

# 1z0-1110-25 Torrent, 1z0-1110-25 Reliable Study Guide

What's more, part of that GetValidTest 1z0-1110-25 dumps now are free: <https://drive.google.com/open?id=1HqkNmKPJBfvUvPXFDXonLkNxxsAUengL>

There are multiple companies offering 1z0-1110-25 exam material in the market, so we totally understand your inquisitiveness that whom to trust. For your convenience, GetValidTest gives you a chance to try a free demo of Oracle 1z0-1110-25 Exam Questions, which means you can buy the product once you are satisfied with the features and you think it can actually help you to pass your certification exam.

## Oracle 1z0-1110-25 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"><li>• Use Related OCI Services: This final section measures the competence of Machine Learning Engineers in utilizing OCI-integrated services to enhance data science capabilities. It includes creating Spark applications through OCI Data Flow, utilizing the OCI Open Data Service, and integrating other tools to optimize data handling and model execution workflows.</li></ul>
Topic 2	<ul style="list-style-type: none"><li>• Implement End-to-End Machine Learning Lifecycle: This section evaluates the abilities of Machine Learning Engineers and includes an end-to-end walkthrough of the ML lifecycle within OCI. It involves data acquisition from various sources, data preparation, visualization, profiling, model building with open-source libraries, Oracle AutoML, model evaluation, interpretability with global and local explanations, and deployment using the model catalog.</li></ul>
Topic 3	<ul style="list-style-type: none"><li>• Apply MLOps Practices: This domain targets the skills of Cloud Data Scientists and focuses on applying MLOps within the OCI ecosystem. It covers the architecture of OCI MLOps, managing custom jobs, leveraging autoscaling for deployed models, monitoring, logging, and automating ML workflows using pipelines to ensure scalable and production-ready deployments.</li></ul>

Topic 4	<ul style="list-style-type: none"> <li>• Create and Manage Projects and Notebook Sessions: This part assesses the skills of Cloud Data Scientists and focuses on setting up and managing projects and notebook sessions within OCI Data Science. It also covers managing Conda environments, integrating OCI Vault for credentials, using Git-based repositories for source code control, and organizing your development environment to support streamlined collaboration and reproducibility.</li> </ul>
Topic 5	<ul style="list-style-type: none"> <li>• OCI Data Science - Introduction &amp; Configuration: This section of the exam measures the skills of Machine Learning Engineers and covers foundational concepts of Oracle Cloud Infrastructure (OCI) Data Science. It includes an overview of the platform, its architecture, and the capabilities offered by the Accelerated Data Science (ADS) SDK. It also addresses the initial configuration of tenancy and workspace setup to begin data science operations in OCI.</li> </ul>

## **2025 Authoritative 1z0-1110-25 – 100% Free Torrent | 1z0-1110-25 Reliable Study Guide**

The Oracle wants to become the first choice for quick and complete Oracle 1z0-1110-25 exam preparation. To achieve this objective the Oracle has hired a team of experienced and qualified 1z0-1110-25 Exam trainers. They have years of experience in verifying Oracle Cloud Infrastructure 2025 Data Science Professional exam practice test questions.

### **Oracle Cloud Infrastructure 2025 Data Science Professional Sample Questions (Q71-Q76):**

#### **NEW QUESTION # 71**

You are given a task of writing a program that sorts document images by language. Which Oracle AI Service would you use?

- A. OCI Vision
- B. OCI Speech
- C. Oracle Digital Assistant
- D. OCI Language

**Answer: D**

Explanation:

Detailed Answer in Step-by-Step Solution:

- \* Objective: Select an OCI AI service to sort images by language.
- \* Evaluate Options:
  - \* A: Digital Assistant-Chatbots, not image/language processing.
  - \* B: Vision-Image analysis (e.g., object detection), not language sorting.
  - \* C: Speech-Audio-to-text, not image-based.
  - \* D: Language-Text analysis (e.g., language detection) after OCR-correct.
- \* Reasoning: Images need OCR (Vision) then language detection (Language)-D fits the sorting task.
- \* Conclusion: D is correct.

OCI Language "detects and classifies languages in text," often paired with OCI Vision's OCR to process document images. Vision (B) extracts text, but Language (D) sorts by language-Digital Assistant (A) and Speech (C) don't apply. Documentation supports this workflow.

Oracle Cloud Infrastructure Language Documentation, "Language Detection".

#### **NEW QUESTION # 72**

During a job run, you receive an error message that no space is left on your disk device. To solve the problem, you must increase the size of the job storage. What would be the most efficient way to do this with Data Science Jobs?

- A. Your code using too much disk space. Refactor the code to identify the problem
- B. **Create a new job with increased storage size and then run the job**
- C. Edit the job, change the size of the storage of your job, and start a new job run

- D. On the job run, set the environment variable that helps increase the size of the storage

**Answer: B**

Explanation:

Detailed Answer in Step-by-Step Solution:

- \* Objective: Efficiently increase storage for an OCI Job.
- \* Understand Jobs: Storage (block volume) is set at job creation, not dynamically adjustable.
- \* Evaluate Options:
  - \* A: False-Jobs can't edit storage post-creation; it's fixed.
  - \* B: False-No environment variable adjusts storage size.
  - \* C: True-Create a new job with larger storage (e.g., 200 GB) and run it.
  - \* D: False-Refactoring code is inefficient compared to increasing storage.
- \* Reasoning: C is the standard OCI process for adjusting resources.
- \* Conclusion: C is correct.

OCI documentation states: "Storage size for a Data Science Job is specified during job creation (e.g., block volume size). To increase it, create a new job with a larger storage configuration and initiate a new run." Editing (A) isn't supported, variables (B) don't apply, and refactoring (D) avoids the issue-only C is efficient.

Oracle Cloud Infrastructure Data Science Documentation, "Jobs - Storage Configuration".

**NEW QUESTION # 73**

Which cache rules criterion matches if the concatenation of the requested URL path and query are identical to the contents of the value field?

- A. URL\_PART\_CONTAINS
- B. URL\_PART\_ENDS\_WITH
- C. URL\_STARTS\_WITH
- D. URL\_IS

**Answer: D**

Explanation:

Detailed Answer in Step-by-Step Solution:

- \* Objective: Match a cache rule criterion for exact URL path and query.
- \* Understand Cache Rules: Used in OCI (e.g., WAF, CDN) to cache content.
- \* Evaluate Options:
  - \* A: Contains-Partial match, not exact.
  - \* B: Is-Exact match of full URL (path + query)-correct.
  - \* C: Ends with-Matches end, not full URL.
  - \* D: Starts with-Matches start, not full URL.
- \* Reasoning: "URL\_IS" checks exact equality-fits requirement.
- \* Conclusion: B is correct.

OCI documentation states: "The URL\_IS (B) criterion in cache rules matches when the full URL (path and query) exactly equals the specified value." A, C, and D are partial matches-only B ensures identical concatenation per OCI's caching config.

Oracle Cloud Infrastructure WAF Documentation, "Cache Rules Criteria".

**NEW QUESTION # 74**

You are a data scientist building a pipeline in the Oracle Cloud Infrastructure (OCI) Data Science service for your machine learning project. You want to optimize the pipeline completion time by running some steps in parallel. Which statement is true about running pipeline steps in parallel?

- A. Parallel steps cannot be run if they are completely independent of each other
- B. All pipeline steps are always run in parallel
- C. Pipeline steps can be run in sequence or in parallel, as long as they create a directed acyclic graph (DAG)
- D. Steps in a pipeline can be run only sequentially

**Answer: C**

Explanation:

Detailed Answer in Step-by-Step Solution:

- \* Objective: Understand parallel execution in OCI Pipelines.
- \* Evaluate Options:
  - \* A: False-Pipelines support parallelism.
  - \* B: True-DAG allows sequential/parallel steps-correct.
  - \* C: False-Not all steps must be parallel.
  - \* D: False-Independence enables parallelism.
- \* Reasoning: B reflects OCI's DAG-based flexibility.
- \* Conclusion: B is correct.

OCI documentation states: "Pipeline steps can run sequentially or in parallel, defined by a directed acyclic graph (DAG) (B), allowing optimization of completion time." A, C, and D misrepresent this-only B aligns with OCI's pipeline design.

Oracle Cloud Infrastructure Data Science Documentation, "Pipeline Parallelism".

## NEW QUESTION # 75

You want to make your model more frugal to reduce the cost of collecting and processing data. You plan to do this by removing features that are highly correlated. You would like to create a heatmap that displays the correlation so that you can identify candidate features to remove. Which Accelerated Data Science (ADS) SDK method is appropriate to display the comparability between Continuous and Categorical features?

- A. `correlation_ratio_plot()`
- B. `pearson_plot()`
- C. `cramersv_plot()`
- D. `corr()`

**Answer: A**

Explanation:

Detailed Answer in Step-by-Step Solution:

- \* Objective: Visualize correlation between continuous and categorical features.
- \* Evaluate Options:
  - \* A: Pearson-Continuous vs. continuous-incorrect.
  - \* B: Cramer's V-Categorical vs. categorical-incorrect.
  - \* C: Correlation ratio-Continuous vs. categorical-correct.
  - \* D: General correlation-Not specific to mixed types.
- \* Reasoning: Correlation ratio handles mixed feature types for heatmaps.
- \* Conclusion: C is correct.

OCI documentation states: "correlation\_ratio\_plot() (C) in ADS SDK visualizes correlations between continuous and categorical features, ideal for mixed-type heatmaps." Pearson (A) and Cramer's (B) are type-specific, corr() (D) is broad-only C fits per ADS capabilities.

Oracle Cloud Infrastructure ADS SDK Documentation, "Correlation Visualization".

## NEW QUESTION # 76

.....

It is possible for you to easily pass 1z0-1110-25 exam. Many users who have easily pass 1z0-1110-25 exam with our 1z0-1110-25 exam software of GetValidTest. You will have a real try after you download our free demo of 1z0-1110-25 Exam software. We will be responsible for every customer who has purchased our product. We ensure that the 1z0-1110-25 exam software you are using is the latest version.
