After passing the Oracle 1Z0-1122-25 exam you can gain more career opportunities and feel confident to pursue a rewarding career in your professional life. You can enhance your earning, get an instant promotion, can use the Oracle 1Z0-1122-25 Certification badge, and will be ready to gain more job roles.

Best practice indicates that people who have passed the 1Z0-1122-25 exam would not pass the exam without the help of the 1Z0-1122-25 study materials. So the study materials will be very important for all people. If you also want to pass the exam and get the related certification in a short, the good study materials are the best choice for you. Now we are going to make an introduction about the 1Z0-1122-25 Study Materials from our company for you. We sincerely hope that our study materials will help you achieve your dream.

Most Recent Oracle 1Z0-1122-25 Exam Questions – Verified By Oracle Experts

The Oracle 1Z0-1122-25 certification exam also enables you to stay updated and competitive in the market which will help you to gain more career opportunities. Do you want to gain all these 1Z0-1122-25 certification exam benefits? Looking for the quick and complete Oracle Cloud Infrastructure 2025 AI Foundations Associate (1Z0-1122-25) exam dumps preparation way that enables you to pass the Oracle Cloud Infrastructure 2025 AI Foundations Associate in 1Z0-1122-25 certification exam with good scores?

Oracle Cloud Infrastructure 2025 AI Foundations Associate Sample Questions (Q19-Q24):

NEW QUESTION # 19

Which type of machine learning is used to understand relationships within data and is not focused on making predictions or classifications?

- A. Reinforcement learning
- B. Active learning
- C. Supervised learning
- D. Unsupervised learning

Answer: D

Explanation:

Unsupervised learning is a type of machine learning that focuses on understanding relationships within data without the need for labeled outcomes. Unlike supervised learning, which requires labeled data to train models to make predictions or classifications, unsupervised learning works with unlabeled data and aims to discover hidden patterns, groupings, or structures within the data. Common applications of unsupervised learning include clustering, where the algorithm groups data points into clusters based on similarities, and association, where it identifies relationships between variables in the dataset. Since unsupervised learning does not predict outcomes but rather uncovers inherent structures, it is ideal for exploratory data analysis and discovering previously unknown patterns in data .

NEW QUESTION # 20

Which AI domain can be employed for identifying patterns in images and extract relevant features?

- A. Computer Vision
- B. Natural Language Processing
- C. Anomaly Detection
- D. Speech Processing

Answer: A

Explanation:

Computer Vision is the AI domain specifically employed for identifying patterns in images and extracting relevant features. This field focuses on enabling machines to interpret and understand visual information from the world, automating tasks that the human visual system can perform, such as recognizing objects, analyzing scenes, and detecting anomalies. Techniques in Computer Vision are widely used in applications ranging from facial recognition and image classification to medical image analysis and autonomous vehicles.

NEW QUESTION # 21

What can Oracle Cloud Infrastructure Document Understanding NOT do?

- A. Extract tables from documents
- B. Classify documents into different types
- C. Generate transcript from documents
- D. Extract text from documents

Answer: C

Explanation:

Oracle Cloud Infrastructure (OCI) Document Understanding service offers several capabilities, including extracting tables, classifying documents, and extracting text. However, it does not generate transcripts from documents. Transcription typically refers to converting spoken language into written text, which is a function associated with speech-to-text services, not document understanding services. Therefore, generating a transcript is outside the scope of what OCI Document Understanding is designed to do .

NEW QUESTION # 22

What are Convolutional Neural Networks (CNNs) primarily used for?

- **A. Image classification**
- B. Image generation
- C. Text processing
- D. Time series prediction

Answer: A

Explanation:

Convolutional Neural Networks (CNNs) are primarily used for image classification and other tasks involving spatial data. CNNs are particularly effective at recognizing patterns in images due to their ability to detect features such as edges, textures, and shapes across multiple layers of convolutional filters. This makes them the model of choice for tasks such as object recognition, image segmentation, and facial recognition.

CNNs are also used in other domains like video analysis and medical image processing, but their primary application remains in image classification.

NEW QUESTION # 23

You are working on a project for a healthcare organization that wants to develop a system to predict the severity of patients' illnesses upon admission to a hospital. The goal is to classify patients into three categories - Low Risk, Moderate Risk, and High Risk - based on their medical history and vital signs. Which type of supervised learning algorithm is required in this scenario?

- A. Binary Classification
- **B. Multi-Class Classification**
- C. Regression
- D. Clustering

Answer: B

Explanation:

In this healthcare scenario, where the goal is to classify patients into three categories-Low Risk, Moderate Risk, and High Risk-based on their medical history and vital signs, a Multi-Class Classification algorithm is required. Multi-class classification is a type of supervised learning algorithm used when there are three or more classes or categories to predict. This method is well-suited for situations where each instance needs to be classified into one of several categories, which aligns with the requirement to categorize patients into different risk levels.

NEW QUESTION # 24

.....

With the quick development of the electronic products, more and more electronic devices are designed to apply to our life. Accordingly there are huge changes on the study models of our 1Z0-1122-25 exam dumps as well. There are three different versions of our 1Z0-1122-25 Study Guide designed by our specialists in order to satisfy varied groups of people. They are version of the PDF, the Software and the APP online. All these versions of 1Z0-1122-25 practice materials are easy and convenient to use.
