

1Z0-771 - Latest Oracle APEX Cloud Developer Professional Valid Test Testking

2025 Latest ExamPrepAway 1Z0-771 PDF Dumps and 1Z0-771 Exam Engine Free Share: <https://drive.google.com/open?id=14VyzS5fUxgRgwkVbvEd5uNSdBwwC6jWn>

If you are worried for preparation of your 1Z0-771 exam, so stop distressing about it because you have reached to the reliable source of your success. ExamPrepAway is the ultimate solution to your all Oracle Designing and Implementing Cloud Data Platform Solutions related problem. It provides you with a platform which enables you to clear your 1Z0-771 Exam. ExamPrepAway provides you 1Z0-771 exam questions which is reliable and offers you a gateway to your destination.

What is more, we have free demos are freebies for your information. In case you are tentative about their quality, we give these demos form which you could get the brief outline and questions closely related with the 1Z0-771 practice materials. Only by practising them on a regular base, you will see clear progress happened on you. Besides, rather than waiting for the gain of our 1Z0-771 practice materials, you can download them immediately after paying for it, so just begin your journey toward success now.

1Z0-771 Training Materials: Oracle APEX Cloud Developer Professional & 1Z0-771 Practice Test

It is a common sense that in terms of a kind of 1Z0-771 test torrent, the pass rate would be the best advertisement, since only the pass rate can be the most powerful evidence to show whether the 1Z0-771 guide torrent is effective and useful or not. We are so proud to tell you that according to the statistics from the feedback of all of our customers, the pass rate of our 1Z0-771 Exam Questions among our customers who prepared for the exam under the guidance of our 1Z0-771 test torrent has reached as high as 98%to 100%.

Oracle 1Z0-771 Exam Syllabus Topics:

--

Topic	Details
Topic 1	Adding Additional Pages to Your Application: This section assesses the skills of Application Developers in expanding application functionalities. It involves creating Oracle JET charts, calendars, trees, and maps to enhance data visualization and user interaction.
Topic 2	Adding Computations, Processes, Validations, and Branches: This section measures the knowledge of Backend Developers in implementing application logic. It focuses on configuring computations, processes, validations, and page branches to automate workflows and ensure data integrity.
Topic 3	Creating Application Page Controls: This section tests the abilities of Frontend Developers in implementing interactive page elements. It includes creating page-level items, buttons, and controls that enhance navigation and user interaction within APEX applications.
Topic 4	Extending Application Capabilities: This section measures the skills of APEX Developers in enhancing application functionality. It includes sending automated emails, implementing plug-ins, and utilizing automation features to improve efficiency and extend capabilities.
Topic 5	Implementing Navigation in Your Application: This section assesses the skills of UX Designers in designing smooth application navigation. It includes configuring shared components, setting up search functionalities, and enhancing user experience with intuitive navigation structures.
Topic 6	Creating Progressive Web Apps: This section assesses the skills of Web Developers in building Progressive Web Applications (PWAs). It includes enhancing application accessibility, implementing push notifications, and optimizing applications for seamless cross-device experiences.
Topic 7	Managing Application Data: This section evaluates the expertise of Data Engineers in handling application data. It covers using collections, managing REST-enabled SQL references, integrating REST Data Sources, and synchronizing data across different environments.
Topic 8	Managing Workflows and Tasks: This section evaluates the proficiency of Process Automation Specialists in workflow management. It covers customizing workflows, using approval processes, and handling unified task lists to streamline business processes within applications.
Topic 9	Leveraging Generative AI in Oracle APEX: This section tests the knowledge of AI Developers in integrating AI-powered features within APEX applications. It involves using APEX Assistant for code generation, creating AI-driven data models, and implementing AI-powered text generation using dynamic actions.
Topic 10	Getting Started with Oracle APEX on the Oracle Autonomous Database: This section of the exam measures the skills of APEX Developers in understanding Oracle APEX and its core components. It covers the creation and management of workspaces, providing an overview of how APEX integrates with the Oracle Autonomous Database to streamline application development.
Topic 11	Creating and Using Forms: This section evaluates the proficiency of Form Developers in designing user-friendly forms. It covers creating interactive grids, developing simple forms linked to reports, and implementing master-detail forms for effective data management.
Topic 12	Creating and Using Dynamic Actions and Plug-ins: This section tests the expertise of Developers in implementing dynamic actions. It covers configuring event-driven behaviors and integrating plug-ins to create responsive and interactive application features.

Oracle APEX Cloud Developer Professional Sample Questions (Q36-Q41):

NEW QUESTION # 36

Which two statements are true about the APEX_MAIL API?

- A. You can send emails using the APEX_MAIL package from an Oracle APEX application.
- B. You can receive emails using the APEX_MAIL package in an Oracle APEX application.

- C. The APEX_MAIL package supports sending emails only to Oracle database users.
- D. You can add files as attachments to your emails using the APEX_MAIL package.

Answer: A,D

Explanation:

The APEX_MAIL API facilitates email functionality:

A . You can add files as attachments: Using APEX_MAIL.ADD_ATTACHMENT (e.g.,

APEX_MAIL.ADD_ATTACHMENT(p_mail_id, p_attachment, p_filename)), you can attach BLOBs (e.g., PDFs) to emails.

C . You can send emails: APEX_MAIL.SEND (e.g., APEX_MAIL.SEND(p_to => 'user@example.com', p_body => 'Hello')) sends emails from APEX, leveraging the configured mail server.

B . You can receive emails: False; APEX_MAIL is send-only; receiving requires custom integration (e.g., IMAP).

D . Only to Oracle database users: False; emails can go to any valid address, not just database users.

Pitfall: Ensure the mail queue is processed (APEX_MAIL.PUSH_QUEUE) for timely delivery.

NEW QUESTION # 37

Which two statements are true about creating and managing an APEX Workspace?

- A. You can create only two workspaces in an APEX Service (APEX Application Development) instance.
- B. A workspace can be associated with only one schema.
- C. During workspace creation, you can associate the workspace with an existing database schema.
- D. New schemas cannot be created during workspace creation.

Answer: C,D

Explanation:

APEX Workspaces define development environments tied to database schemas:

A . During workspace creation, you can associate the workspace with an existing database schema: In the Workspace creation wizard (via Instance Administration), you select an existing schema (e.g., "HR") to link, enabling access to its objects. This is a standard step, ensuring immediate usability.

B . New schemas cannot be created during workspace creation: APEX doesn't provide a UI to create schemas here; schemas must pre-exist in the database, created via SQL (e.g., CREATE USER).

C . A workspace can be associated with only one schema: False; a workspace can associate with multiple schemas post-creation via "Manage Workspace to Schema Assignments." D . You can create only two workspaces: False; the limit depends on the APEX instance configuration (e.g., cloud service tier), not a fixed number like two.

Use case: Associating existing schemas is key for leveraging pre-built databases.

NEW QUESTION # 38

Which two are valid evaluation points for Authorization Schemes?

- A. Never
- B. Once per session
- C. Once per user
- D. Once per page view

Answer: B,D

Explanation:

Authorization Schemes in APEX can be evaluated at:

Once per page view: Checks authorization each time a page is rendered.

Once per session: Checks once per user session, caching the result.

Once per user and Never are not valid evaluation points in the Authorization Scheme settings.

NEW QUESTION # 39

Which two approaches can be used to create custom stored procedures in SQL Workshop?

- A. Using SQL Scripts
- B. Using Data Workshop

- C. Using Quick SQL
- **D. Using Object Browser**

Answer: A,D

Explanation:

In SQL Workshop, custom stored procedures can be created using:

SQL Scripts: Allows developers to write and execute PL/SQL code directly to define stored procedures.

Object Browser: Provides a GUI to create and edit database objects, including stored procedures, by defining their specifications and bodies.

Quick SQL is for generating table DDL, not stored procedures, and Data Workshop is for loading/unloading data, not creating procedures.

NEW QUESTION # 40

What do you achieve by performing the "Refresh Working Copy" task?

- A. Update the changes from one Working Copy to another.
- B. Merge the Working Copy changes with the Main application.
- **C. Get the latest updates from the Main application.**

Answer: C

Explanation:

Working Copies in APEX allow safe experimentation:

C . Get the latest updates from the Main application: "Refresh Working Copy" (in App Builder > Working Copies) pulls changes from the Main application into the Working Copy, ensuring it reflects the latest state (e.g., new pages, fixes) without overwriting Working Copy changes.

A . Merge with Main: Merging is a separate "Merge Working Copy" task.

B . Update between Working Copies: Not supported; refreshing is Main-to-Working only.

Practical note: Use this to sync collaborative development efforts.

NEW QUESTION # 41

.....

Oracle 1Z0-771 exam dumps are important because they show you where you stand. After learning everything related to the Oracle APEX Cloud Developer Professional (1Z0-771) certification, it is the right time to take a self-test and check whether you can clear the Oracle APEX Cloud Developer Professional (1Z0-771) certification exam or not. People who score well on the Oracle APEX Cloud Developer Professional (1Z0-771) practice questions are ready to give the final Oracle APEX Cloud Developer Professional (1Z0-771) exam.
