Practicing under these conditions helps you cope with Microsoft PL-900 Exam anxiety. Moreover, regular attempts of the PL-900 practice test are also beneficial to enhance your speed of completing the final Microsoft Power Platform Fundamentals (PL-900) test within the given time.

Microsoft Power Platform Fundamentals Sample Questions (Q65-Q70):

NEW QUESTION # 65

This question requires that you evaluate the underlined text to determine if it is correct.

You have a Power BI report with a page named RevReceived. The page shows revenue received by your company. You want to create an almost identical page that shows net revenue instead of gross revenue. To accomplish this task, you modify the RevReceived page.

Review the underlined text. If it makes the statement correct, "No change is needed". If the statement is incorrect, select the answer choice that makes the statement correct.

- A. No change is needed.
- B. duplicate the RevReceived page.
- C. import the RevReceived page.
- D. copy the visuals from RevReceived to a new page.

Answer: B

Explanation:

Section: Describe the business value of Power BI

Explanation/Reference:

https://www.tutorialspoint.com/power_bi/power_bi_quick_guide.htm

NEW QUESTION # 66

You are building Power BI visualizations for a team.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Statements	Yes	No
Power BI can only retrieve data from up to two different sources for each dashboard.	<input type="radio"/>	<input type="radio"/>
Power BI visualizations can be used in canvas apps and model driven apps.	<input type="radio"/>	<input type="radio"/>
Power BI can display charts and list boxes on dashboards.	<input type="radio"/>	<input type="radio"/>

Answer:

Explanation:

Microsoft Statements	Yes	No
Power BI can only retrieve data from up to two different sources for each dashboard.	<input checked="" type="radio"/>	<input type="radio"/>
Power BI visualizations can be used in canvas apps and model driven apps.	<input type="radio"/>	<input checked="" type="radio"/>
Power BI can display charts and list boxes on dashboards.	<input checked="" type="radio"/>	<input type="radio"/>

NEW QUESTION # 67

You have a Power BI report.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Statement	Yes	No
You can export data from a visualization in a Power BI report.	<input type="radio"/>	<input type="radio"/>
You can show the data behind a visual report on your screen without exporting the data.	<input type="radio"/>	<input type="radio"/>
You must export data to view supporting data for a KPI.	<input type="radio"/>	<input type="radio"/>

Answer:

Explanation:

Statement	Yes	No
You can export data from a visualization in a Power BI report.	<input type="radio"/>	<input type="radio"/>
You can show the data behind a visual report on your screen without exporting the data.	<input type="radio"/>	<input type="radio"/>
You must export data to view supporting data for a KPI.	<input type="radio"/>	<input type="radio"/>

Explanation:

Statement	Yes	No
You can export data from a visualization in a Power BI report.	<input type="radio"/>	<input type="radio"/>
You can show the data behind a visual report on your screen without exporting the data.	<input type="radio"/>	<input type="radio"/>
You must export data to view supporting data for a KPI.	<input type="radio"/>	<input type="radio"/>

Box 1: Yes

If you'd like to see the data that Power BI uses to create a visualization, you can display that data in Power BI.

You can also export that data to Excel as an .xlsx or .csv file. The option to export the data requires a Pro or Premium license and edit permissions to the dataset and report.

Note: Export data from a Power BI dashboard

* Select the ellipsis in the upper-right corner of the visualization.

* Choose the Export data icon.

* Power BI exports the data to a .csv file. If you've filtered the visualization, then the app will filter the downloaded data.

* Your browser will prompt you to save the file. Once saved, open the .csv file in Excel.

Box 2: No

Underlying data: Select this option if you want to see the data in the visual and additional data from the model (see chart below for details). If your visualization has an aggregate, selecting Underlying data removes the aggregate. When you select Export, Power BI exports the data to an .xlsx file and your browser prompts you to save the file. Once saved, open the file in Excel.

Box 3: Yes

A KPI dataset needs to contain goal values for a KPI. If your dataset doesn't contain goal values, you can create them by adding an Excel sheet with goals to your data model or PBIX file.

Note: A Key Performance Indicator (KPI) is a visual cue that communicates the amount of progress made toward a measurable goal.

NEW QUESTION # 68

Instructions: For each of the following statements, select Yes if the statement is true. Otherwise, select No. NOTE: Each correct selection is worth one point.

Statements	Yes	No
Stages are added under each step of a business process flow design.	<input type="radio"/>	<input type="radio"/>
Power Automate desktop flows can be used to copy a file to a folder on your local machine.	<input type="radio"/>	<input type="radio"/>
Power Automate flows can be copied to a separate solution for export to another environment.	<input type="radio"/>	<input type="radio"/>

Answer:

Explanation:

Statements	Yes	No
Stages are added under each step of a business process flow design.	<input checked="" type="radio"/>	<input type="radio"/>
Power Automate desktop flows can be used to copy a file to a folder on your local machine.	<input checked="" type="radio"/>	<input type="radio"/>
Power Automate flows can be copied to a separate solution for export to another environment.	<input checked="" type="radio"/>	<input type="radio"/>

NEW QUESTION # 69

Drag and Drop Question

You need to explain the major components of the Common Data Model (CDM) and their functions.

Match each term to its definition.

Instructions: To answer, drag the appropriate term from the column on the left to its definition on the right. Each term may be used once, more than once, or not at all. Each correct match is worth one point.

NOTE: Each correct selection is worth one point.

Tools	Answer Area	Purpose	Tool
Entities			
Data connectors		Helps jumpstart application development by leveraging business logic, security, and integrations.	Tool
Common Data Service		A set of records used to store data.	Tool
Common Data Model			
Microsoft Power Platform			
Workflows			

Answer:

Explanation:

Tools	Answer Area	Purpose	Tool
Entities			
Data connectors		Helps jumpstart application development by leveraging business logic, security, and integrations.	Common Data Service
Common Data Service		A set of records used to store data.	Entities
Common Data Model			
Workflows			

Explanation:

Box 1: Common Data Service

Note: Common Data Service has been renamed to Dataverse.

By using Dataverse, you can jump-start app development by using the Common Data Model with business logic, security, and integration already built-in.

Box 2: Entities

An entity is a set of records used to store data, similar to how a table stores data within a database.
