1z1-809 Certification Training, Valid 1z1-809 Test Book

No matter how the surrounding environment changes, you can easily deal with it with our 1z1-809 exam questions. Do you want to be abandoned by others or have the right to pick someone else? Our 1z1-809 simulating exam make you more outstanding and become the owner of your own life! Maybe you need to know more about our 1z1-809 training prep to make a decision. Then you can free download the demos of our 1z1-809 study guide, and you can have a experience on them before you pay for them.

Oracle Java SE 8 Programmer II Sample Questions (Q181-Q186):

NEW QUESTION # 181

Given the code fragments:

```
4 . void doStuff() throws ArithmeticException, NumberFormatException, Exception
{
5 . if(Math.random() > .1 throw new Exception ("Try again");
```

```

6. }
and
24. try {
25. doStuff():
26. } catch (ArithmeticException | NumberFormatException | Exception e) {
27. System.out.println (e.getMessage()); }
28. catch (Exception e) {
29. System.out.println (e.getMessage()); }
30. }

```

Which modification enables the code to print Try again?

- A. Replace line 26 with:
} catch (Exception | ArithmeticException | NumberFormatException e) {
- B. Replace line 27 with:
throw e;
- C. Comment the lines 28, 29 and 30.
- D. Replace line 26 with:
} catch (ArithmeticException | NumberFormatException e) {

Answer: D

NEW QUESTION # 182

Given the code fragment:

```

public class Employee {
    String name;
    boolean contract;
    double salary;
    Employee() {
        // line n1
    }
    public String toString() {
        return name + " " + contract + " " + salary;
    }
    public static void main(String[] args) {
        Employee e = new Employee();
        // line n2
        System.out.print (e);
    }
}

```

Which two modifications, when made independently, enable the code to print Joe:true:100.0?

```

A) Replace line n2 with:
    this.name = "Joe";
    this.contract = true;
    this.salary = 100;

B) Replace line n1 with:
    name = "Joe";
    contract = TRUE;
    salary = 100.0f;

C) Replace line n1 with:
    this.name = new String("Joe");
    this.contract = new Boolean(true);
    this.salary = new Double(100);

D) Replace line n2 with:
    e.name = "Joe";
    e.contract = true;
    e.salary = 100;

E) Replace line n1 with:
    this("Joe", true, 100);

```

- A. Option E
- B. Option B
- C. Option A
- D. Option C
- E. Option D

Answer: C,D

NEW QUESTION # 183

Given the code fragment:

```
public class FileThread implements Runnable {
    String fName;
    public FileThread(String fName) { this.fName = fName; }
    public void run () System.out.println(fName);}
    public static void main (String[] args) throws IOException,
    InterruptedException {
        ExecutorService executor = Executors.newCachedThreadPool();
        Stream<Path> listOfFiles = Files.walk(Paths.get("Java Projects"));
        listOfFiles.forEach(line -> {
            executor.execute(new FileThread(line.getFileName().toString()));
        });
        //
        line n1
    });
    executor.shutdown();
    executor.awaitTermination(5, TimeUnit.DAYS); //
    line n2
}
}
```

The Java Projects directory exists and contains a list of files.
What is the result?

- A. A compilation error occurs at line n1.
- B. The program prints files names concurrently.
- C. The program prints files names sequentially.
- **D. The program throws a runtime exception at line n2.**

Answer: D

NEW QUESTION # 184

Which statement is true about the single abstract method of the java.util.function.Predicate interface?

- A. It accepts one argument and always produces a result of the same type as the argument.
- **B. It accepts one argument and returns boolean.**
- C. It accepts an argument and produces a result of any data type.
- D. It accepts one argument and returns void.

Answer: B
