assemble to Order (ATO)
- E. Kit

**Answer: A**

Explanation:

A Configure to Order (CTO) model is a type of configurator model that enables you to create customized products based on customer specifications. A CTO model allows you to define features and options that the customer can select, and apply rules and constraints to ensure the validity and feasibility of the configuration.

A CTO model also supports the inclusion of user manuals and other documentation as part of the configuration. You need to create a CTO model to fulfill the requirement of selling engines that are preconfigured by engineering, based on the customer location, and include a user manual specific to the customer's language.

#### NEW QUESTION # 71

Which three statements are false in regard to integrating public Global Order Promising web services with external order capture and management systems? (Choose three.)

- A. You can collect Sales Orders that are scheduled in external order management systems into Global Order Promising.
- B. You cannot collect Sales Orders that are scheduled in external order management systems into Global Order Promising.
- C. Several steps are required to enable calling Global Order Promising by using public web services.
- D. The services cannot be used to inquire about the availability of supply for a potential order before the order is created in Oracle Order Management.
- E. No steps are required to enable calling Global Order Promising by using public web services.

**Answer: A,C,D**

#### NEW QUESTION # 72

.....
