

1Z0-931-25 Test Collection Pdf - Valid 1Z0-931-25 Test Dumps

Latest Version: 26.0

Question: 1

In which form of attack is alternate encoding, such as hexadecimal representation, most often observed?

- A. Smurf
- B. distributed denial of service
- C. cross-site scripting
- D. rootkit exploit

Answer: C

Explanation:

Cross site scripting (also known as XSS) occurs when a web application gathers malicious data from a user. The data is usually gathered in the form of a hyperlink which contains malicious content within it. The user will most likely click on this link from another website, instant message, or simply just reading a web board or email message.

Usually the attacker will encode the malicious portion of the link to the site in HEX (or other encoding methods) so the request is less suspicious looking to the user when clicked on.

For example the code below is written in hex: <a

href=javascript:alert(

x28'XSS')>Click Here

is equivalent to:

Click Here

Note: In the format "&#xhhhh", hhhh is the code point in hexadecimal form.

Question: 2

Which flaw does an attacker leverage when exploiting SQL injection vulnerabilities?

- A. user input validation in a web page or web application
- B. Linux and Windows operating systems
- C. database
- D. web page images

Answer: A

Explanation:

SQL injection usually occurs when you ask a user for input, like their username/userid, but the user gives ("injects") you an SQL statement that you will unknowingly run on your database. For example:

Look at the following example, which creates a SELECT statement by adding a variable (txtUserId) to a

2025 Latest Free4Torrent 1Z0-931-25 PDF Dumps and 1Z0-931-25 Exam Engine Free Share: <https://drive.google.com/open?id=12c8ffPPKphv716Hbo4Ie2vuX9nwqXoRO>

Many people dream about occupying a prominent position in the society and being successful in their career and social circle. Thus owning a valuable certificate is of paramount importance to them and passing the test 1Z0-931-25 certification can help them realize their goals. If you are one of them buying our 1Z0-931-25 Exam Prep will help you pass the 1Z0-931-25 exam successfully and easily. Our 1Z0-931-25 guide torrent provides free download and tryout before the purchase and our purchase procedures are safe.

Oracle 1Z0-931-25 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">• Migrating to Autonomous Database: This section of the exam measures the skills of Cloud Migration Specialists and covers strategies for migrating existing databases to Autonomous Database. It includes understanding migration considerations, and available options, and using Oracle Data Pump to transfer data seamlessly while minimizing downtime, ensuring smooth transitions to Oracle Cloud infrastructure.

Topic 2	<ul style="list-style-type: none"> Autonomous Database Shared: This section of the exam measures the skills of Cloud Engineers and focuses on creating and managing shared Autonomous Database instances. It includes provisioning, scaling, and starting or stopping instances, as well as database consolidation with Elastic Resource Pools. It also covers user management, cloning, database migration, monitoring, backup and restore processes, and introduces Data Guard for high availability, ensuring cloud engineers can maintain optimal database performance.
Topic 3	<ul style="list-style-type: none"> Managing and Maintaining Autonomous Database: This section of the exam measures the skills of Database Administrators and focuses on the ongoing management and maintenance of Autonomous Database instances. It includes using REST APIs and OCI CLI for automation, configuring access control lists and private endpoints, monitoring performance, setting up notifications, utilizing features like auto-indexing and data safe, handling connectivity through wallets and service handles, and configuring disaster recovery using Data Guard to ensure business continuity.
Topic 4	<ul style="list-style-type: none"> Data Lake Analytics with Autonomous Database: This section of the exam measures the skills of Big Data Engineers and explores how Autonomous Database can be used for analytics in data lake environments. It includes data ingestion, query optimization, and leveraging cloud-native analytics services, ensuring engineers can efficiently process and analyze large volumes of structured and unstructured data.
Topic 5	<ul style="list-style-type: none"> Developing on Autonomous Database: This section of the exam measures the skills of Application Developers and focuses on developing and extending applications using Autonomous Database. It covers using generative AI for natural language queries, Autonomous JSON Database, Oracle Text for document search, location-based analysis with Autonomous Spatial, Autonomous Graph for data relationships, and integration with Object Storage, enabling developers to build intelligent, scalable applications.
Topic 6	<ul style="list-style-type: none"> Autonomous Database Tools: This section of the exam measures the skills of Data Analysts and covers the tools available within Autonomous Databases for advanced data processing and analytics. It includes Oracle Machine Learning, APEX, and SQL Developer Web for database development, as well as data transformation, business model creation, data insights, and data analysis, allowing analysts to extract valuable insights from large datasets.
Topic 7	<ul style="list-style-type: none"> Autonomous Database Dedicated: This section of the exam measures the skills of IT Architects and explores the workflows and functionality of Autonomous Database Dedicated and Autonomous Database Cloud@Customer. It includes provisioning dedicated resources, setting up OCI policies, monitoring infrastructure, scheduling maintenance tasks such as patching, and managing encryption keys for enhanced security. IT Architects will learn how to integrate dedicated database environments within their cloud strategy.

Useful 1Z0-931-25 Test Collection Pdf | Amazing Pass Rate For 1Z0-931-25 Exam | 100% Pass-Rate 1Z0-931-25: Oracle Autonomous Database Cloud 2025 Professional

Our top priority is to help every customer in cracking the Oracle Autonomous Database Cloud 2025 Professional (1Z0-931-25) test. Therefore, we have created these formats so that every applicant can prepare successfully for the Oracle Autonomous Database Cloud 2025 Professional (1Z0-931-25) exam on the first attempt. We are aware that the cost for the registration of the Oracle 1Z0-931-25 examination is not what everyone can pay. After paying the hefty Oracle Autonomous Database Cloud 2025 Professional (1Z0-931-25) test registration fee, applicants usually run on a tight budget. This is why Free4Torrent provides you with the Oracle Autonomous Database Cloud 2025 Professional (1Z0-931-25) real questions with up to 1 year of free updates.

Oracle Autonomous Database Cloud 2025 Professional Sample Questions (Q114-Q119):

NEW QUESTION # 114

Which statement is false about Autonomous Database Oracle Client Credentials (Wallets)?

- **A. The Wallet for the Autonomous Database is the same as the TDE wallet**
- B. The Oracle Client Credential file is downloaded as a ZIP file
- C. You must have an Oracle Client Credential wallet in order to connect to the Autonomous Database
- D. In addition to the Oracle Client Credential Wallet, a user must have a username and password in order to connect to the Autonomous Database

Answer: A

Explanation:

Oracle Client Credentials (wallets) are essential for secure connections to the Autonomous Database. The false statement is: The Wallet for the Autonomous Database is the same as the TDE wallet (A): This is incorrect. The Oracle Client Credential wallet (used for client authentication and connection security) is distinct from the Transparent Data Encryption (TDE) wallet (used to encrypt data at rest within the database). The client wallet contains certificates and keys for mutual TLS (mTLS) authentication, while the TDE wallet manages encryption keys for data security. They serve different purposes and are not the same.

The correct statements are:

You must have an Oracle Client Credential wallet in order to connect to the Autonomous Database (B): True. The wallet is required for mTLS, which is the default authentication method for Autonomous Databases, ensuring secure connections.

In addition to the Oracle Client Credential Wallet, a user must have a username and password in order to connect to the Autonomous Database (C): True. Alongside the wallet, a database username and password are needed for full authentication (mTLS + user credentials).

The Oracle Client Credential file is downloaded as a ZIP file (D): True. When downloaded from the Oracle Cloud Infrastructure (OCI) console, the wallet is provided as a ZIP file containing configuration files like tnsnames.ora and certificates.

This distinction is critical for understanding security mechanisms in Autonomous Database.

NEW QUESTION # 115

You are the admin of an Autonomous Database (ADB) instance, and a new developer has requested a new workspace in APEX. What statement describes the step to provide the developer a new workspace in APEX?

- **A. Access the APEX Administrator Services and create the workspace for the developer.**
- B. Create a database user with the APEX role.
- C. Create a new developer account
- D. Create an IDCS user with the APEX role.

Answer: A

Explanation:

Oracle APEX (Application Express) in Autonomous Database requires a workspace for development:

Correct Answer (A): "Access the APEX Administrator Services and create the workspace for the developer" is the correct step. As an admin, you log into the APEX Administration Services (via Database Actions or a direct URL), navigate to "Manage Workspaces," and create a new workspace, assigning it to the developer with a schema and credentials.

Incorrect Options:

B: Creating an IDCS (Identity Cloud Service) user with an APEX role manages authentication but doesn't create a workspace.

C: A database user with an APEX role lacks a workspace; it's a prerequisite step, not the solution.

D: "Create a new developer account" is vague and doesn't specify the APEX workspace creation process.

This ensures the developer has a dedicated environment for building applications.

NEW QUESTION # 116

A Business Analyst joined your organization and wants to explore the database tools. When restoring or cloning an Autonomous Database (ADB), you must select a backup that is at least how old?

- A. 5 minutes
- **B. 24 hours**
- C. 1 day
- D. 2 hours

Answer: B

Explanation:

Full Detailed In-Depth Explanation:

When restoring or cloning an Autonomous Database (ADB), Oracle enforces a minimum backup age to ensure data consistency and integrity. The official Oracle documentation specifies that backups used for these operations must be at least 24 hours old. This requirement exists because:

Backups need time to complete and stabilize, ensuring all transactions are fully committed and the backup is consistent.

Recent backups (e.g., less than 24 hours old) may still be in progress or lack full verification, risking incomplete or corrupted restores/clones.

Options B (5 minutes), C (2 hours), and D (1 day) are either too short or redundant:

5 minutes and 2 hours: Too recent, violating the 24-hour rule.

1 day: Matches 24 hours but is less precise than the explicit "24 hours" phrasing in the documentation.

For the Business Analyst's exploration, they can access tools like SQL Developer Web or Data Load via the OCI Console under the "Tools" tab, but this question focuses on the backup age constraint, making A the best answer.

NEW QUESTION # 117

Which three of the following data sources are available when using the Data Load page on Database Actions?

- A. Backup files in block storage
- **B. Files in AWS S3 Storage**
- C. REST endpoints
- **D. Files in Oracle Cloud Storage**
- **E. Local Files**

Answer: B,D,E

Explanation:

Full Detailed In-Depth Explanation:

The Data Load page in Database Actions supports loading data from:

A . Local Files: True. Users can upload files from their local device.

B . Files in Oracle Cloud Storage: True. OCI Object Storage is a supported source.

C . REST endpoints: False. REST is not a direct data source for Data Load; it's used for programmatic access.

D . Files in AWS S3 Storage: True. Integration with AWS S3 is supported for cloud flexibility.

E . Backup files in block storage: False. Block storage backups are not accessible via Data Load.

A, B, and D are the correct options per Oracle's documentation.

NEW QUESTION # 118

What are two differentiators of Oracle Autonomous Database on Dedicated Infrastructure? (Choose two.)

- A. Users have OS access to the database machine.
- B. Users can customize the OS stack and add additional packages.
- **C. Users are offered greater control and isolation starting at the Exadata Cloud Infrastructure level.**
- **D. Users have more control over the maintenance schedule.**
- E. Users have SYS privileges in the database.

Answer: C,D

Explanation:

Autonomous Database on Dedicated Infrastructure offers unique features:

Correct Answer (A): "Users are offered greater control and isolation starting at the Exadata Cloud Infrastructure level" highlights dedicated hardware (compute, storage, network), ensuring isolation and performance not available in shared setups.

Correct Answer (E): "Users have more control over the maintenance schedule" allows scheduling maintenance windows, unlike shared infrastructure's fixed schedules.

Incorrect Options:

B: OS customization is not allowed; Oracle manages the stack fully.

C: No OS access is provided; it's a managed service.

D: SYS privileges are not unique to dedicated infrastructure; they depend on user roles, not deployment type.

These differentiators enhance control and isolation for enterprise needs.

NEW QUESTION # 119

.....

Try our demo products and realize the key advantages coming through our 1Z0-931-25 products. Our demo products are quite useful for sketching out the real competence of our actual products. You can estimate the real worth of our 1Z0-931-25 products, once you go through our free trial products. Free demos experience pre determines what you are really purchasing and what benefits you can acquire through our 1Z0-931-25 products.
