Valid NSE7_SDW-7.2 Exam Testking | Examcollection NSE7_SDW-7.2 Questions Answers

Frankly speaking, it is difficult to get the NSE7_SDW-7.2 certificate without help. Usually, the time you invest to prepare the exam is long. Now, all of your worries can be wiped out because of our NSE7_SDW-7.2 exam questions. Some people worry about that some difficult knowledge is hard to understand or the NSE7_SDW-7.2 test guide is not suitable for them. Actually, the difficult parts of the exam have been simplified, which will be easy for you to understand. Also, there will be examples, simulations and charts to make explanations vivid. In order to aid you to memorize the Fortinet NSE 7 - SD-WAN 7.2 exam cram better, we have integrated knowledge structure. You will clearly know what you are learning and which part you need to learn carefully. You will regret if you give up challenging yourself.

Fortinet NSE 7 - SD-WAN 7.2 Sample Questions (Q98-Q103):

NEW QUESTION # 98

Refer to the exhibit.

```

config system interface
edit "port2"
set vdom "root"
set ip 192.2.0.9 255.255.255.248
set allowaccess ping
set type physical
set role wan
set snmp-index 2
set preserve-session-route enable
next
end

```

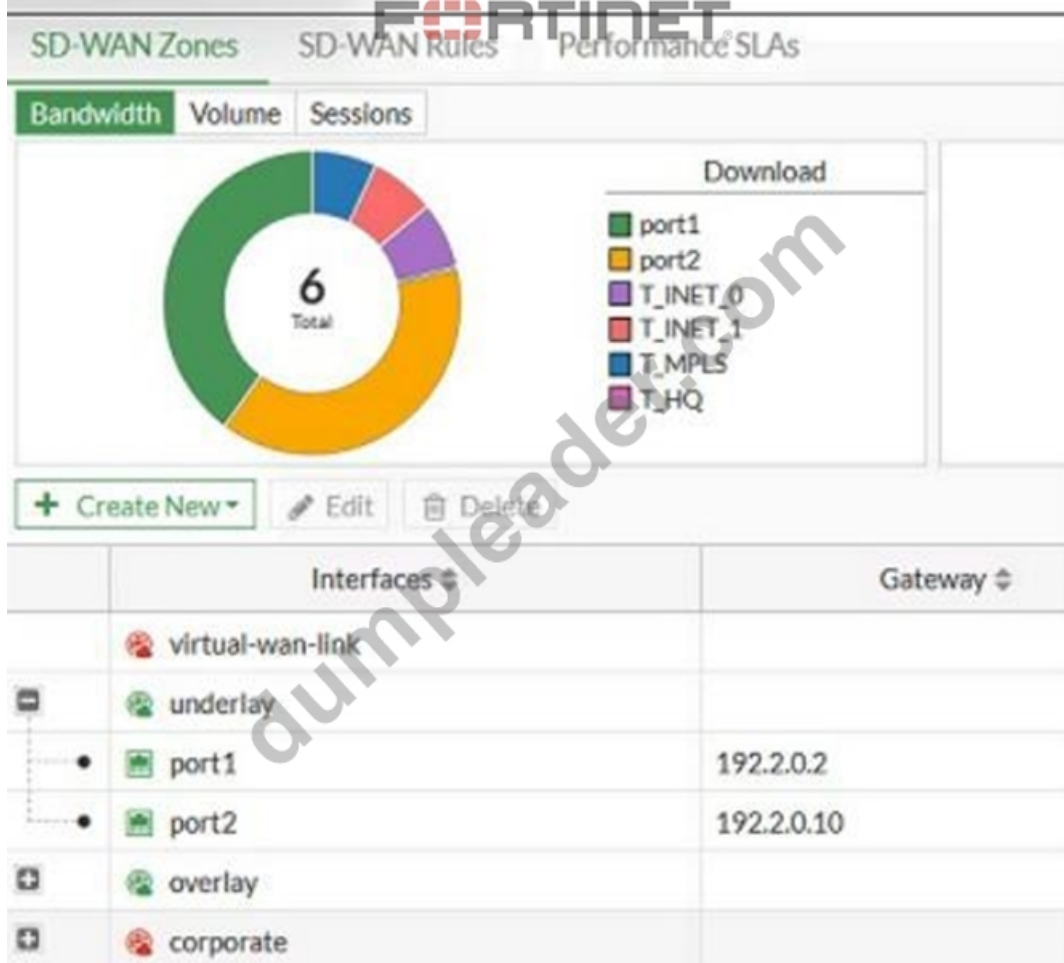

Based on the exhibit, which two actions does FortiGate perform on traffic passing through port2? (Choose two.)

- A. FortiGate does not change the routing information on existing sessions that use a valid gateway, after a route change.
- B. FortiGate always blocks all traffic, after a route change.
- C. FortiGate performs routing lookups for new sessions only, after a route change.
- D. FortiGate flushes all routing information from the session table, after a route change.

Answer: A,C

NEW QUESTION # 99

Refer to the exhibit, which shows an SD-WAN zone configuration on the FortiGate GUI.

Based on the exhibit, which statement is true?

- A. The overlay zone contains four members.
- B. You can delete the virtual-wan-link zone because it contains no member.

- C. You can move port1 from the underlay zone to the overlay zone.
- D. The corporate zone contains no member.

Answer: D

Explanation:

Based on the exhibit, the "corporate" zone contains no member (B). In the FortiGate GUI, zones without members do not display any interfaces listed under them, which is the case for the corporate zone in the exhibit. References: This conclusion is based on standard Fortinet GUI interpretation and the operational logic of SD-WAN zones as per Fortinet's guidelines and user interface standards.

NEW QUESTION # 100

Refer to the exhibit.

```
ike 0:T_INET_0_0:214: received informational request
ike 0:T_INET_0_0:214: processing notify type SHORTCUT_QUERY
ike 0:T_INET_0_0: recv shortcut-query 9065761962601467474

ver 2 mode 0, ext-mapping 192.2.0.1:500
```

Which statement about the role of the ADVPN device in handling traffic is true?

- A. This is a hub that has received a query from a spoke and has forwarded it to another spoke.
- B. Two hubs, 10.0.1.101 and 10.0.2.101, are receiving and forwarding queries between each other.
- C. This is a spoke that has received a query from a remote hub and has forwarded the response to its hub.
- D. Two spokes, 192.2.0.1 and 10.0.2.101, forward their queries to their hubs.

Answer: A

NEW QUESTION # 101

In which SD-WAN template field can you use a metadata variable?

- A. All SD-WAN template fields support metadata variables.
- B. You can use metadata variables only to define interface members and the gateway IP.
- C. Any field identified with an "M" in a circle.
- D. Any field identified with a dollar sign (\$) in a magnifying glass.

Answer: A

NEW QUESTION # 102

What are two benefits of choosing packet duplication over FEC for data loss correction on noisy links? (Choose two.)

- A. Packet duplication uses smaller parity packets which results in less bandwidth consumption.
- B. Packet duplication can leverage multiple IPsec overlays for sending additional data.
- C. Packet duplication does not require a route to the destination.
- D. Packet duplication supports hardware offloading.

Answer: B,D

NEW QUESTION # 103

.....
