1Z0-182 Exam Registration - Practice 1Z0-182 Exam Online

What's more, part of that Prep4sures 1Z0-182 dumps now are free: https://drive.google.com/open?id=11Qi8K94UTnNMBUUO5XBIycgSkyQ54JCh

One advantage is that if you use our 1Z0-182 practice questions for the first time in a network environment, then the next time you use our study materials, there will be no network requirements. You can open the 1Z0-182 real exam anytime and anywhere. It means that it can support offline practicing. And our 1Z0-182 learning braindumps are easy to understand for the questions and answers are carefully compiled by the professionals.

New developments in the tech sector always bring new job opportunities. These new jobs have to be filled with the Oracle Database 23ai Administration Associate (1Z0-182) certification holders. So to fill the space, you need to pass the Oracle Database 23ai Administration Associate (1Z0-182) exam. Earning the Oracle Database 23ai Administration Associate (1Z0-182) certification helps you clear the obstacles you face while working in the Oracle field. To get prepared for the Oracle Database 23ai Administration Associate (1Z0-182) certification exam, applicants face a lot of trouble if the study material is not updated.

Web-Based Practice Test Oracle 1Z0-182 Dumps PDF

The paper materials students buy on the market are often not able to reuse. After all the exercises have been done once, if you want to do it again you will need to buy it again. But with 1Z0-182 test question, you will not have this problem. All customers who purchased 1Z0-182 study tool can use the learning materials without restrictions, and there is no case of duplicate charges. For the PDF version of 1Z0-182 test question, you can print multiple times, practice multiple times, and repeatedly reinforce your unfamiliar knowledge. For the online version, unlike other materials that limit one person online, 1Z0-182 learning dumps does not limit the number of concurrent users and the number of online users. You can practice anytime, anywhere, practice repeatedly, practice with others, and even purchase together with others1Z0-182 learning dumps make every effort to help you save money and effort, so that you can pass the exam with the least cost.

Oracle Database 23ai Administration Associate Sample Questions (Q42-Q47):

NEW QUESTION # 42
Your data center uses Oracle Managed Files (OMF) for all databases. All tablespaces are smallfile tablespaces. SALES_Q1 is a permanent user-defined tablespace in the SALES database. The following command is about to be issued by a DBA logged in to the SALES database: ALTER TABLESPACE sales_q1 ADD DATAFILE; Which two actions independently ensure that the command executes successfully?

- A. Ensure that DB_RECOVERY_FILE_DEST and DB_CREATE_FILE_DEST each specify locations with at least 50 MB of available space.
- B. Specify a path in the DATAFILE clause of the command specifying a location with at least 100 MB of available space.
- C. Ensure that DB_CREATE_FILE_DEST specifies a location with at least 100 MB of available space.
- D. Add the AUTOEXTEND ON clause with NEXT set to 100M.
- E. Ensure that DB_RECOVERY_FILE_DEST and DB_CREATE_FILE_DEST each specify locations with at least 50 MB of available space.

Answer: A,C

Explanation:
With OMF enabled, Oracle automatically manages file creation. The command ALTER TABLESPACE sales_q1 ADD DATAFILE without a file specification relies on initialization parameters:
A . Specify a path in the DATAFILE clause ... with at least 100 MB of available space.False. With OMF, explicitly specifying a path overrides OMF behavior, but it's not required for success if OMF parameters are set correctly.
B . Add the AUTOEXTEND ON clause with NEXT set to 100M.False. AUTOEXTEND is optional and affects file growth, not the initial creation success, which depends on available space in the OMF location.
C . Ensure that DB_RECOVERY_FILE_DEST and DB_CREATE_FILE_DEST each specify locations with at least 50 MB of available space.True. If both parameters are set,Oracle may use either for data files (depending on context), and sufficient space (e.g., 50 MB minimum for a smallfile) ensures success.
D . Ensure that DB_CREATE_FILE_DEST specifies a location with at least 100 MB of available space.True. This is the primary OMF parameter for data files; sufficient space (typically 100 MB minimum for a new file) guarantees the command succeeds.
E . Ensure that DB_RECOVERY_FILE_DEST and DB_CREATE_FILE_DEST each specify locations with at least 50 MB of available space.False. This is redundant with C; only one needs sufficient space, though C's phrasing makes it a valid independent action.

NEW QUESTION # 43
Which three Oracle database space management features will work with both Dictionary and Locally managed tablespaces?

- A. Online index segment shrink.
- B. Automatic data file extension (AUTOEXTEND).
- C. Online table segment shrink.
- D. Oracle Managed Files (OMF).
- E. Capacity planning growth reports based on historical data in the Automatic Workload Repository (AWR).

Answer: B,D,E

Explanation:
Dictionary-managed tablespaces (DMTs) use the data dictionary for extent management, whilelocally managed tablespaces (LMTs) use bitmaps. Let's evaluate compatibility:
A . Capacity planning growth reports based on historical data in the Automatic Workload Repository (AWR).
True. AWR tracks space usage (e.g., DBA_HIST_TBSPC_SPACE_USAGE) regardless of tablespace type, enabling growth reports for both DMTs and LMTs.
Mechanics:MMON collects metrics like segment growth, stored in SYSAUX, accessible via EM or scripts.
Practical Use:Helps predict when to add data files, universal across management types.
B . Online table segment shrink.
False. ALTER TABLE ... SHRINK SPACE requires LMTs with Automatic Segment Space Management (ASSM), unavailable in DMTs, which lack bitmap-based free space tracking.
Why Incorrect:DMTs use freelists, incompatible with shrink operations.
C . Online index segment shrink.
False. Like tables, ALTER INDEX ... SHRINK SPACE requires LMTs with ASSM, not supported in DMTs.
Why Incorrect:Same limitation as B; DMTs can't compact online.
D . Oracle Managed Files (OMF).
True. OMF automates file naming and placement (via DB_CREATE_FILE_DEST) for both DMTs and LMTs, agnostic to extent management.
Mechanics:Example: CREATE TABLESPACE ts1; creates an OMF file in either type.
Edge Case:DMTs are rare in 23ai, but OMF still applies.
E . Automatic data file extension (AUTOEXTEND).
True. AUTOEXTEND ON allows data files to grow as needed, supported in both DMTs and LMTs since early versions.
Mechanics:ALTER DATABASE DATAFILE ... AUTOEXTEND ON NEXT 100M; works universally.

NEW QUESTION # 44
You execute the SHUTDOWN ABORT command. Which two statements are true?

- A. Subsequent instance startup performs instance recovery.
- B. A checkpoint is written.
- C. Subsequent instance startup performs media recovery.
- D. Data files are closed normally.
- E. Uncommitted transactions are not rolled back by the shutdown.

Answer: A,E

Explanation:
A .False. No checkpoint occurs with ABORT.
B .False. Instance recovery, not media recovery, is needed.
C .True. Crash recovery rolls back uncommitted changes on startup.
D .False. Files aren't closed cleanly with ABORT.
E .True. Shutdown doesn't roll back; recovery does.

NEW QUESTION # 45
Which two statements are true about the UNLIMITED TABLESPACE system privilege and space quota?

- A. It allows a user to have unlimited space in any tablespace in the database.
- B. It is overridden by a space quota specified for the user.
- C. It allows a user to have unlimited space only in their default permanent tablespace.
- D. By default, users have no quota on their default permanent tablespace.
- E. It allows a role to have unlimited space in any tablespace in the database.

Answer: A,B

Explanation:
A .True. Grants unlimited space across all tablespaces.
B .True. Explicit quotas override the privilege.
C .False. Not limited to default tablespace.
D .False. Roles can't have this privilege directly.
E .False. Default is zero quota unless specified.

NEW QUESTION # 46
Which statement is true about database links?

- A. A database link can be created only between two Oracle databases.
- B. Private database link creation requires the same user to exist in both the local and the remote databases.
- C. A public database link can be created only by SYS.
- D. A public database link can be used by a user connected to the local database instance to connect to any schema in the remote database instance.
- E. A database link created in a database allows a connection from that database's instance to the target database's instance, but not vice versa.

Answer: E

Explanation:
Database links enable cross-database queries in Oracle. Let's analyze each option with extensive detail:
A . A public database link can be created only by SYS.
False. Any user with the CREATE PUBLIC DATABASE LINK privilege (not just SYS) can create a public link (e.g., CREATE PUBLIC DATABASE LINK remote_db CONNECT TO scott IDENTIFIED BY tiger USING 'orcl'). While SYS typically has this privilege, it's not exclusive to SYS.
Mechanics:Privilege is granted via GRANT CREATE PUBLIC DATABASE LINK TO user;. Public links are accessible to all users in the local DB.
Why Incorrect:Overly restrictive; Oracle's security model allows delegation.

B . A database link can be created only between two Oracle databases.

False. Database links can connect to non-Oracle databases using Oracle Heterogeneous Services or gateways (e.g., ODBC or JDBC drivers), such as linking to SQL Server. Example: CREATE DATABASE LINK mssql_link USING 'hsodbc';.

Mechanics:Requires configuration of hs_ parameters in init.ora and a gateway listener.

Historical Note:Heterogeneous links were introduced in 8i, expanded in 23ai for cloud integration.

C . A database link created in a database allows a connection from that database's instance to the target database's instance, but not vice versa.

True. A database link is unidirectional; it enables queries from the local instance to the remote instance (e.g., SELECT * FROM emp@remote_db), but the remote instance can't use it to query back unless a separate link is created there.

Mechanics:Stored in DBA_DB_LINKS, the link defines a one-way connection via a TNS alias or connect string.

Practical Use:Ensures controlled access; bidirectional access requires explicit configuration.

Edge Case:Loops are prevented unless explicitly designed with mutual links.

D . A public database link can be used by a user connected to the local database instance to connect to any schema in the remote database instance.

False. Public links allow all local users to use them, but access to remote schemas depends on the link's credentials (e.g., CONNECT TO scott) and the user's remote privileges. "Any schema" overstates it; access is limited to what the link's user can see.

Why Incorrect:Misrepresents privilege scope; remote schema access isn't universal.

E . Private database link creation requires the same user to exist in both the local and the remote databases.

False. A private link (e.g., CREATE DATABASE LINK my_linkCONNECT TO scott IDENTIFIED BY tiger USING 'orcl') requires the remote user (scott) to exist, but the local creator (e.g., HR) need not match. The link is owned locally and authenticated remotely.

Mechanics:Only the CREATE DATABASE LINK privilege is needed locally.

NEW QUESTION # 47

......

There are so many reasons for you to buy our 1Z0-182 exam questions. First, you will increase your productivity so that you can accomplish more tasks. Second, users who use 1Z0-182 training materials can pass exams more easily. An international 1Z0-182 certificate means that you can get more job opportunities. Seize the opportunity to fully display your strength. Will the future you want be far behind?

Practice 1Z0-182 Exam Online: https://www.prep4sures.top/1Z0-182-exam-dumps-torrent.html

If you prefer to read paper materials rather than learning on computers, the PDF version of our Practice 1Z0-182 Exam Online - Oracle Database 23ai Administration Associate guide torrent must the best choice for you, Contrary to most of the 1Z0-182 exam preparatory material available online, Prep4sures's dumps can be obtained on an affordable price yet their quality and benefits beat all similar products of our competitors, What's more, you can get the highest pass rate in the international market only with our 1Z0-182 exam preparation, so what are you waiting for?

With half-duplex Ethernet implemented, all of the senders 1Z0-182 Valid Exam Topics on a network share the Ethernet media freely, Identification Versus Authentication Versus Authorization.

If you prefer to read paper materials rather than learning on 1Z0-182 computers, the PDF version of our Oracle Database 23ai Administration Associate guide torrent must the best choice for you, Contrary to most of the 1Z0-182 exam preparatory material available online, Prep4sures's 1Z0-182 Lab Questions dumps can be obtained on an affordable price yet their quality and benefits beat all similar products of our competitors.

Pass-Sure 1Z0-182 Exam Registration – Updated Practice Exam Online Provider for 1Z0-182: Oracle Database 23ai Administration Associate

What's more, you can get the highest pass rate in the international market only with our 1Z0-182 exam preparation, so what are you waiting for, It's format is pdf which can be download multiples devices like telephone or workstation etc.

You might think that it is impossible to memorize well all knowledge.
