SPLK-1004 Latest Test Pdf - SPLK-1004 Reliable Exam Questions

The three versions of our SPLK-1004 training materials each have its own advantage, now I would like to introduce the advantage of the software version for your reference. On the one hand, the software version can simulate the real SPLK-1004 examination for all of the users in windows operation system. On the other hand, if you choose to use the software version, you can download our SPLK-1004 Exam Prep on more than one computer. We strongly believe that the software version of our study materials will be of great importance for you to prepare for the exam and all of the employees in our company wish you early success.

Splunk Core Certified Advanced Power User Sample Questions (Q77-Q82):

NEW QUESTION # 77

Which of the following are potential string results returned by the typeof function?

- A. True, False, Unknown
- B. Field, Value, Lookup
- C. Number, String, Bool
- **D. Number, String, Null**

Answer: D

Explanation:

The typeof function in Splunk returns a string representing the data type of the evaluated expression. The possible results include "Number", "String", and "Null".

NEW QUESTION # 78

Which of the following is true about Log Event alerts?

- A. They must be used with other alert actions.
- B. They cannot use tokens to reference event fields.
- C. They create new searchable events.
- D. They require at least Power User role.

Answer: C

Explanation:

Log Event alerts in Splunk are designed to create new events in the index when specific conditions are met.

These events are then searchable like any other event, allowing for further analysis and correlation.

This functionality is particularly useful for tracking occurrences of specific conditions over time or triggering additional workflows based on the logged events.

Reference: Splunk Documentation on Alert Actions

NEW QUESTION # 79

What function can be used as an alternative to coalesce to return the first value from a list of fields that is not null?

- A. case
- B. exact
- C. bin
- D. mvzip

Answer: A

Explanation:

Comprehensive and Detailed Step by Step Explanation: The case function can be used as an alternative to coalesce to return the first non-null value. While coalesce(field1, field2, field3) will return the first non-null value, case(condition1, value1, condition2, value2, ...) allows more flexibility by evaluating conditions.

NEW QUESTION # 80

Which stats function is used to return a sorted list of unique field values?

- A. sum
- B. list
- C. values
- D. count

Answer: C

Explanation:

The values function in the stats command returns a sorted list of unique values from a specified field, making it helpful for summarizing and analyzing data.

NEW QUESTION # 81

What XML element is used to pass multiple fields into another dashboard using a dynamic drilldown?

- A. <condition field_ "sources_Field_name">
- B. <pas_token field_ "sources_field_name">

- C. <drilldown field_ "sources_Field_name">
- D. <link field_ "sources_field_name">

Answer: D

Explanation:

In Splunk Simple XML for dashboards, dynamic drilldowns are configured within the <drilldown> element, not <link>, <condition>, or <pass_token>. To pass multiple fields to another dashboard, you would use a combination of <set> tokens within the <drilldown> element. Each <set> token specifies a field or value to be passed. The correct configuration might look something like this within the <drilldown> element:

```
<drilldown>
<set token="token1">$row.field1</set>
<set token="token2">$row.field2</set>
<link target="_blank">/app/search/new_dashboard</link>
</drilldown>
```

In this configuration, \$row.field1 and \$row.field2 are placeholders for the field values from the clicked event, which are assigned to token1 and token2. These tokens can then be used in the target dashboard to receive the values. The <link> element specifies the target dashboard. Note that the exact syntax can vary based on the specific requirements of the drilldown and the dashboard configuration.

NEW QUESTION # 82

.....

DumpsQuestion guarantees that if you use the product, you will pass the exam on your first try. Its primary goal is to save students time and money, not just conduct a business transaction. Candidates can take advantage of the free trials to evaluate the quality and standard of the SPLK-1004 Dumps before making a purchase.
