Our company employs experts in many fields to write 300-815 study guide, so you can rest assured of the quality of our learning materials. What's more, preparing for the exam under the guidance of our 300-815 exam questions, you will give you more opportunities to be promoted and raise your salary in the near future. So when you are ready to take the exam, you can rely on our 300-815 Learning Materials. If you want to be the next beneficiary, what are you waiting for? Come and buy our 300-815 learning materials.

Cisco 300-815 exam is a 90-minute exam that consists of 60-70 questions. 300-815 exam is available in English and Japanese and can be taken online or in-person at a designated testing center. 300-815 exam fee is \$300, and the candidate must achieve a passing score of at least 750 out of 1000 to obtain the certification.

Cisco 300-815 exam is an ideal certification for IT professionals who are looking to enhance their knowledge and skills in advanced call control and mobility services. Implementing Cisco Advanced Call Control and Mobility Services certification is particularly relevant for network engineers, system administrators, and IT managers who are responsible for implementing and managing Cisco technologies in their organizations.

Cisco 300-815 Exam covers a broad range of topics, including implementing advanced call control and mobility services, implementing Cisco Unified IM and Presence, and troubleshooting Cisco Unified Communications Manager and Cisco Unified Communications Manager Express. 300-815 exam also covers Cisco IOS XE gateway and media resources, Cisco Unity Connection, and Cisco Unified Contact Center Express.

300-815 Interactive EBook | Latest 300-815 Exam Fee

To avail of all these benefits you need to pass the Cisco 300-815 exam which is a difficult exam that demands firm commitment and complete Implementing Cisco Advanced Call Control and Mobility Services (300-815) exam questions preparation. For the well and quick 300-815 Exam Dumps preparation, you can get help from ITExamSimulator 300-815 Questions which will provide you with everything that you need to learn, prepare and pass the Implementing Cisco Advanced Call Control and Mobility Services (300-815) certification exam.

Cisco Implementing Cisco Advanced Call Control and Mobility Services Sample Questions (Q56-Q61):

NEW QUESTION # 56

An administrator sees the voice register pool 1 command in a Cisco UCME configuration. Which configuration is occurring in this section?

- A. configuration for a pool of SIP phones (similar to device pool on Cisco UCM)
- B. configuration for a single SIP phone
- C. configuration items common for all SIP phones
- D. configuration for SIP registrar service

Answer: B

NEW QUESTION # 57

Refer to the exhibit.

```
!  
dial-peer voice 100 voip  
  description Outbound to CUCM  
  translation-profile outgoing CUCM  
  session protocol sipv2  
  session target ipv4:192.168.100.200  
  voice-class sip transport switch udp tcp  
  voice-class sip conn-reuse  
  voice-class sip rel1xx disable  
  voice-class sip session refresh  
  voice-class sip midcall-signaling block  
  voice-class sip early-media update block  
  dtmf-relay rtp-nte  
  codec g711ulaw  
  no vad  
!
```

An engineer is troubleshooting an issue where inbound calls to Cisco UCM with early media fail to establish. While investigating the issue, the engineer finds that Cisco UCM is set to require a PRACK, but the Cisco Unified Border Element is not sending it. Which command is causing this issue?

- A. voice-class sip rell xx disable
- B. voice-class sip early-media update block
- C. voice-class sip conn-reuse
- D. voice-class midcall-signaling block

Answer: A

NEW QUESTION # 58

A customer reports audio quality issues between video endpoints in the HQ location in California and one of the branches in Texas. Which two actions must RTP take to troubleshoot this issue? (Choose two.)

- A. Gather statistics on a media connection and information such as packets sent, lost packets, jitter, feedback, and round-trip delay. This information can help isolate the type of audio quality issues and the direction of the affected traffic.
- B. Compress the headers of RTP traffic to lower the bandwidth consumption over the WAN, which allows more calls with less bandwidth consumed.
- C. Encrypt the media to stop rogue devices from replying and putting that traffic back on the WAN, which avoids any extra bandwidth and ensures the quality of the calls.
- D. Allow for VAD to be used for calls using the G7.29 codec, which reduces the usage of the WAN bandwidth and saves around 30% of bandwidth per call.
- E. Configure the rtp keepalive command in Cisco Unified Border Element to generate reports, which can be reviewed using the debug voip rtp packet command.

Answer: A,B

NEW QUESTION # 59

What is the relationship between partition, time schedule, and time period in Time-of-Day routing in Cisco Unified Communications Manager?

- A. A partition can have one time schedule assigned. A time schedule contains only one time period.
- B. A partition can have one time schedule assigned. A time schedule contains one or more time periods.
- C. A partition can have multiple time schedules assigned. A time schedule contains one or more time periods.
- D. A partition can have multiple time schedules assigned. A time schedule contains only one time period.

Answer: B

Explanation:

As mentioned earlier, partitions allow you to assign a time schedule to a partition. A time schedule contains a list of time periods. The time schedule can include more than one time period. For example, you might create a time period for each holiday and then create a time schedule named Holidays that includes all the holiday time periods.

NEW QUESTION # 60

Some users report having issues dialing some external numbers when traveling to other locations within the company. The company has five locations in five cities in one country and has an egress gateway in each location for TEHO. The configuration has no specific entry stating that the roaming users are using the local gateway, but calls are going out. How is a verification of the call routing in such a specific configuration performed to further identify the problem?

- A. device mobility
- B. TEHO
- C. local route groups
- D. standard local route group

Answer: A

NEW QUESTION # 61

.....

If you do not have extraordinary wisdom, do not want to spend too much time on learning, but want to reach the pinnacle of life through 300-815 exam, then you must have 300-815 question torrent. The goal of 300-815 exam torrent is to help users pass the exam with the shortest possible time and effort. With 300-815 Exam Torrent, you neither need to keep yourself locked up in the library for a long time nor give up a rare vacation to review. You will never be frustrated by the fact that you can't solve a problem
