Latest H13-624_V5.5 Exam Duration & Latest H13-624_V5.5 Dumps Book

You can find that there are three versions of the H13-624_V5.5 training questions: the PDF, Software and APP online. As you have more time at home, you can use the Software version of H13-624_V5.5 exam materials. If you are a person who likes to take notes, you can choose the PDF version. You can print out the PDF version of H13-624_V5.5 Practice Engine, carry it with you and read it at any time. If you are used to reading on a mobile phone, you can use our APP version.

Huawei H13-624_V5.5 Exam Syllabus Topics:

Topic	Details
Topic 1	Storage Technology Trends: This section of the exam measures skills of a Data Center Specialist and covers the latest advancements in the storage industry. It focuses on emerging technologies that are shaping intelligent storage development, including trends like AI integration, green computing, and cloud-oriented storage evolution. Candidates are expected to understand how these trends influence storage planning and deployment in modern IT environments.
Topic 2	Basic Storage Technologies: This section of the exam measures the skills of a Storage Engineer and includes fundamental knowledge of storage systems. It covers key concepts such as intelligent storage architecture, RAID levels, storage networking, and widely used data protocols. The section also introduces the structure and function of SAN and NAS environments. A strong grasp of these basic technologies helps professionals support large-scale data infrastructure with efficiency and stability.

Topic 3	• Huawei Intelligent Storage Products and Features: This section of the exam measures the skills of a Storage Administrator and focuses on Huawei's intelligent storage solutions. It includes understanding product models, management interfaces, and advanced features like storage tuning and data protection. Candidates will explore how to manage system operations, optimize resource usage, and apply Huawei-specific technologies for secure and high-performance storage deployment.
Topic 4	• Storage System O&M Management: This section of the exam measures the skills of a Storage Operations Specialist and covers the daily operational management of Huawei storage systems. It emphasizes practical abilities in system monitoring, troubleshooting, fault handling, and health checks. The goal is to ensure smooth, reliable operations and reduce risks through proactive maintenance and efficient use of Huawei's O&M tools.

Huawei HCIP-Storage V5.5 Sample Questions (Q47-Q52):

NEW QUESTION # 47

(single choice) The network connection is required before the initial configuration of the big data system. The networking of Huawei OceanStor 9000 does not include:

- A. Management network
- B. Front-end business network
- C. Back-end storage network
- D. Heartbeat network

Answer: D

NEW QUESTION # 48

In the file system, which scenarios will modify the metadata

- A. Create files (including soft links) or directories
- B. Delete files (including soft links) or directories
- C. Rename
- D. Modify properties

Answer: C,D

NEW QUESTION # 49

The Huawei SmartPartition feature supports setting the same read and write cache capacity for partitions without multiple selections, as follows Regarding the impact of cache capacity on services with different characteristics, which options are correct ()

- A. For write business, more cache capacity means higher write merge rate, write hit rate and better Order of visits
- B. For sequential services, the cache capacity does not need to be large, and only needs to meet the I/O consolidation requirements
- C. For random services, a larger cache capacity means a better order of access to disks, thus bringing Performance improvement
- D. For the read business, more cache capacity means a higher read hit rate

Answer: A,B,C,D

NEW QUESTION # 50

OceanStor9000 Wushan distributed file system, supports online node expansion, storage capacity and computing capacity increase linearly Plus, and finally provide users with linearly increasing bandwidth and concurrency

- A. mistake
- B. True

Answer: B

NEW QUESTION # 51

When purchasing a storage device, the available capacity is less than the actual hard disk capacity. Which of the following possible reasons is correct ()

- A. Coffer disk occupancy
- B. Data occupation
- C. Hot spare space occupied
- D. RAID verification data occupies storage.

Answer: A,B,C,D

NEW QUESTION # 52
