

1Z0-1163-1 Musterprüfungsfragen & 1Z0-1163-1 Online Prüfung

Wollen Sie Oracle 1Z0-1163-1 Zertifizierungsprüfung bestehen und auch die 1Z0-1163-1 Zertifizierung besitzen? Wir ExamFragen können Ihren Erfolg gewährleisten. Es ist sehr wichtig, die entsprechenden Kenntnisse der 1Z0-1163-1 Prüfung vorzubereiten. Und es ist auch sehr wichtig, das geeignete hocheffektive Gerät zu benutzen. Oracle 1Z0-1163-1 Dumps von ExamFragen sind unbedingt das beste Lerngerät, das geeignet für Sie ist. Sie können auch unglaubliche Ergebnisse von diesen hocheffektiven Dumps gefunden. Fürchten Sie sich Misserfolg der Oracle 1Z0-1163-1 Prüfungen, klicken Sie bitte ExamFragen und Informieren Sie sich.

Oracle 1Z0-1163-1 Prüfungsplan:

Thema	Einzelheiten
Thema 1	• OMBPs for Logistics: This section tests the expertise of Logistics Coordinators in optimizing logistics and transportation management within Oracle Cloud Applications. It covers the process flows, best practices for logistics operations, and integration of different logistics modules. Candidates will understand performance metrics that impact supply chain visibility, efficiency, and customer satisfaction.
Thema 2	• Oracle Cloud Success Navigator & Oracle Cloud Quality Standards: This section evaluates the skills of Cloud Implementation Managers in leveraging Oracle Cloud Success Navigator and Quality Standards for cloud adoption. It explains how best practices are embedded into Oracle Cloud Applications and applied using Starter Configuration. Candidates will understand how to optimize cloud performance and ensure successful deployments following Oracle's quality guidelines.

Thema 3	• OMBPs for Sustainability: This section assesses the knowledge of Sustainability Specialists in integrating environmental and social responsibility into supply chain and procurement processes. It focuses on the benefits of aligning sustainability goals with business operations, ensuring compliance with global regulations, and implementing eco-friendly best practices.
Thema 4	• OMBPs for Manufacturing: This section measures the skills of Manufacturing Operations Managers in utilizing Oracle Cloud's manufacturing capabilities. It explains the flow of manufacturing processes, module integration, and best practices that enhance operational efficiency. Candidates will analyze metrics that assess productivity, cost control, and overall manufacturing performance.
Thema 5	• Oracle Cloud Applications and Oracle Modern Best Practice (OMBP): This section of the exam measures the skills of Cloud Application Consultants in understanding Oracle Cloud Applications and their capabilities. It covers the key offerings within the Oracle Cloud ecosystem and highlights the features of the Oracle SCM suite. Candidates will learn about data flow between the SCM OMBPs and how these processes optimize supply chain management.
Thema 6	• OMBPs for Order Management: This section evaluates the proficiency of Order Fulfillment Analysts in managing Oracle Cloud's order management modules. It covers the process flow and integration of different components to streamline order processing. Candidates will study key design considerations and metrics related to customer satisfaction, order fulfillment efficiency, and accuracy in managing customer demand.

Die seit kurzem aktuellsten Oracle 1Z0-1163-1 Prüfungsunterlagen, 100% Garantie für Ihren Erfolg in der Oracle Fusion Cloud Applications SCM Foundations Associate - Rel 1 Prüfungen!

Wollen Sie an Oracle 1Z0-1163-1 Zertifizierungsprüfung teilnehmen? Sorgen Sie sich um diese Prüfung? Wünschen Sie sich an der 1Z0-1163-1 Prüfung melden aber Fürchten Sie Misserfolg an dieser Prüfung? Das macht nichts, melden Sie getrost an. Wenn Sie ExamFragen Prüfungsunterlagen benutzen, sind keine Probleme in Ihrer Prüfung vorhanden. Obwohl Sie keine Zuversicht dieser Prüfung haben, können Sie einmal diese Prüfung bestehen, wenn Sie 1Z0-1163-1 Dumps von ExamFragen benutzen. Glauben Sie nicht? Kommen Sie bitte zu ExamFragen und Informieren Sie sich. Außerdem können Sie einen Teil der Oracle 1Z0-1163-1 Dumps probieren. Damit können Sie finden, dass die Prüfungsunterlagen die Garantie für den Erfolg der Oracle 1Z0-1163-1 Prüfung sind.

Oracle Fusion Cloud Applications SCM Foundations Associate - Rel 1 1Z0-1163-1 Prüfungsfragen mit Lösungen (Q24-Q29):

24. Frage

Which feature in Oracle Fusion Cloud SCM provides real-time order promising based on supply and demand constraints?

- A. Supplier Portal.
- B. Cost Accounting.
- C. Manufacturing Execution.
- D. Global Order Promising.

Antwort: D

Begründung:

Global Order Promising (A) provides real-time order promising by analyzing supply (inventory, production) and demand (orders, forecasts) constraints across the enterprise. For instance, if a customer requests 100 units and only 80 are available with a 2-day production lead time, GOP promises delivery in 2 days. Option B (Supplier Portal) supports collaboration, not promising. Option C (Manufacturing Execution) tracks production, not order commitments. Option D (Cost Accounting) handles financials. GOP enhances customer trust and planning accuracy by delivering feasible, data-driven promises.

25. Frage

What is the main purpose of the Supply Chain Collaboration feature in Oracle Fusion Cloud SCM?

- A. It automates internal financial reporting without supplier interaction.
- **B. It enables real-time communication between suppliers and buyers for improved supply chain visibility.**
- C. It eliminates the need for supplier contracts.

Antwort: B

Begründung:

The Supply Chain Collaboration feature in Oracle Fusion Cloud SCM facilitates real-time communication between suppliers and buyers through tools like the Supplier Portal, improving visibility into supply chain activities such as order status and inventory levels. Option A is incorrect as it involves supplier interaction, not just internal reporting. Option B is false-contracts remain essential. This collaboration enhances coordination and responsiveness across the supply chain.

26. Frage

Which process in Oracle Fusion Cloud SCM ensures that inventory levels are maintained efficiently?

- **A. Replenishment Planning.**
- B. Cost Accounting.
- C. Manufacturing Execution.
- D. Supplier Qualification.

Antwort: A

Begründung:

Replenishment Planning (D) in Oracle Fusion Cloud SCM ensures inventory levels are maintained efficiently by predicting demand and adjusting supply plans to replenish stock proactively. It uses forecasts and safety stock rules-e.g., ordering 300 units when stock falls to 50 and demand is expected to rise-to prevent shortages or excess inventory. Option A (Supplier Qualification) focuses on supplier evaluation, not inventory maintenance. Option B (Cost Accounting) tracks financials, not stock levels. Option C (Manufacturing Execution) manages production, not replenishment. Replenishment Planning optimizes inventory turnover, reduces carrying costs, and ensures product availability, making it a proactive inventory management tool.

27. Frage

Which feature in Oracle Fusion Cloud SCM ensures optimal inventory levels by tracking stock movement?

- **A. Inventory Management.**
- B. Cost Accounting.
- C. Manufacturing Execution.
- D. Supplier Qualification.

Antwort: A

Begründung:

Inventory Management (D) in Oracle Fusion Cloud SCM ensures optimal inventory levels by tracking stock movement-receipts, transfers, and consumption-and maintaining availability data across warehouses. For example, if stock drops below a reorder point (e.g., 100 units), it triggers replenishment to avoid stockouts while preventing overstocking (e.g., holding 1,000 units when demand is 200). Option A (Supplier Qualification) evaluates suppliers, not inventory levels. Option B (Manufacturing Execution) tracks production, not overall stock. Option C (Cost Accounting) analyzes costs, not physical stock movement. Inventory Management balances service levels with cost efficiency, using real-time data to adjust stock dynamically, critical for operational success and customer satisfaction.

28. Frage

How does embedding Oracle Method Based Practices (OMBP) in Starter Configurations benefit Oracle Fusion Applications implementations?

- A. Enables fully customized setup based on individual customer requirements.
- B. Allows third-party vendors to access and modify configurations.
