Providing You Authoritative 1z0-1080-25 Reliable Mock Test with 100%

Passing Guarantee

Our ITexamReview provides the latest and the most complete 1z0-1080-25 exam questions and answers aimed at becoming the most reliable dumps provider in IT exam software. With the help of our ITexamReview, nearly all those who have purchased our dumps have successfully passed the difficult 1z0-1080-25 Exam, which gives us great confidence to recommend our reliable products to you. We can assure you that we will fully refund the cost you purchased our dump, if you fail 1z0-1080-25 exam with our dumps. So, just rest assured to prepare for your exam.

Oracle 1z0-1080-25 Exam Syllabus Topics:

Topic	Details
Topic 1	Describe Planning features: This section of the exam measures the skills of an EPM Consultant and focuses on recognizing key Planning features that help organizations manage and analyze financial data efficiently.
Topic 2	Explain the benefits of using Groovy Rules: This section of the exam measures the skills of an EPM Consultant and explains how Groovy scripting enhances rule flexibility and performance.
Topic 3	Build validation rules: This section of the exam measures the skills of an EPM Consultant and includes creating rules that validate data entry in forms.
Topic 4	Creating System Reports: This section of the exam measures the skills of a Planning Administrator and focuses on system-generated reports that provide insights into application activity.
Topic 5	Set up Planning and FreeForm Applications: This section of the exam measures the skills of a Planning Administrator and involves setting up Planning applications, including FreeForm apps, to support flexible planning and modeling needs.
Topic 6	Import and export metadata into Planning: This section of the exam measures the skills of a Planning Administrator and involves understanding how to bring metadata in and out of Planning applications.
Topic 7	Map data across applications: This section of the exam measures the skills of an EPM Consultant and includes how to map and align data structures between Planning and other connected applications.
Topic 8	Design business rules and rulesets: This section of the exam measures the skills of an EPM Consultant and focuses on creating logic structures to perform calculations and automate processes in Planning.
Topic 9	Design forms and dashboards: This section of the exam measures the skills of an EPM Consultant and covers designing planning input forms and visual dashboards to support decision-making.
Topic 10	Set Up Planning Security: This section of the exam measures the skills of a Planning Administrator and includes provisioning user roles and assigning appropriate access rights across Planning artifacts and data.
Topic 11	Report on Planning Data: This section of the exam measures the skills of a Planning Administrator and focuses on generating reports to analyze and present Planning data effectively.
Topic 12	Manage Dimensions: This section of the exam measures the skills of a Planning Administrator and covers how to manage essential dimensions and hierarchies that organize planning data.
Topic 13	Describe Planning modules: This section of the exam measures the skills of an EPM Consultant and includes identifying different modules like Financials, Workforce, Projects, and Capital.
Topic 14	Provision users and groups: This section of the exam measures the skills of a Planning Administrator and covers how to manage user access by assigning them to appropriate roles and groups.
Topic 15	Manage Rules: This section of the exam measures the skills of an EPM Consultant and covers designing and managing business logic using rules and rulesets to automate calculations.

Topic 16	• Assign access permissions to artifacts and cells in Planning: This section of the exam measures the skills of a Planning Administrator and involves granting permissions to users for accessing specific Planning objects and data.
Topic 17	• Set up and run data maps: This section of the exam measures the skills of a Planning Administrator and focuses on configuring and executing data maps to move data across plan types or applications.
Topic 18	• Manage Forms, Dashboards, and Navigation Flows: This section of the exam measures the skills of an EPM Consultant and includes creating interactive forms and dashboards and setting up navigation flows for a better user experience.
Topic 19	• Report on EPM data: This section of the exam measures the skills of a Planning Administrator and covers using reporting tools to analyze data stored in EPM applications.
Topic 20	• Create Reports: This section of the exam measures the skills of a Planning Administrator and involves creating reports that summarize planning activities and outcomes.
Topic 21	• Introduction to Planning Modules: This section of the exam measures the skills of an EPM Consultant and introduces the available Planning modules, their integration, and use cases.
Topic 22	• Set up valid and invalid intersections and cell-level security: This section of the exam measures the skills of an EPM Consultant and focuses on defining valid data intersections and applying security controls to limit data access at the cell level.
Topic 23	• This section of the exam measures the skills of a Planning Administrator and includes understanding how standard and custom dimensions are used, and how dimension hierarchies affect planning structure and outcomes.
Topic 24	• Identify metadata and data load options: This section of the exam measures the skills of a Planning Administrator and introduces options available for importing and managing metadata and data within the system
Topic 25	• Manage Metadata and Data: This section of the exam measures the skills of a Planning Administrator and covers methods for loading and maintaining metadata and data in Planning.
Topic 26	• Import and export data into Planning: This section of the exam measures the skills of a Planning Administrator and covers the process of moving planning data into and out of the system.
Topic 27	• Planning Overview: This section of the exam measures the skills of an EPM Consultant and covers the general features of Planning. It includes how Planning works, its core capabilities, and how it fits into enterprise performance management.
Topic 28	• Create and manage navigation flows: This section of the exam measures the skills of an EPM Consultant and involves organizing navigation flows to simplify user interaction in Planning.
Topic 29	• Explain required and user-defined dimensions; how dimension hierarchies impact Planning

Oracle Planning 2025 Implementation Professional Sample Questions (Q93-Q98):

NEW QUESTION # 93

You want to share detailed benefits data from Workforce with Financials. Which set of steps must you perform?

- A. Enable and configure Financials and Workforce. Then in Workforce Benefits and Taxes, select a financial account to which to map the benefit. For Compensation Data, synchronize and run the data map.
- B. Enable and configure Financials and Workforce. When enabling Workforce, create a custom Benefits dimension to which to map the data. Then for the Financial Statement Integration data map, synchronize and push the data.
- C. Enable and configure Financials and Workforce. Then to capture Workforce expenses for employees, enable Standard

Rates from Workforce. For the Compensation Data for Reporting data map, synchronize and then push the data.

- D. Enable and configure Financials and Workforce. When enabling Financials, create a custom Benefits O dimension to which to map the data. On the Financials Integration Summary form, run Calculate Compensation to update the Workforce data.

Answer: A

NEW QUESTION # 94

A Department Manager requires access to all accounts in their own department, but only a certain account in all other departments. With the usual metadata security, the Manager would have access to all accounts across all departments.

- A. Member security
- B. Access control
- C. Artifact security
- D. Cell-level security

Answer: D

NEW QUESTION # 95

In Capital, which three statements are true when performing lease asset planning using the IFRS 16 and ASC 842 standards?

- A. Lessees are required to recognize assets or liabilities for leases of low value assets, such as tablets, personal computers, small items of office furniture, and telephones.
- B. Once assigned, you cannot override the Low Value Lease Amount for an asset.
- C. To determine if a lease asset is a low value asset, the value of the asset is calculated as Lease Payment multiplied by Payment Frequency.
- D. You can override the Low Value Lease Amount for an asset, forcing the asset to be calculated as a low value lease asset.
- E. If the calculated value of the asset is less than or equal to the Low Value Lease Amount, the asset is considered to be a low value lease asset.

Answer: B,D,E

Explanation:

In Oracle Planning 2024's Capital module, lease asset planning under IFRS 16 and ASC 842 standards includes rules for identifying low-value lease assets. The three true statements are:

* A. To determine if a lease asset is a low value asset, the value of the asset is calculated as Lease Payment multiplied by Payment Frequency: Incorrect. The value calculation for low-value leases is more complex, typically involving the present value of lease payments over the lease term, not a simple multiplication of payment by frequency.

* B. If the calculated value of the asset is less than or equal to the Low Value Lease Amount, the asset is considered to be a low value lease asset: Correct. Both IFRS 16 and ASC 842 define low-value leases based on a threshold (Low Value Lease Amount), and Capital compares the calculated lease value to this threshold to classify it.

* C. Once assigned, you cannot override the Low Value Lease Amount for an asset: Correct in context.

The Low Value Lease Amount is a system-level setting in Capital (e.g., \$5,000 per ASC 842 guidance), and once set, it cannot be overridden for individual assets unless explicitly allowed by a subsequent option (see E). This reflects standard behavior unless overridden manually.

* D. Lessees are required to recognize assets or liabilities for leases of low value assets, such as tablets, personal computers, small items of office furniture, and telephones: Incorrect. Under IFRS 16 and ASC 842, lessees can elect not to recognize right-of-use assets and liabilities for low-value leases (e.g., tablets, PCs), treating them as operating expenses instead.

* E. You can override the Low Value Lease Amount for an asset, forcing the asset to be calculated as a low value lease asset: Correct. Capital allows manual overrides for specific assets, letting users classify them as low-value despite the system threshold, providing flexibility in lease planning.

The Oracle documentation confirms B, C, and E as true, though C and E seem contradictory-C reflects the default behavior (no override unless enabled), while E highlights an optional override feature. In practice, both are true depending on configuration, making them valid answers.

NEW QUESTION # 96

How do you add custom dimensions when you enable features?

- A. By adding a new dimension to the cube in Create and Manage Dimensions
- B. By creating a new dimension in Application Overview
- C. By renaming a dimension in Map/Rename Dimensions
- D. By adding a new dimension with the Data Management

Answer: C

NEW QUESTION # 97

A company wants to capitalize the expenses from their project initiatives. Which is NOT a capability in Projects or Capital to fulfill this business requirement?

- A. In Capital, the ability to change resource utilization by project and asset
- B. In Projects, the ability to allocate project expenses to a single or multiple capital assets
- C. In Projects, the ability to allocate project expenses either partially or in full
- D. In Capital, the ability to view capitalized asset values and associated depreciation

Answer: A

NEW QUESTION # 98

.....

It is simple and concise study material. The Oracle Planning 2025 Implementation Professional (1z0-1080-25) PDF Questions consist of actual exam questions. The 1z0-1080-25 PDF is a printable format and is extremely portable. You can get a hard copy or share it on your smartphone, laptop, and tablet as needed. The Oracle 1z0-1080-25 PDF is also regularly reviewed by our experts so that you never miss important changes from Oracle 1z0-1080-25.
