Interactive MTCNA Practice Exam & Reliable MTCNA Braindumps Free

Each product has a trial version and our products are without exception, literally means that our MTCNA guide torrent can provide you with a free demo when you browse our website of MTCNA prep guide, and we believe it is a good way for our customers to have a better understanding about our products in advance. We are committed to offer you with data protect act and guarantee you will not suffer from virus intrusion and information leakage after purchasing our MTCNA Guide Torrent. The last but not least we have professional groups providing guidance in terms of download and installment remotely.

MikroTik MTCNA certification exam is a fundamental certification that provides IT professionals with the necessary skills and knowledge to configure, troubleshoot, and manage MikroTik routers and network infrastructures. MikroTik Certified Network Associate Exam certification is recognized globally and is a prerequisite for higher-level MikroTik certifications. By obtaining the MTCNA certification, IT professionals can enhance their career prospects and demonstrate their expertise in MikroTik technologies.

MikroTik MTCNA certification program is an ideal starting point for individuals looking to build a career in the networking field. MikroTik Certified Network Associate Exam certification program offers a comprehensive overview of the networking concepts and provides hands-on training on the MikroTik routers, helping individuals gain practical experience in configuring and managing networks. MikroTik Certified Network Associate Exam certification program is highly valued in the networking industry and is recognized globally, making it an excellent way to showcase an individual's proficiency in networking and routing using MikroTik routers.

The MTCNA Exam is a one-day practical and theoretical test that covers various topics such as routing, wireless networking, network security, and network management. MTCNA exam comprises of 60 multiple-choice questions, and the candidate must score at least 60% to pass. MikroTik Certified Network Associate Exam certification is valid for three years and can be renewed by passing the MTCNA renewal exam.

MikroTik Certified Network Associate Exam Sample Questions (Q134-Q139):

NEW QUESTION # 134

Which firewall chain would be used to block a client's MSN traffic on a router?

- A. static
- **B. forward**
- C. output
- D. input

Answer: B

NEW QUESTION # 135

Which firewall chain you should use to filter SSH access to the router itself?

- A. forward
- B. output
- **C. input**
- D. prerouting

Answer: C

NEW QUESTION # 136

What does the passive command provide to dynamic routing protocols?

- A. Stops the router from sending any dynamic updates.
- **B. Stops an interface from sending periodic dynamic updates but not from receiving updates.**
- C. Stops an interface from sending or receiving periodic dynamic updates.
- D. Stops the router from receiving any dynamic updates.

Answer: B

Explanation:

In dynamic routing (e.g., RIP, OSPF, EIGRP), the passive-interface command stops routing advertisements (outgoing updates) from being sent through the specified interface. However, the router still listens for incoming routing updates.

Cisco IOS Configuration Guide - Passive Interface:

"The passive-interface command prevents routing updates from being sent on an interface, while still allowing updates to be received." Rene Meneses MTCNA Guide - Passive Mode:

"It suppresses sending routing advertisements but does not block receiving updates on that interface." Other options:

* A: Incorrect - it does not block receiving

* C: Incorrect - it applies to interfaces, not globally

* D: Also incorrect - it does not block all updates

Final answer: B

#####

NEW QUESTION # 137

Which firewall chain should you use to filter ICMP packets from the router itself?

- A. forward
- **B. output**
- C. input
- D. postrouting

Answer: B

Explanation:

MikroTik RouterOS uses firewall chains to process packets based on direction:

- * input: For packets destined to the router itself (from outside)
- * output: For packets originating from the router (e.g., router pings)
- * forward: For packets passing through the router between interfaces
- * postrouting: Used for NAT and marking, not filtering

Therefore:

- * To block/allow ICMP (ping) generated by the router (e.g., netwatch, DNS probes), use the output chain
- * To block incoming pings to the router, use input
- * To block pings between LAN and WAN, use forward

MTCNA Firewall Module - Chain Responsibilities:

"To control traffic originating from the router itself, use the output chain. For example, when the router itself sends ICMP requests."

Rene Meneses Guide - Firewall Chains Explained:

"output is for locally generated traffic. input is for inbound traffic to the router." Terry Combs Notes - Chain Use Cases:

"Ping from router = output. Ping to router = input. Ping between networks = forward."

NEW QUESTION # 138

In which situations can Netinstall NOT be used to install a RouterBOARD?

- **A. The router is connected only to a wireless network**
- B. You do not know the password of the router
- **C. The router is connected only to a secondary Ethernet port**
- D. The router does not have an operating system

Answer: A,C

NEW QUESTION # 139

.....

As the authoritative provider of MTCNA guide training, we can guarantee a high pass rate compared with peers, which is also proved by practice. Our good reputation is your motivation to choose our learning materials. We guarantee that if you under the guidance of our MTCNA study tool step by step you will pass the exam without a doubt and get a certificate. Our learning materials are carefully compiled over many years of practical effort and are adaptable to the needs of the exam. We firmly believe that you cannot be an exception. Choosing our MTCNA Exam Questions actually means that you will have more opportunities to be promoted in the near future. If you eventually fail the exam, we will refund the fee by the contract. We are confident that in the future, our MTCNA study tool will be more attractive and the pass rate will be further enhanced.
