A.

B.

C.

___4. Ano ang dapat gawin matapos kumain sa bahay?

A. Iwan ang pinggan sa mesa
B. Hunasan ana sariling ninanan

P.S. Free 2025 Apple DEP-2025 dumps are available on Google Drive shared by Actualtests4sure: https://drive.google.com/open?id=1ph3cUWer7VGNPHO05h8pYX1IEIK5_j2_

People need to increase their level by getting the Apple DEP-2025 certification. If you take an example of the present scenario in this competitive world, you will find people struggling to meet their ends just because they are surviving on low-scale salaries. Even if they are thinking about changing their jobs, people who are ready with a better skill set or have prepared themselves with Apple DEP-2025 Certification grab the chance. This leaves them in the same place where they were.

Apple DEP-2025 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"> Software Updates: This section of the exam measures the skills of an MDM Specialist and covers update management strategies using MDM. It includes handling deadlines, updating behavior, and ensuring that updates are properly delivered and installed.
Topic 2	<ul style="list-style-type: none"> Prepare Your Environment: This section of the exam measures the skills of an IT Administrator and covers the important factors involved in evaluating and preparing the environment for a successful MDM implementation. It emphasizes strategic planning before rollout.
Topic 3	<ul style="list-style-type: none"> Apple Configurator: This section of the exam measures the skills of an IT Administrator and covers the usage of Apple Configurator in enrollment, supervision, and deployment of Apple devices. It includes an overview of its features and setup processes.
Topic 4	<ul style="list-style-type: none"> Network Integration: This section of the exam measures the skills of an IT Administrator and covers assessing network responsiveness and device connectivity. It also covers wireless auto-join behavior on Apple devices and ensures strong network coverage.

Topic 5	<ul style="list-style-type: none"> • Device Configuration: This section of the exam measures the skills of an IT Administrator and covers declarative configuration properties and how they relate to the device enrollment type. It ensures that configurations align with organizational needs.
Topic 6	<ul style="list-style-type: none"> • Manage Content and Data Flow: This section of the exam measures the skills of an IT Administrator and covers app distribution methods including managed, custom, and proprietary apps. It focuses on content purchasing and delivery through Apple Business or School Manager.
Topic 7	<ul style="list-style-type: none"> • Device Setup: This section of the exam measures the skills of an MDM Specialist and covers strategies and use cases for managing Setup Assistant via MDM. It also covers the configuration of enrollment-related settings and pane options.
Topic 8	<ul style="list-style-type: none"> • Apple Business Manager and Apple School Manager: This section of the exam measures the skills of an MDM Specialist and covers managing connections to resellers and managing device suppliers. It emphasizes the use of Apple Business Manager or School Manager to streamline large-scale deployments.
Topic 9	<ul style="list-style-type: none"> • Device Support: This section of the exam measures the skills of an IT Administrator and covers troubleshooting Mac startup, recovery, and password reset processes using macOS Recovery. It ensures support professionals can maintain and restore device functionality.
Topic 10	<ul style="list-style-type: none"> • Device Security: This section of the exam measures the skills of an MDM Specialist and covers encryption on Apple platforms, FileVault operations, and the importance of key management. It focuses on protecting sensitive data on managed devices.
Topic 11	<ul style="list-style-type: none"> • Planning Device Ownership and Enrollment: This section of the exam measures the skills of an IT Administrator and covers enrollment planning strategies based on ownership models. It focuses on data separation and appropriate deployment paths based on user and organizational requirements.
Topic 12	<ul style="list-style-type: none"> • Plan a Deployment: This section of the exam measures the skills of an MDM Specialist and covers the purpose and function of Apple's built-in MDM framework. It evaluates the foundational understanding needed to support the deployment of Apple devices at scale using MDM protocols and tools.
Topic 13	<ul style="list-style-type: none"> • Identity Services: This section of the exam measures the skills of an MDM Specialist and covers supported identity services on Apple devices, including Platform SSO and Single Sign-On, helping users manage secure access and authentication.

Apple Deployment and Management Exam valid torrent & DEP-2025 study guide & Apple Deployment and Management Exam free torrent

Our DEP-2025 free demo provides you with the free renewal in one year so that you can keep track of the latest points happening in the world. As the questions of exams of our DEP-2025 exam torrent are more or less involved with heated issues and customers who prepare for the exams must haven't enough time to keep trace of exams all day long, our DEP-2025 Practice Test can serve as a conducive tool for you make up for those hot points you have ignored. Therefore, you will have more confidence in passing the exam, which will certainly increase your rate to pass the DEP-2025 exam.

Apple Deployment and Management Exam Sample Questions (Q107-Q112):

NEW QUESTION # 107

What does MDM need to operate, specifically for APNs and SSL?

- **A. Certificates**
- B. Restrictions
- C. Enrollment profiles

Answer: A

Explanation:

For an MDM solution to operate effectively, it relies on certificates, particularly for secure communication with Apple Push Notification service (APNs) and for establishing encrypted connections via SSL/TLS. An APNs certificate is required to authenticate the MDM server with Apple's APNs infrastructure, enabling it to send push notifications to managed devices. Additionally, an SSL certificate secures the communication channel between the MDM server and the devices, ensuring data privacy and integrity. Restrictions (option B) are policies enforced by MDM but are not prerequisites for its operation. Enrollment profiles (option C) are necessary to link devices to MDM, as discussed in Question 1, but they do not specifically address the APNs and SSL requirements. Apple's documentation, such as the MDM Protocol Reference, explicitly states that certificates are essential for APNs and SSL functionality in MDM deployments.

NEW QUESTION # 108

Which type of enrollment supports Shared iPad?

- A. Automated Device Enrollment
- B. Device Enrollment
- C. User Enrollment

Answer: A

Explanation:

Shared iPad, a feature for multi-user environments like education or business, requires devices to be supervised and enrolled via Automated Device Enrollment (ADE) through Apple School Manager (ASM) or Apple Business Manager (ABM). ADE ensures the device is pre-configured with an MDM solution that supports Shared iPad settings, such as user session management with Managed Apple IDs. Device Enrollment (option B) can supervise devices but isn't optimized for Shared iPad's automatic setup. User Enrollment (option C) is for BYOD and doesn't support Shared iPad, which is for organization-owned devices. The Apple Platform Deployment Guide specifies ADE for Shared iPad deployment.

NEW QUESTION # 109

You manage the content caching server for your organization. You want the content caching server to cache only software and app updates. Which option should you choose from the Cache menu?

- A. All Updates
- B. Only iCloud Content
- C. Only Shared Content
- D. All Content

Answer: C

Explanation:

"Only Shared Content" caches updates. The macOS Deployment Reference states, "Selecting 'Only Shared Content' in the Cache menu ensures the content caching server caches software and app updates, excluding iCloud data." Option D isn't a real setting.

References:

macOS Deployment Reference, "Content Caching" section.

Apple Platform Deployment Guide, "Caching Settings" section.

NEW QUESTION # 110

What is required for a user to upgrade their macOS software?

- A. An MDM bootstrap token
- B. A Managed Apple Account
- C. Volume ownership
- D. Local administrator rights

Answer: C

Explanation:

On Macs with Apple silicon and T2 security chips, Apple requires volume ownership to perform major macOS upgrades and certain system-level changes. Volume ownership is granted during setup to the first account created, and it provides the secure entitlement

to authorize system updates, OS reinstalls, and recovery options. Apple Learning materials emphasize that administrator rights alone are insufficient; a user may be an admin without volume ownership and still be blocked from upgrading. The bootstrap token is relevant to FileVault and SecureToken provisioning, but not directly tied to OS upgrades. Managed Apple Accounts also do not control OS upgrades unless combined with MDM restrictions. This requirement ensures that only authorized users with secure entitlements can modify or upgrade macOS, protecting device integrity and reducing unauthorized system alterations. References: Apple Platform Security - "Volume ownership and macOS upgrades."

NEW QUESTION # 111

Your organization buys devices from a new Apple Authorized Reseller. You want to ensure that your devices appear in Apple Business Manager or Apple School Manager. What information do you need to add in Apple Business Manager or Apple School Manager?

- A. D-U-N-S Number
- **B. Reseller Number**
- C. Organization ID
- D. Purchase Order Number

Answer: B

Explanation:

To link a new Apple Authorized Reseller to your Apple Business Manager (ABM) or Apple School Manager (ASM) account, you must add the reseller's Reseller Number (also known as the Apple Customer Number).

The Apple Business Manager User Guide states, "To ensure devices purchased from a new Apple Authorized Reseller appear in Apple Business Manager, add the reseller's Reseller Number in the 'Resellers' section of your account settings." Option B (Organization ID) is provided to the reseller, not added in ABM/ASM, while A and C are not required for this purpose.

References:

Apple Business Manager User Guide, "Add Resellers" section.

Apple Platform Deployment Guide, "Device Purchasing" section.

NEW QUESTION # 112

.....

In order to make all customers feel comfortable, our company will promise that we will offer the perfect and considerate service for all customers. If you buy the DEP-2025 training files from our company, you will have the right to enjoy the perfect service. If you have any questions about the DEP-2025 learning materials, do not hesitate and ask us in your anytime, we are glad to answer your questions and help you use our DEP-2025 study questions well. We believe our perfect service will make you feel comfortable when you are preparing for your DEP-2025 exam and you will pass the DEP-2025 exam.
