NEW QUESTION # 37

Which match criteria is only available as custom in order to perform an exact match in Identity Resolution?

- A. Phone Number
- B. Email Address
- C. Party Identification Id
- D. Government Id

Answer: C

Explanation:

Explanation

Party Identification Id is the only match criteria that is only available as custom in order to perform an exact match in Identity Resolution. Party Identification Id is a unique identifier for each Party Identification record in the data model. It is not one of the standard match criteria that Data Cloud provides out of the box, so it has to be created as a custom match criteria. Custom match criteria allow you to use any field from the data model as a match rule. References: Create Custom Match Criteria

NEW QUESTION # 40

How many calculated insights can be created per tenant?

- A. 10
- B. 0
- C. 5
- **D. 50**

Answer: D

Explanation:

The maximum number of calculated insights that can be created per tenant is 50. A calculated insight is a metric that defines and calculates a multidimensional measure on your data. You can use calculated insights to create segments and analyze your data in Data Cloud. You can also use calculated insights to create dashboards and reports in Tableau CRM.
