Which of the following are NOT considerations or constraints of the planning process for construction scheduling?

- A. Interest rate of owner's construction bonds.
- B. Consideration of all stakeholders.
- C. Value engineering.
- D. Project variables.

Answer: A

Explanation:

The planning process for construction scheduling considers factors that directly impact project execution, such as:

- * Stakeholders' needs (Option A).
- * Value engineering (Option B), which optimizes project cost, schedule, and quality.
- * Project variables (Option C), including site conditions, resources, and external constraints.

However, the interest rate of the owner's construction bonds (Option D) is a financial detail outside the scope of construction scheduling and planning decisions. It does not directly affect the scheduling tasks but might influence overall project financing discussions.
