

# 1z0-1093-25 exams cram PDF, Oracle 1z0-1093-25 dumps PDF files

BTW, DOWNLOAD part of ExamsTorrent 1z0-1093-25 dumps from Cloud Storage: [https://drive.google.com/open?id=1ad7L\\_01pisBFC\\_2oxboNZLGCH4rB02bn](https://drive.google.com/open?id=1ad7L_01pisBFC_2oxboNZLGCH4rB02bn)

Our 1z0-1093-25 study guide boosts many merits and functions. You can download and try out our 1z0-1093-25 test question freely before the purchase. You can use our product immediately after you buy our product. We provide 3 versions for you to choose and you only need 20-30 hours to learn our 1z0-1093-25 training materials and prepare the exam. The passing rate and the hit rate are both high. We provide 24-hours online customer service and free update within one year. And if you have a try on our 1z0-1093-25 Exam Questions, you will find that there are many advantages of our 1z0-1093-25 training materials.

The study system of our company will provide all customers with the best study materials. If you buy the 1z0-1093-25 latest questions of our company, you will have the right to enjoy all the 1z0-1093-25 certification training materials from our company. More importantly, there are a lot of experts in our company; the first duty of these experts is to update the study system of our company day and night for all customers. By updating the study system of the 1z0-1093-25 Training Materials, we can guarantee that our company can provide the newest information about the 1z0-1093-25 exam for all people.

## 1z0-1093-25 Braindump Free | Certification 1z0-1093-25 Training

By contrasting with other products in the industry, our 1z0-1093-25 test guide really has a higher pass rate, which has been verified by many users. As long as you use our 1z0-1093-25 exam training I believe you can pass the exam. If you fail to pass the exam, we will give a full refund. 1z0-1093-25 learning guide hopes to progress together with you and work together for their own future. The high passing rate of Oracle Cloud Database Services 2025 Professional exam training guide also requires your efforts. If you choose 1z0-1093-25 test guide, I believe we can together contribute to this high pass rate.

## Oracle 1z0-1093-25 Exam Syllabus Topics:

Topic	Details

Topic 1	<ul style="list-style-type: none"> <li>MySQL HeatWave Technical Overview: This section of the exam measures the skills of a MySQL Cloud Specialist and introduces MySQL HeatWave, Oracle's high-performance analytics engine for MySQL. It includes provisioning, migrating existing MySQL databases to HeatWave, and working with its analytical and machine-learning capabilities. It also covers day-to-day operational activities within the MySQL HeatWave environment.</li> </ul>
Topic 2	<ul style="list-style-type: none"> <li>Base Database Service - VM (BaseDB): This section of the exam measures the skills of a Cloud Database Administrator and covers the foundational elements of Oracle's Base Database Service. It includes understanding what the BaseDB service is, how to provision and manage it, and lifecycle operations such as backups, recovery, patching, and upgrades. It also tests familiarity with monitoring and management interfaces used to control and observe the BaseDB environment.</li> </ul>
Topic 3	<ul style="list-style-type: none"> <li>Exadata Database Service (ExaDB): This section of the exam measures the skills of a Database Infrastructure Engineer and focuses on the advanced Exadata Database Service. It includes the provisioning of Exadata systems, management of Exadata Cloud Infrastructure, and VM Cluster administration. It also evaluates knowledge of lifecycle management tasks and how to interact with various Exadata management utilities and interfaces.</li> </ul>
Topic 4	<ul style="list-style-type: none"> <li>NoSQL Database Service Technical Overview: This section of the exam measures the skills of a NoSQL Developer and explores Oracle's NoSQL Database Service. It includes understanding the basics of NoSQL architecture, handling table-level security, rate limiting, and data modeling. It also covers concepts like provisioned throughput and the usage of language SDKs for interacting with NoSQL services on Oracle Cloud.</li> </ul>
Topic 5	<ul style="list-style-type: none"> <li>Oracle Cloud Infrastructure Database Management Service: This section of the exam measures the skills of a Cloud Operations Analyst and provides insight into Oracle's Database Management Service on OCI. It focuses on enabling the service for databases, monitoring their performance, and performing diagnostic and tuning activities. It also covers tasks related to the administration of databases running on Oracle Cloud Infrastructure.</li> </ul>

## Oracle Cloud Database Services 2025 Professional Sample Questions (Q36-Q41):

### NEW QUESTION # 36

Which two actions can be performed using the Automatic Database Diagnostic Monitor (ADDM) within Database Management to diagnose cloud database performance?

- A. Automatically create indexes to improve query performance.
- B. Generate recommendations for SQL plan baselines.**
- C. Identify root causes of performance bottlenecks, such as excessive I/O or CPU contention.**
- D. Automatically apply all ADDM recommendations to the database.

**Answer: B,C**

Explanation:

A: Generate recommendations for SQL plan baselines:

\* ADDM analyzes historical data and SQL execution plans, suggesting baseline adjustments to optimize performance.

\* Recommendations may include using an existing baseline or creating a new one.

C: Identify performance bottlenecks:

\* ADDM pinpoints issues related to:

\* I/O contention

\* CPU utilization

\* Memory bottlenecks

\* Locking issues

\* Helps DBAs understand which database components are causing slowdowns.

Why the other options are incorrect:

\* B. Automatically applying recommendations: ADDM only suggests actions; DBAs must manually review and implement them.

\* D. Creating indexes: ADDM does not create indexes automatically; it may suggest them, but implementation requires DBA action.

### NEW QUESTION # 37

When provisioning a new BaseDB VM, which statement BEST describes the relationship between the available Database Versions and the selected Operating System image?

- A. All Database Versions are compatible with all Operating System images available in the OCI Marketplace.
- B. The Database Version determines the Operating System image that will be used, irrespective of the initially selected image.
- C. Only Database Versions compatible with the underlying Operating System image are presented as options during provisioning.
- D. The chosen Operating System image is automatically upgraded to the latest version compatible with the selected Database Version after provisioning.

**Answer: C**

Explanation:

B: Only compatible Database Versions are presented:

- \* The provisioning process filters out incompatible combinations, presenting only database versions that match the chosen OS image.
- \* This ensures that the database software can run properly on the selected OS.
- \* This compatibility check prevents deployment failures and ensures system stability.

Why the other options are incorrect:

- \* A. All Database Versions are compatible:Incorrect; some versions are OS-specific.
- \* C. Automatic OS upgrade:OCI does not automatically upgrade the OS for compatibility.
- \* D. Database version determines OS image:The OS image is selected independently, with the system ensuring compatibility.

### NEW QUESTION # 38

When migrating to MySQL HeatWave on Oracle Cloud Infrastructure (OCI), what is the recommended method for securely transferring large database backups?

- A. Using the Oracle Cloud Infrastructure Data Transfer Service with physical storage appliances.
- B. Transferring the backup files directly over the public internet using FTP.
- C. Creating a secure VPN connection and transferring the backup files using scp.
- D. Shipping physical hard drives containing the backup files to the OCI data center.
- E. Use of Data Pump with a database link.

**Answer: A**

Explanation:

Secure Transfer with OCI Data Transfer Service:

The OCI Data Transfer Service is designed to securely transfer large datasets, including database backups, to the cloud. It involves:

- \* Using physical storage appliances to copy data locally and then shipping these devices to OCI data centers.
- \* Data is encrypted and securely transported, minimizing the risks associated with online transfers.
- \* This method is cost-effective and practical for terabytes or petabytes of data, avoiding bandwidth limitations and reducing transfer time.

Why the other options are incorrect:

- \* A:FTP over the public internet is insecure and slow.
- \* B:Physical hard drives without encryption and secure handling increase data breach risks.
- \* D:SCP over VPN is secure but impractical for extremely large datasets.
- \* E:Data Pump is useful for database-to-database transfers, not large file migrations.

### NEW QUESTION # 39

Which of the following statements accurately describes the recommended procedure for patching Grid Infrastructure in a BaseDB VM system where the database is NOT managed by Oracle Cloud Infrastructure (OCI)?

- A. Apply the Grid Infrastructure patch first, then apply the database patch, after validating the GI is working correctly.
- B. Apply the database patch first, then apply the Grid Infrastructure patch to ensure compatibility.
- C. You cannot manually patch Grid Infrastructure in a BaseDB VM system; Oracle Cloud Infrastructure manages all patching operations.
- D. Apply the Grid Infrastructure patch directly to the DB system. OCI handles the patching order for all components

automatically.

#### Answer: A

Explanation:

Recommended Patching Order:

In Oracle environments, it is crucial to patch Grid Infrastructure (GI) first because GI components are responsible for managing cluster resources and storage. Applying GI patches before database patches ensures that the underlying infrastructure is compatible and stable.

\* After the GI patching, validate the environment to ensure all components are functioning correctly before proceeding with database software updates.

\* This order minimizes the risk of downtime or compatibility issues.

Why the other options are incorrect:

\* A: OCI does not automatically handle manual patching in non-managed DB systems.

\* B: Applying the database patch first may result in compatibility problems.

\* D: Users can manually patch Grid Infrastructure in BaseDB VMs.

#### NEW QUESTION # 40

Which data formats are directly supported by the HeatWave Lakehouse feature for querying data in object storage?

- A. Only XML files.
- B. Only CSV (Comma Separated Values) files.
- C. Only Parquet files.
- D. Only JSON files.
- E. CSV, Parquet, and Avro files.

#### Answer: E

Explanation:

C: CSV, Parquet, and Avro files:

\* HeatWave Lakehouse can directly query data stored in OCI Object Storage without loading it into MySQL.

\* Supports widely-used data formats:

\* CSV (Comma Separated Values): Simple, text-based data format.

\* Parquet: Columnar storage format optimized for analytical queries.

\* Avro: Row-oriented format used for data serialization.

\* This versatility allows integrating data from various sources and querying directly.

Why the other options are incorrect:

\* A. Only CSV files: HeatWave supports more than just CSV.

\* B. Only Parquet files: HeatWave also supports CSV and Avro.

\* D. Only JSON files: JSON is not directly supported by HeatWave Lakehouse.

\* E. Only XML files: XML is not directly supported.

#### NEW QUESTION # 41

.....

In order to help customers, who are willing to buy our 1z0-1093-25 test torrent, make good use of time and accumulate the knowledge, Our company have been trying our best to reform and update our 1z0-1093-25 exam tool. “Quality First, Credibility First, and Service First” is our company’s purpose, we deeply hope our 1z0-1093-25 Study Materials can bring benefits and profits for our customers. So we have been persisting in updating our 1z0-1093-25 test torrent and trying our best to provide customers with the latest 1z0-1093-25 study materials to help you pass the 1z0-1093-25 exam and obtain the certification.
