

1Z1-771 PrüfungGuide, Oracle 1Z1-771 Zertifikat - Oracle APEX Cloud Developer Professional

Die Schulungsunterlagen zur Oracle 1Z1-771 Prüfung von Fast2test sind von den erfahrenen IT-Experten aus ihren Erfahrungen entworfen, sie sind eine Kombination von Fragen und Antworten, daher sind sie nicht vergleichbar. Da unsere professionelle Berufsgruppe und die genauesten Prüfungsunterlagen zur Oracle 1Z1-771 Prüfung haben, sind die Bestehensrate von Fast2test die höchste unter allen Webseiten in der ganzen Welt. Wenn Sie Fast2test wählen, dann sind Sie auf dem Weg zum Erfolg.

Oracle 1Z1-771 Prüfungsplan:

Thema	Einzelheiten
Thema 1	Implementing Security in Your Application: This section evaluates the knowledge of Security Specialists in securing APEX applications. It covers authentication schemes, authorization controls, and session state protection to ensure application security and user access management.
Thema 2	Using SQL Workshop: This section evaluates the expertise of Database Developers in managing database objects using SQL Workshop. It includes creating and modifying database structures, running SQL commands and scripts, and efficiently loading and unloading data through the Data Workshop utility to simplify database interactions.
Thema 3	Creating Application Page Controls: This section tests the abilities of Frontend Developers in implementing interactive page elements. It includes creating page-level items, buttons, and controls that enhance navigation and user interaction within APEX applications.
Thema 4	Migrating Application Development Between Environments: This section measures the abilities of DevOps Engineers in managing application deployments. It includes exporting and importing application artifacts, performing remote deployments, and maintaining working copies to ensure smooth transitions between development environments.
Thema 5	Adding Additional Pages to Your Application: This section assesses the skills of Application Developers in expanding application functionalities. It involves creating Oracle JET charts, calendars, trees, and maps to enhance data visualization and user interaction.
Thema 6	Managing Workflows and Tasks: This section evaluates the proficiency of Process Automation Specialists in workflow management. It covers customizing workflows, using approval processes, and handling unified task lists to streamline business processes within applications.
Thema 7	Getting Started with Oracle APEX on the Oracle Autonomous Database: This section of the exam measures the skills of APEX Developers in understanding Oracle APEX and its core components. It covers the creation and management of workspaces, providing an overview of how APEX integrates with the Oracle Autonomous Database to streamline application development.

Thema 8	• Creating and Using Forms: This section evaluates the proficiency of Form Developers in designing user-friendly forms. It covers creating interactive grids, developing simple forms linked to reports, and implementing master-detail forms for effective data management.
Thema 9	• Implementing Navigation in Your Application: This section assesses the skills of UX Designers in designing smooth application navigation. It includes configuring shared components, setting up search functionalities, and enhancing user experience with intuitive navigation structures.
Thema 10	• Creating an APEX Application: This section tests the abilities of Application Developers in building APEX applications. It focuses on creating applications from existing tables and external files, providing a fundamental understanding of the App Builder tool and its role in application development.
Thema 11	• Developing Reports: This section assesses the skills of Report Developers in creating interactive reports and dashboards. It involves customizing reports, working with faceted search pages, integrating smart filters, and designing visually appealing data presentations using Oracle APEX.
Thema 12	• Extending Application Capabilities: This section measures the skills of APEX Developers in enhancing application functionality. It includes sending automated emails, implementing plug-ins, and utilizing automation features to improve efficiency and extend capabilities.

1Z1-771 Simulationsfragen - 1Z1-771 Ausbildungsressourcen

Wenn Sie noch zögern, ob unsere Prüfungsunterlagen der Oracle 1Z1-771 kaufen, können Sie unsere Demo der Softwaren zuerst probieren! Danach werden Sie überzeugen, dass unsere Produkte Ihnen helfen können, Oracle 1Z1-771 zu bestehen. Da unser professionelles Team der Fast2test sich kontinuierlich kräftigen und die Unterlagen der Oracle 1Z1-771 immer aktualisieren. Auf diese Weise siegen Sie beim Anfang der Vorbereitung!

Oracle APEX Cloud Developer Professional 1Z1-771 Prüfungsfragen mit Lösungen (Q32-Q37):

32. Frage

Which two approaches can be used to create custom stored procedures in SQL Workshop?

- A. Using SQL Scripts
- B. Using Object Browser
- C. Using Quick SQL
- D. Using Data Workshop

Antwort: A,B

Begründung:

In SQL Workshop, custom stored procedures can be created using:

SQL Scripts: Allows developers to write and execute PL/SQL code directly to define stored procedures.

Object Browser: Provides a GUI to create and edit database objects, including stored procedures, by defining their specifications and bodies.

Quick SQL is for generating table DDL, not stored procedures, and Data Workshop is for loading/unloading data, not creating procedures.

33. Frage

Which two Query Source types can be used to create a dynamic LOV?

- A. SQL Query
- B. Procedure

- C. Select List
- **D. Function Returning SQL Query**

Antwort: A,D

Begründung:

A dynamic List of Values (LOV) in APEX populates options based on a query source. The supported types include:

Function Returning SQL Query: A PL/SQL function that returns a SQL query string (e.g., RETURN 'SELECT ename, empno FROM emp;'). This offers flexibility for dynamic conditions or complex logic.

SQL Query: A direct SQL statement (e.g., SELECT ename, empno FROM emp) executed at runtime to fetch LOV values. It's the simplest and most common approach.

Procedure: Procedures execute logic but don't return query results in the format required for an LOV (they don't produce a result set directly).

Select List: This is a UI component, not a query source type for defining an LOV.

Dynamic LOVs enhance user interaction by providing real-time, data-driven options, critical for forms and filters.

34. Frage

You created a custom theme for an application. Examine these requirements: (Assuming requirements mandate syncing changes). Which solution guarantees that any changes to the master theme are reflected in the copied theme?

- **A. Subscribing the copied theme to the master theme and refreshing the theme.**
- B. Verifying the theme subscription.
- C. Copying the changes made in the master theme to the copied theme.
- D. Refreshing the templates.

Antwort: A

Begründung:

Theme subscription links a copied theme to its master:

A . Subscribing and refreshing: Subscribing the copied theme (in Shared Components > Themes) to the master ensures it inherits updates. "Refresh Theme" (via Theme Roller or Utilities) syncs changes (e.g., CSS, templates) from the master, guaranteeing consistency.

B . Refreshing templates: Only updates individual templates, not the entire theme.

C . Copying changes: Manual, error-prone, and not guaranteed.

D . Verifying subscription: Confirms the link but doesn't sync changes.

Use case: Ideal for maintaining branded consistency across apps.

35. Frage

Which statement is true about the Link Column attributes of an Interactive Report?

- A. It is not possible to include a custom target in Link Column.
- B. A Link Column cannot be sorted, hidden, or moved by an end user.
- **C. It is not possible to exclude Link Column.**
- D. If you select Link Column, it is always displayed as the last column in the report.

Antwort: C

Begründung:

The Link Column in an Interactive Report adds a clickable link to each row. The true statement is:

It is not possible to exclude Link Column: Once defined in the report attributes, the Link Column is mandatory and cannot be hidden or excluded via end-user controls (e.g., Column Management). It's always rendered unless removed by the developer.

Custom target: False; custom targets (e.g., URLs, pages) can be defined.

Always last column: False; its position is configurable.

Cannot be sorted/hidden/moved: False; end users can sort or move it, though hiding is restricted.

This behavior ensures consistent navigation in reports.

36. Frage

Which three Theme Components are available out-of-the-box with the Universal Theme?

- A. Calendar
- B. Comments
- C. Badge
- D. REST Data Sources

Antwort: A,B,C

Begründung:

The Universal Theme (Theme 42) provides pre-built components:

A . Calendar: A region type for date-based displays (e.g., events), styled with Universal Theme templates (e.g., FullCalendar integration).

B . Comments: A region type for user feedback or notes, with built-in styling and moderation options.

C . Badge: A UI component for displaying counts or statuses (e.g., "5 New"), often in navigation or lists, styled via CSS classes.

D . REST Data Sources: A data feature, not a theme component; it's a Shared Component, not a UI element tied to Universal Theme.

Technical Insight: These components leverage Universal Theme's CSS (e.g., t-Badge, t-Calendar) and JavaScript for interactivity, reducing custom coding.

Use Case: A dashboard with a Calendar for schedules, Comments for feedback, and Badges for unread alerts.

Pitfall: Customizing requires Theme Roller or CSS overrides.

37. Frage

.....

Wenn Sie die Schulungsunterlagen zur Oracle 1Z1-771 Zertifizierungsprüfung von Fast2test haben, geben wir Ihnen einen einjährigen kostenlosen Update-Service. Das heißt, Sie können immer neue Zertifizierungsmaterialien bekommen. Sobald das Prüfungsziel und unsere Lernmaterialien geändert werden, benachrichtigen wir Ihnen in der ersten Zeit. Wir kennen Ihre Bedürfnisse. Wir haben das Selbstbewusstsein, Ihnen zu helfen, die Oracle 1Z1-771 Zertifizierungsprüfung zu bestehen. Sie können sich unbesorgt auf die Oracle 1Z1-771 Prüfung vorbereiten und das Zertifikat erfolgreich bekommen.
