

信任授權PEGACPSSA23V1權威考題是最快的通過途徑 Certified Pega Senior System Architect 23

P.S. NewDumps在Google Drive上分享了免費的、最新的PEGACPSSA23V1考試題庫：<https://drive.google.com/open?id=1kPPKb3sKKtoCYIkIQgc0KOOXwX-tKFgc>

在當今這個社會，人才到處都是。在IT領域更是這樣。隨著電腦的普及，已經幾乎沒有不會使用電腦的人了。同樣在IT行業工作的你難道沒有感覺到壓力嗎？不管你的學歷有多高都不能代表你的實力。學歷只是一個敲門磚，真正能保住你地位的是你的實力。作為IT職員，你是怎麼培養自己的實力的呢？參加IT認證考試是一個不錯的選擇。既可以掌握更多的技能，又可以取得可以證明自己能力的認證資格。最近Pegasystems的PEGACPSSA23V1認證考試很受歡迎，想參加嗎？

Pegasystems PEGACPSSA23V1 考試大綱：

主題	簡介
主題 1	<ul style="list-style-type: none">• Data and Integration: Data validation, keyed data pages, and data exchange are key sub-topics. This topic also includes the management of integration settings and addressing connector errors for seamless data transfer. Exposing applications through web services is also covered.
主題 2	<ul style="list-style-type: none">• Reporting: Reporting involves designing reports with multiple data sources, including associations and joins.
主題 3	<ul style="list-style-type: none">• Mobile: This topic differentiates between mobile delivery options and designs applications for mobile use, including certificate sets.
主題 4	<ul style="list-style-type: none">• User Experience: Creating and authenticating Pega Web Mashups is the focus of this brief topic.
主題 5	<ul style="list-style-type: none">• Application Development: This topic covers the creation and structure of enterprise-class applications. It includes understanding rule resolution, circumstancing, and the use of the New Application wizard.
主題 6	<ul style="list-style-type: none">• Performance: Performance measurement and system debugging are covered here. This topic also includes reviewing log files to distinguish system and performance events.

完美的PEGACPSSA23V1權威考題和資格考試的領導者和最新更新的 Pegasystems Certified Pega Senior System Architect 23

你已經看到NewDumps Pegasystems的PEGACPSSA23V1考試認證培訓資料，是時候做出選擇了，你甚至可以選擇其他的產品，不過你要知道我們NewDumps帶給你的無限大的利益，也只有NewDumps能給你100%保證成功，NewDumps能讓你有個美好的前程，讓你以後在IT行業有更寬廣的道路可以走，高效率的工作在資訊技術領域。

最新的 Certified Senior System Architect PEGACPSSA23V1 免費考試真題 (Q46-Q51):

問題 #46

You are integrating two Pega Web Mashups into a client's mortgage loan financing page. What do you configure to successfully embed both mashups?

- A. Identify unique names for each mashup.
- B. Run the mashups on the same thread.
- C. Define identical URLs for each mashup.
- D. Load both mashups simultaneously.

答案： A

解題說明：

When integrating multiple Pega Web Mashups into a single page, it is necessary to identify unique names for each mashup to ensure that they are embedded and function independently without conflict on the client's page. Reference: Pega Platform Help - Pega Web Mashup.

問題 #47

An application contains a flow action with an Apply to: class of TRB-HRApps-Work-Feedback in a locked ruleset. When updating the application, you save the existing flow action into a new minor version of the ruleset this time applied to TRB-HRApps-Work so it can be used by more than one case type.

How do you prevent the application from using the rule in TRB-HRApps-Work-Feedback?

- A. Save an additional new version of the flow action applied to TRB-HRApps-Work-Feedback and set the availability to "Not available".
- B. Save an additional new version of the flow action applied to TRB-HRApps-Work and set the availability to "Final".
- C. Save an additional new version of the flow action applied to TRB-HRApps-Work-Feedback and set the availability to "Blocked".
- D. Save an additional new version of the flow action applied to TRB-HRApps-Work-Feedback and set the availability to "Withdrawn".

答案： D

解題說明：

To prevent the application from using the rule in TRB-HRApps-Work-Feedback, you would save an additional new version of the flow action applied to TRB-HRApps-Work-Feedback and set the availability to "Withdrawn". This marks the rule as no longer valid for use in the application. References: Pega official documentation on rule availability.

問題 #48

Which two statements describe the role of the cache manifest in a mobile app? (Choose two.)

- A. Enables users to continue interacting with mobile apps while offline.

- B. Allows downloading of rules for offline use with a mobile app.
- C. Supports debugging efforts by providing a run-time view of the rules accessed by the app.
- D. Provides access to static resources such as HTML files, image files, or JS files.

答案: B,D

解題說明:

The cache manifest in a mobile app facilitates the use of the app while offline by allowing the download of rules and static resources. This ensures that users can access the app's functionality and interface elements even when they do not have an internet connection. References: Pega Mobile Client Developer Guide.

問題 #49

Consider the following requirement: Car dealers cannot modify orders in the Fulfillment stage. Which security solution do you use to satisfy the requirement?

- A. Access When
- B. Access of Role to Object
- C. Access group
- D. Access Deny

答案: A

解題說明:

Access of Role to Object (ARO) is used to define the level of access that a role has to instances of a class. In this case, an ARO can be created for the car dealers' role to restrict modify access to orders in the Fulfillment stage. References: Pega Platform Help - Security.

問題 #50

A hospital uses a case type to manage the treatment of patients visiting the Emergency Room (ER). Cases are created when the patient checks in at the registration desk, and are resolved when the patient is released from the hospital. Stakeholders identify the following security requirements for the case type.

- * Patients access cases on a read-only basis.
- * Patients can only access their own cases.
- * Doctors and nurses can modify cases throughout the case life cycle.
- * Only doctors are allowed to write prescriptions.

Which configuration allows doctors and nurses to modify cases while complying with all identified security requirements?

- A. Create a single access role for both doctors and nurses, and set the modify action to 5.
- B. Create two access roles, one for doctors and one for nurses, and set the modify action for each to 5.
- C. Create two access roles, one for doctors and one for nurses, and set the modify action for each to 1.
- D. Create a single access role for both doctors and nurses, and set the modify action to 1.

答案: A

解題說明:

To allow both doctors and nurses to modify cases while complying with the identified security requirements, the best approach is to create a single access role for both doctors and nurses (C) and set the modify action to 5. This configuration grants both user groups the necessary permissions to modify cases throughout the case life cycle. By using a single access role with a high level of access for modifications, the application simplifies role management while ensuring that both doctors and nurses can perform their duties effectively, without compromising the security and integrity of patient cases. Reference: Pega Community documentation on Access Role to Object and case management best practices.

問題 #51

.....

敢於追求，才是精彩的人生，如果有一天你坐在搖晃的椅子上，回憶起自己的往事，會發出會心的一笑，那麼你的人生是成功的。你想要成功的人生嗎？那就趕緊使用NewDumps Pegasystems的PEGACPSSA23V1考試培訓資料吧，它包括了試題及答案，對每位IT認證的考生都非常使用，它的成功率高達100%，心動不如行動，趕緊購買

吧。
