Oracle Cloud Fusion Analytics Warehouse 2023 Implementation Professional Sample Questions (Q35-Q40):

NEW QUESTION # 35

Your development team has created multiple steps in the semantic model. You want to review these steps and possibly roll them back.

What is the rollback process?

- A. You must open a ticket with Oracle support for the steps that require rollback.
- B. Review all the steps that are merged inside the "User Extension" main area. To rollback, you can then disable the steps.
- C. You must review all the steps in the branch before merging. Once you merge the branch, there is no rollback.

Answer: B

Explanation:

Explanation

You can review and rollback the steps that are merged in the semantic model by using the "User Extension" main area. This area shows all the steps that are applied to the model, such as adding or extending dimensions, facts, and subject areas. You can disable any step by clicking on the toggle button next to it. This will remove the effect of that step from the model

NEW QUESTION # 36

FAW allows you to define custom data security to meet complex requirements.

What steps would you take to override the default data security for specific users?

- A. You need to create a custom duty role and set up data filters that specify the values for specific dimensions.
- **B. You need to create a custom data role and set up data filters that specify the values for specific dimensions.**
- C. You must create reports for your target users with filters that meet your security requirements.

Answer: B

Explanation:

Explanation

The steps that you would take to override the default data security for specific users are to create a custom data role and set up data filters that specify the values for specific dimensions. A custom data role allows you to define custom data security filters and apply them to dimensions, facts, or subject areas. You can then assign the custom data role to the users who need to have different data access than the default². You do not need to create a custom duty role or create reports with filters to override the default data security.

NEW QUESTION # 37

Which FAW system role/group is required to grant a user the privilege to manage data augmentation?

- **A. Modeler**
- B. Functional Administrator
- C. Security Administrator

Answer: A

Explanation:

Explanation

The FAW system role/group that is required to grant a user the privilege to manage data augmentation is Modeler. The Modeler role allows the user to create and manage data augmentations, as well as semantic model extensions, snapshots, and bundles¹. The Functional Administrator role allows the user to manage functional areas, data pipelines, and data refreshes². The Security Administrator role allows the user to manage users, groups, roles, and access³.

NEW QUESTION # 38

During the creation of the FAW instance, you have to provide the Fusion Application connection details and authentication information.

Which method of authentication is recommended by Oracle?

- A. Password-based
- **B. JSON Web Token**
- C. Multi-factor authentication

Answer: B

Explanation:

Explanation

JSON Web Token (JWT) is the recommended method of authentication by Oracle for creating the FAW instance. JWT is a secure and self-contained way of transmitting information between parties as a JSON object. It is used to assert some number of claims

NEW QUESTION # 39

You are aware that a new FAW version just became available.

What is the best practice for upgrading a FAW instance to the latest version?

- **A. Wait until Oracle upgrades the instance.**
- B. Open an SR with Oracle.
- C. Schedule the upgrade through the FAW console.

Answer: A

Explanation:

Explanation

The best practice for upgrading a FAW instance to the latest version is to schedule the upgrade through the FAW console. You can use the Upgrade option on the Console page to select the available version and schedule a date and time for the upgrade. You can also view the status and history of your upgrades on the same page¹. You do not need to open an SR with Oracle or wait until Oracle upgrades the instance for this purpose.
