

1z0-1080-25 Valuable Feedback, Unlimited 1z0-1080-25 Exam Practice

P.S. Free 2025 Oracle 1z0-1080-25 dumps are available on Google Drive shared by Pass4SureQuiz:
<https://drive.google.com/open?id=1q-OlBw6DfLY4XwsSIcmGYCabEJljDYgU>

Before the clients decide to buy our 1z0-1080-25 study materials they can firstly be familiar with our products. The clients can understand the detailed information about our products by visiting the pages of our products on our company's website. Firstly you could know the price and the version of our 1z0-1080-25 study materials, the quantity of the questions and the answers, the merits to use the products, the discounts, the sale guarantee and the clients' feedback after the sale. Secondly you could look at the free demos to see if the questions and the answers are valuable. You only need to fill in your mail address and you could download the demos immediately. So you could understand the quality of our 1z0-1080-25 Study Materials.

We strongly advise you to buy our online engine and windows software of the 1z0-1080-25 study materials, which can simulate the real test environment. There is no doubt that you will never feel bored on learning our 1z0-1080-25 practice materials because of the smooth operation. You will find that learning is becoming interesting and easy. And you will be more confident to pass the exam since that you have experience the Real 1z0-1080-25 Exam.

>> 1z0-1080-25 Valuable Feedback <<

1z0-1080-25 - Oracle Planning 2025 Implementation Professional –The Best Valuable Feedback

Oracle study dumps training Q&As Are Based On The Real Exam. Best 1z0-1080-25 study material make you pass exam easily. Oracle Planning 2025 Implementation Professional dump PDF Questions collection for Practice..latest 1z0-1080-25 Test Engine are available. Hot Oracle Planning 2025 Implementation Professional questions to pass the exam in First Attempt Easily. High quality 1z0-1080-25 relevant exam dumps. Best practice for you.

Oracle 1z0-1080-25 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">• Import and export metadata into Planning: This section of the exam measures the skills of a Planning Administrator and involves understanding how to bring metadata in and out of Planning applications.
Topic 2	<ul style="list-style-type: none">• Introduction to Planning Modules: This section of the exam measures the skills of an EPM Consultant and introduces the available Planning modules, their integration, and use cases.
Topic 3	<ul style="list-style-type: none">• Creating System Reports: This section of the exam measures the skills of a Planning Administrator and focuses on system-generated reports that provide insights into application activity.
Topic 4	<ul style="list-style-type: none">• Design business rules and rulesets: This section of the exam measures the skills of an EPM Consultant and focuses on creating logic structures to perform calculations and automate processes in Planning.
Topic 5	<ul style="list-style-type: none">• Set up and run data maps: This section of the exam measures the skills of a Planning Administrator and focuses on configuring and executing data maps to move data across plan types or applications.
Topic 6	<ul style="list-style-type: none">• Manage Metadata and Data: This section of the exam measures the skills of a Planning Administrator and covers methods for loading and maintaining metadata and data in Planning.
Topic 7	<ul style="list-style-type: none">• Explain required and user-defined dimensions; how dimension hierarchies impact Planning

Topic 8	<ul style="list-style-type: none"> • This section of the exam measures the skills of a Planning Administrator and includes understanding how standard and custom dimensions are used, and how dimension hierarchies affect planning structure and outcomes.
Topic 9	<ul style="list-style-type: none"> • Create and manage navigation flows: This section of the exam measures the skills of an EPM Consultant and involves organizing navigation flows to simplify user interaction in Planning.
Topic 10	<ul style="list-style-type: none"> • Manage Rules: This section of the exam measures the skills of an EPM Consultant and covers designing and managing business logic using rules and rulesets to automate calculations.
Topic 11	<ul style="list-style-type: none"> • Manage Forms, Dashboards, and Navigation Flows: This section of the exam measures the skills of an EPM Consultant and includes creating interactive forms and dashboards and setting up navigation flows for a better user experience.
Topic 12	<ul style="list-style-type: none"> • Design forms and dashboards: This section of the exam measures the skills of an EPM Consultant and covers designing planning input forms and visual dashboards to support decision-making.
Topic 13	<ul style="list-style-type: none"> • Import and export data into Planning: This section of the exam measures the skills of a Planning Administrator and covers the process of moving planning data into and out of the system.
Topic 14	<ul style="list-style-type: none"> • Create and run data integrations: This section of the exam measures the skills of an EPM Consultant and involves building data integration flows between different data sources and Planning.
Topic 15	<ul style="list-style-type: none"> • Set Up Planning Security: This section of the exam measures the skills of a Planning Administrator and includes provisioning user roles and assigning appropriate access rights across Planning artifacts and data.
Topic 16	<ul style="list-style-type: none"> • Set up Planning and FreeForm Applications: This section of the exam measures the skills of a Planning Administrator and involves setting up Planning applications, including FreeForm apps, to support flexible planning and modeling needs.
Topic 17	<ul style="list-style-type: none"> • Report on EPM data: This section of the exam measures the skills of a Planning Administrator and covers using reporting tools to analyze data stored in EPM applications.
Topic 18	<ul style="list-style-type: none"> • Describe Planning modules: This section of the exam measures the skills of an EPM Consultant and includes identifying different modules like Financials, Workforce, Projects, and Capital.
Topic 19	<ul style="list-style-type: none"> • Manage Dimensions: This section of the exam measures the skills of a Planning Administrator and covers how to manage essential dimensions and hierarchies that organize planning data.
Topic 20	<ul style="list-style-type: none"> • Report on Planning Data: This section of the exam measures the skills of a Planning Administrator and focuses on generating reports to analyze and present Planning data effectively.
Topic 21	<ul style="list-style-type: none"> • Describe Planning features: This section of the exam measures the skills of an EPM Consultant and focuses on recognizing key Planning features that help organizations manage and analyze financial data efficiently.
Topic 22	<ul style="list-style-type: none"> • Map data across applications: This section of the exam measures the skills of an EPM Consultant and includes how to map and align data structures between Planning and other connected applications.
Topic 23	<ul style="list-style-type: none"> • Build validation rules: This section of the exam measures the skills of an EPM Consultant and includes creating rules that validate data entry in forms.
Topic 24	<ul style="list-style-type: none"> • Provision users and groups. This section of the exam measures the skills of a Planning Administrator and covers how to manage user access by assigning them to appropriate roles and groups.
Topic 25	<ul style="list-style-type: none"> • Planning Overview: This section of the exam measures the skills of an EPM Consultant and covers the general features of Planning. It includes how Planning works, its core capabilities, and how it fits into enterprise performance management.

Oracle Planning 2025 Implementation Professional Sample Questions (Q40-Q45):

NEW QUESTION # 40

Which three form validation rules options are supported in Planning?

- A. Validate only for users with access to this form
- B. Validate only for pages with existing blocks
- C. Validate rules as Service Administrator, regardless of logged-in user, when the form is loaded or saved
- D. Validate only for cells and pages to which a user has access
- E. Validate for all page combinations and all existing or potential blocks

Answer: B,D,E

Explanation:

In Oracle Planning 2024 Implementation, form validation rules ensure data integrity and usability by defining how forms are validated when loaded or saved. The platform supports multiple validation options tailored to performance, security, and user access, as outlined below:

* A. Validate only for cells and pages to which a user has access: This option restricts validation to the data cells and form pages that the logged-in user has permission to view or edit, based on security settings. It enhances performance by limiting the validation scope and ensures users only interact with relevant data.

* C. Validate for all page combinations and all existing or potential blocks: This comprehensive validation option checks all possible page combinations and data blocks (both existing and potential) within the form. It is useful for ensuring complete data consistency across the application, though it may impact performance due to its extensive scope.

* E. Validate only for pages with existing blocks: This option limits validation to pages that already contain data blocks, ignoring potential blocks that could be created. It strikes a balance between performance and thoroughness, focusing validation efforts on existing data.

* B. Validate rules as Service Administrator, regardless of logged-in user, when the form is loaded or saved: While Service Administrators have elevated privileges, this is not a distinct form validation rule option. Validation rules are applied based on form settings and user access, not specifically tied to the Service Administrator role overriding the logged-in user's context.

* D. Validate only for users with access to this form: This option overlaps with A but is less precise.

Validation is tied to cell-level and page-level access rather than a broad "users with access to this form" criterion, making A the more accurate choice per Oracle's terminology.

References

* Oracle Enterprise Performance Management Cloud Documentation: "Designing Forms - Validation Rules" (docs.oracle.com, updated 2024). Describes validation options including "cells and pages a user has access to," "all page combinations and blocks," and "pages with existing blocks."

* Oracle Planning 2024 Implementation Study Guide: Lists the three supported validation options (A, C, E) under form design and validation settings, aligning with security and performance optimization features.

NEW QUESTION # 41

By default, which four dimensions are enabled for access permissions?

- A. Account
- B. Scenario
- C. Period
- D. Years
- E. Version
- F. Entity

Answer: A,B,E,F

Explanation:

In Oracle Planning 2024 Implementation, access permissions are configured to control user access to data and metadata at the dimension level. By default, four dimensions are enabled for access permissions to ensure granular security across the application: Scenario, Version, Entity, and Account. These dimensions are foundational to planning applications and are preconfigured for security settings out of the box.

* A. Scenario: Defines different planning scenarios (e.g., Budget, Forecast), and access permissions determine which scenarios a user can view or edit.

* B. Version: Controls access to different versions of data (e.g., Working, Final), allowing segregation of draft and approved plans.

* C. Entity: Represents organizational units (e.g., departments, divisions), and permissions restrict access to specific entities based on user roles.

* D. Account: Governs access to financial accounts (e.g., Revenue, Expenses), ensuring users only interact with relevant account data.

* E. Period: While Period (e.g., months, quarters) is a critical dimension, it is not enabled for access permissions by default. Access to time periods is typically managed indirectly through other dimensions or data-level security.

* F. Years: Similarly, the Years dimension is not enabled for access permissions by default. It is often controlled through Scenario or Version settings rather than direct permissions.

The default enablement of Scenario, Version, Entity, and Account for access permissions reflects Oracle's design to provide robust security across planning contexts, organizational structures, and financial data.

References

* Oracle Enterprise Performance Management Cloud Documentation: "Managing Security - Access Permissions" (docs.oracle.com, updated 2024). Lists "Scenario, Version, Entity, and Account" as the four dimensions enabled for access permissions by default.

* Oracle Planning 2024 Implementation Study Guide: Confirms that these four dimensions are preconfigured for security settings to control user access.

NEW QUESTION # 42

A Department Manager requires access to all accounts in their own department, but only a certain account in all other departments. With the usual metadata security, the Manager would have access to all accounts across all departments.

- A. Artifact security
- **B. Cell-level security**
- C. Access control
- D. Member security

Answer: B

NEW QUESTION # 43

A company would like to configure Financials, Workforce, and Projects. They would like to plan and forecast the Project dimension in Financials, as well as track employee utilization in Projects.

Which two actions must they take to ensure that the Project dimension is shared and the data integrated correctly across all three modules? (Choose two.)

- **A. In Workforce, rename one of the custom dimensions to "Project" and enable it**
- B. In Projects, ensure that the Employee driver-based expense is enabled
- C. In Financials, rename one of the custom dimensions to "Project" and enable it
- **D. In Workforce, ensure that the granularity is at Employee or Employee and Job**

Answer: A,D

NEW QUESTION # 44

In Strategic Modeling, you have a deficit and want to balance the model.

Which two statements describe funding options you can take when you have a deficit and want to balance the model?

- **A. You can decrease Dividends or Assets to balance the model.**
- B. You can decrease Preferred to balance the model.
- C. You can increase Contra-Equity to balance the model.
- **D. You can increase Debt or Equity to balance the model.**

Answer: A,D

Explanation:

In Oracle Planning 2024's Strategic Modeling module, balancing a model with a deficit involves adjusting funding options to ensure cash flow or balance sheet equilibrium. When there's a deficit (e.g., insufficient cash), you can either increase inflows or decrease outflows. The two valid statements are:

* A. You can decrease Preferred to balance the model: Incorrect. "Preferred" typically refers to preferred stock (an equity component), but decreasing it (e.g., reducing preferred equity) would not directly increase available funds to cover a deficit—it might

even worsen it by reducing capital.

* B. You can increase Debt or Equity to balance the model: Correct. Increasing Debt (e.g., issuing loans) or Equity (e.g., issuing stock) provides additional funds to cover a deficit, a common strategy in Strategic Modeling to balance cash needs.

* C. You can decrease Dividends or Assets to balance the model: Correct. Decreasing Dividends reduces cash outflows, retaining more funds, while decreasing Assets (e.g., selling assets) generates cash inflows, both helping to balance the model.

* D. You can increase Contra-Equity to balance the model: Incorrect. Contra-Equity (e.g., treasury stock) reduces total equity when increased (e.g., buying back shares), which decreases available funds, not helping to balance a deficit.

The Oracle documentation highlights that increasing Debt/Equity or decreasing Dividends/Assets are standard funding options in Strategic Modeling to address deficits, making B and C the correct statements.

NEW QUESTION # 45

.....

The purchase process of our 1z0-1080-25 question torrent is very convenient for all people. In order to meet the needs of all customers, our company is willing to provide all customers with the convenient purchase way. If you buy our 1z0-1080-25 study tool successfully, you will have the right to download our 1z0-1080-25 exam torrent in several minutes, and then you just need to click on the link and log on to your website's forum, you can start to learn our 1z0-1080-25 question torrent. We believe the operation is very convenient for you, and you can operate it quickly. At the same time, we believe that the convenient purchase process will help you save much time.
