What you can set your mind at rest is that the 1Z0-1126-1 exam materials are very high quality. 1Z0-1126-1 exam materials draw up team have a strong expert team to constantly provide you with an effective training resource. They continue to use their rich experience and knowledge to study the real exam questions of the past few years, to draw up such an exam materials for you. In other words, you can never worry about the quality of 1Z0-1126-1 Exam Materials, you will not be disappointed.

Oracle Guided Learning Project Management Foundations Associate - Rel 1 Sample Questions (Q72-Q77):

NEW QUESTION # 72

In the Focus phase, which activity is the responsibility of the Functional Consultant?

- A. Complete relevant digital learning through online training resources and tools to become familiar with OGL content development
- B. Sign off on OGL content items to signal that content is ready for publishing and end-user consumption
- C. Collaborate with business process owners to customize OGL templates relevant to the client's application customization

Answer: C

Explanation:

During the Focus phase, which centers on aligning OGL with business needs, the Functional Consultant's role is to collaborate with business process owners to customize OGL templates (option C). This ensures content reflects the client's specific application customizations, enhancing relevance and usability. Signing off on content (option A) typically falls to project managers or content approvers in later phases like Refine, while completing digital learning (option B) is a preparatory step, not a core Focus-phase duty. The Functional Consultant's expertise in business processes and application configuration makes them pivotal in tailoring templates, bridging technical and operational requirements effectively.

NEW QUESTION # 73

What does Oracle Business Process Training help your team accomplish?

- A. Monitor feedback from end users, refine your processes, advance your team's charter, and align sponsors and stakeholders
- **B. Refine your business processes, mature your team's performance, and enable your team with best practices for developing OGL content.**
- C. Align with a common framework, accelerate project planning, and understand the interdependencies between processes and data

Answer: B

Explanation:

Oracle Business Process Training refines processes, matures team performance, and provides best practices for OGL content development, aligning with its educational goals. Options A and C focus on unrelated or broader objectives.

NEW QUESTION # 74

Which analytics dashboard is used to provide insight about user behavior in the application?

- A. Smart Tips dashboard
- **B. Hotspots dashboard**
- C. Optimization dashboard
- D. Process guides dashboard

Answer: B

Explanation:

The Hotspots dashboard in OGL is specifically designed to provide insights into user behavior within the host application by tracking where users click, hover, or encounter difficulties. It uses heatmaps or similar visualizations to highlight high-interaction areas, revealing patterns like frequent errors or popular navigation paths. This behavioral focus sets it apart from other dashboards: a Smart Tips dashboard (option A) would focus on tip-specific usage (not a standard OGL dashboard), a Process guides dashboard (option C) isn't a recognized entity in OGL analytics, and an Optimization dashboard (option D) is vague and not standard. The Hotspots dashboard's ability to map user interactions makes it invaluable for optimizing content placement and improving user experience, directly addressing the question's intent.

NEW QUESTION # 75

What can information from the Application dashboard be used for?

- A. Deliver a full picture on the types of content.
- B. Show decision-makers' feedback from end users.
- **C. Identify high-usage days to launch messages.**

Answer: C

Explanation:

The Application dashboard in OGL provides data on application usage patterns, such as peak times or high-traffic days, which can be leveraged to strategically launch messages or notifications when users are most active (option A). This timing optimization enhances visibility and engagement. Option B (types of content) aligns with the Content dashboard, not Application, while option C

(feedback) pertains to the Feedback dashboard. The Application dashboard's focus on usage trends rather than content specifics or feedback makes it a tactical tool for communication planning, ensuring messages reach users at optimal moments based on their interaction habits.

NEW QUESTION # 76

What is an example of project goals for go live?

- A. Identify OGL templates that will be relevant and in alignment with the project strategy.
- **B. Assist users in logging in, touring the application, and taking care of essential tasks for day one.**
- C. Complete the relevant digital learning in MyLearn.

Answer: B

Explanation:

A key go-live project goal is to assist users in logging in, touring the application, and handling essential tasks on day one (option B), ensuring immediate usability and minimal disruption. Identifying templates (option A) is a design-phase activity, while completing digital learning (option C) is preparatory, not a go-live goal. Option B focuses on practical user enablement, aligning with OGL's purpose of guiding users through critical first-day actions, making it a tangible, user-centric target for a successful launch.

NEW QUESTION # 77

.....

Full refund is available if you fail to pass the exam in your first attempt after buying 1Z0-1126-1 exam bootcamp from us, and we will refund your money, In addition, 1Z0-1126-1 exam dumps contain both questions and answers, and it's convenient for you to check the answers after practicing. 1Z0-1126-1 exam botcamp cover most of the knowledge points of the exam, and you can master the major knowledge points as well as improve your professional ability in the process of training.
