CompTIA Network+ N10-007 Certification Practice Questions

Question 1
A network technician is connecting to a switch to modify the configuration. DHCP is not enabled on the management port. Which of the following does the technician need to configure to connect to the device?

- A. IP address
- B. Default gateway
- C. DNS address
- D. Loopback address

Question 2
An architect designs the building blueprint for a new office. The IT team has to purchase equipment and cabling. Upon inspection of the building layout, it is discovered that no designation was made for network infrastructure wiring, cabling, and services for the building. Which of the following needs to be documented in the blueprint for building connectivity?

- A. HVAC
- B. Server room
- C. MDF
- D. Mechanical room

Question 3
A network technician has been notified that an available wireless SSID is using insecure WEP encryption and has been asked to investigate what other options are available on the existing wireless hardware. The technician has found that the WAPs support AES-CCMP. Which of the following should the technician configure?

- A. WPA2
- B. MAC filtering
- C. MD5
- D. WPS

Question 4
A technician is called to troubleshoot a client PC that is not connecting to the network. The technician first examines the LEDs on the NIC and connection to the wall jack. Then the technician runs a loopback test on the NIC. Which of the following troubleshooting skills is the technician demonstrating?

- A. Inductive reasoning
- B. OSI model bottom-to-top
- C. Trial-and-error
- D. Divide and conquer

Question 5
Users within an office building report wireless connectivity is sporadic. A wireless technician troubleshooting the issue notices there are multiple WAPs visible in the same hallway within 20ft (6m) of one another. Which of the following is causing the issue?

2025 Latest VCEPrep N10-007 PDF Dumps and N10-007 Exam Engine Free Share: https://drive.google.com/open?id=1mH6-GL1YCr_YyLM1cmnUCLuqBhC7ke3

Do you feel anxiety about your coming N10-007 exam test? Do you want to find the valid and latest material for the N10-007 actual test? VCEPrep will help you and bring you to the right direction. Firstly, N10-007 free demo is allowable for you to try before you buy. Besides, we will offer you the benefits of 365 days free update. SO, even if the N10-007 Actual Test is changed frequently, you do not worry about it, because our N10-007 training material is updated according to the actual test and can ensure you pass.

CompTIA N10-007, also known as the CompTIA Network+ Certification Exam, is a globally recognized certification that validates the knowledge and skills required to design, manage, and troubleshoot wired and wireless networks. It is designed for IT professionals with at least 9 to 12 months of networking experience and covers a wide range of topics, including network architecture, protocols, security, and virtualization.
