- D. Identify the business's goals and what they are trying to accomplish.

Answer: C,D

Explanation:

The WalkMe Lens is a framework for designing solutions by analyzing problems and creating content that delivers value. Two key actions for impactful solutions are:

* Identify the business's goals and what they are trying to accomplish(A): Aligning WalkMe content with business objectives ensures solutions support strategic outcomes, such as increased adoption or reduced errors.

* Examine the root cause of issues from the end user's perspective(D): Understanding user pain points and behaviors helps create targeted content that addresses specific challenges effectively.

The other options are less relevant:

* Ensure frequent updates(B) is a maintenance task, not a core part of solution design.

* Prioritize aesthetic design(C) is secondary to functionality and user needs.
