Salesforce Certified Administrator Sample Questions (Q134-Q139):

NEW QUESTION # 134

Northern Trail Outfitters is using one profile for all of its marketing users, providing read-only access to the Campaign object. A few marketing users now require comprehensive edit access on Campaigns.

How should an administrator fulfil this request?

- A. Organization-wide defaults
- B. Marketing user checkbox
- **C. Permission sets**
- D. Field-level security

Answer: C

Explanation:

Explanation

Permission sets are used to grant additional permissions and access settings to individual users without changing their profiles or requiring a new profile to be created. You can use permission sets to extend users' functional access without changing their existing profiles. To meet the request of giving comprehensive edit access on Campaigns to a few marketing users who have read-only access by default, you need to create a permission set with edit access on Campaigns and assign it to those users.
