## PMI Agile Certified Practitioner Sample Questions (Q19-Q24):

### NEW QUESTION # 19

A Product Owner new to the role is very enthusiastic about an agile project with an energetic team. What should be done first to ensure successful delivery of the product?

- A. Hold a meeting during which the team can present the project charter, high-level project plan, and team values to the Product Owner
- **B. Hold a meeting with the team and the Product Owner to develop the team charter, working agreement, guiding principles, and product vision**
- C. Ask the Product Owner to create the project vision and charter, and then discuss the guiding principles with the team
- D. Send the Product Owner to formal Product Owner training where the Product Owner can learn how to create a product vision

**Answer: B**

Explanation:

The correct answer is A - Hold a meeting with the team and the Product Owner to develop the team charter, working agreement, guiding principles, and product vision. This collaborative approach fosters shared understanding, ownership, and alignment early in the project.

From the PMI Agile Practice Guide:

"The team chartering process includes developing working agreements, clarifying the product vision, defining team norms, and establishing the team's mission. Early alignment builds trust and commitment." (PMI Agile Practice Guide, Section 4.3 - Team Charter and Working Agreements) Mike Griffiths elaborates:

"A strong start includes co-creating team values, the product vision, and working agreements. Doing this together builds a strong foundation for delivery." (Mike Griffiths, PMI-ACP Exam Prep, Chapter 2 - Agile Principles and Chapter 4 - Team Formation)

Incorrect options:

- \* B separates the Product Owner from the team early on.
- \* C reverses the roles-vision should be owned by the Product Owner.
- \* D is helpful, but not a prerequisite for team alignment and success.

### NEW QUESTION # 20

When working with a globally distributed team, the most useful approach would be to:

- A. Bring the entire group together for a get-to-know-you session before starting the first iteration.
- B. Bring the entire team together for a diversity and sensitivity training day before starting the first iteration.
- C. Bring the entire group together for a big celebration at the end of the project
- **D. Gather the entire team for a kickoff event and keep them working together for at least the first iteration.**

**Answer: D**

### NEW QUESTION # 21

Which of the following is NOT a principle of the Agile Manifesto?

- A. Working software is delivered frequently
- B. Close, daily co-operation between business people and developers
- **C. Daily team meetings to review progress and address impediments**
- D. Projects built around motivated individuals, who should be trusted

**Answer: C**

### NEW QUESTION # 22

Test-Driven Development (TDD) is a rapid cycle of:

- A. Testing, refactoring, and validation.
- **B. Testing, coding, and refactoring.**
- C. Requirements, coding, and refactoring.
- D. Requirements, coding, and testing.

**Answer: B**

### NEW QUESTION # 23

Velocity is the:

- A. total number of Product Backlog hours completed in an iteration divided by the number of developers.
- B. total number of Product Backlog hours completed when developers work in pairs.
- C. measured rate at which teams turn Product Backlog items into running, tested features.
- D. measured rate at which the project manager turns the Product Backlog into tested features.

**Answer: C**
