

2025 The Open Group Trustable OGEA-101: TOGAF Enterprise Architecture Part 1 Exam Free Braindumps

BONUS!!! Download part of CertkingdomPDF OGEA-101 dumps for free: <https://drive.google.com/open?id=1vP9nEwXlJTk7kW4vAwHGJoVycaAfVuGh>

The clients only need 20-30 hours to learn the OGEA-101 exam questions and prepare for the test. Many people may complain that we have to prepare for the OGEA-101 test but on the other side they have to spend most of their time on their most important things such as their jobs, learning and families. But if you buy our OGEA-101 Study Guide you can both do your most important thing well and pass the test easily because the preparation for the test costs you little time and energy.

The TOGAF Enterprise Architecture Part 1 Exam (OGEA-101) certification exam is one of the top-rated career advancement certification exams. The TOGAF Enterprise Architecture Part 1 Exam (OGEA-101) certification exam can play a significant role in career success. With the TOGAF Enterprise Architecture Part 1 Exam (OGEA-101) certification you can gain several benefits such as validation of skills, career advancement, competitive advantage, continuing education, and global recognition of your skills and knowledge. The TOGAF Enterprise Architecture Part 1 Exam (OGEA-101) certification is a valuable credential that assists you to enhance your existing skills and experience.

Features of The Open Group OGEA-101 Web-Based Practice Test Software

Our experts update the OGEA-101 training materials every day and provide the latest update timely to you. If you have the doubts or the questions about our product and the purchase procedures you can contact our online customer service personnel at any time. We provide the discounts to the old client and you can have a free download and tryout of our OGEA-101 Test Question before your purchase. So there are many merits of our product. Read the introduction of the characteristics and the functions of our OGEA-101 practice test as follow carefully before you purchase our product.

The Open Group OGEA-101 Exam Syllabus Topics:

Topic	Details

Topic 1	<ul style="list-style-type: none"> Introduction to the Architecture Development Method (ADM): The ADM is central to TOGAF, outlining a structured approach to developing and managing enterprise architecture. This section assesses comprehension of TOGAF practitioners about the ADM phases and their application, ensuring they grasp the method's iterative nature, which is vital for the OGEA-101 exam.
Topic 2	<ul style="list-style-type: none"> ADM Phase Requirements: This topic of the TOGAF Enterprise Architecture Part 1 exam focuses on the specific requirements for each ADM phase, including stakeholder identification and architecture scope definition. It measures the ability of aspiring TOGAF Practitioner to apply these requirements in real-world scenarios.
Topic 3	<ul style="list-style-type: none"> Architecture Vision: Aspiring TOGAF practitioners learn to develop an architecture vision that aligns with business goals and drivers. This topic evaluates the skills in articulating a clear and compelling vision, a necessary competency for successfully navigating the OGEA-101 exam and implementing enterprise architecture.
Topic 4	<ul style="list-style-type: none"> Business Architecture: This topic of The Open Group OGEA-101 Exam emphasizes the development of business architecture, including baseline and target architectures. It measures the understanding of TOGAF practitioners about business capabilities and processes.
Topic 5	<ul style="list-style-type: none"> Architecture Governance: This topic of The Open Group OGEA-101 exam covers the governance framework and responsibilities of architecture boards. It evaluates the skills of TOGAF practitioners in establishing governance structures.
Topic 6	<ul style="list-style-type: none"> Fundamental Concepts of Enterprise Architecture: This topic covers the definition, purpose, and benefits of enterprise architecture, emphasizing its role in aligning business objectives with IT strategies. It measures the understanding of TOGAF practitioners about foundational principles essential for effective enterprise architecture practice, crucial for passing the OGEA-101 exam.
Topic 7	<ul style="list-style-type: none"> Information Systems Architecture: Focusing on data and application architectures, this topic of the OGEA-101 exam assesses ability of TOGAF practitioners to define and manage information systems. It measures their skills in identifying data entities and application components.

The Open Group TOGAF Enterprise Architecture Part 1 Exam Sample Questions (Q103-Q108):

NEW QUESTION # 103

Refer to the table below:

Phase	Output & Outcome	Essential Knowledge
?	Completion of the projects to implement the changes necessary to reach the adjusted target state.	Purpose and constraints on the implementation team. (Gap, Architecture Requirement Specification, Control) How stakeholder priority and preference adjust in response to success, value, effort, and risk of change. (Stakeholder Requirements)

Which ADM Phase does this describe?

- A. Phase A
- **B. Phase G**
- C. Phase E
- D. Phase F

Answer: B

Explanation:

The table describes the output, outcome, and essential knowledge of an ADM phase that oversees the implementation of changes necessary to reach the adjusted target state. This corresponds to Phase G, also known as Implementation Governance, which ensures that the architecture defined in earlier phases is realized, and it oversees the development and implementation of projects to align with this architecture. The essential knowledge required during this phase includes understanding constraints on the implementation team and adjusting stakeholder priority and preference in response to success, value, effort, and risk of change.

Reference: TOGAF Version 9.1 - 1

NEW QUESTION # 104

Refer to the exhibit.

Consider the diagram showing a classification model for Architecture Landscapes. What are the items labelled A, B and C?

- A. A-Capability Architecture, B-Segment Architecture, C-Enterprise Strategic Architecture
- B. A-Architecture Vision, B-Business Architecture, C-Architecture Development
- C. A-Corporate Capability, B-Portfolio Capability, C-Project Capability
- D. A-Strategy Architecture, B-Tactic Architecture, C-Operational Architecture

Answer: A

NEW QUESTION # 105

Consider the following ADM phases objectives.

Objective

1-Determine whether an incremental approach is required, and if so identify Transition Architectures that will deliver continuous business value

2-Generate the initial complete version of the Architecture Roadmap, based upon the gap analysis and candidate Architecture Roadmap components from Phases B, C, and D

3-Finalize the Architecture Roadmap and the supporting Implementation and Migration Plan

4-Ensure that the business value and cost of work packages and Transition Architectures is understood by key stakeholders Which phase does each objective match?

- A. 1E-2E-3F-4F
- B. 1E-2F-3E-4F

- C. 1G-2E-3F-4F
- D. 1F-2E-3F-4G

Answer: C

Explanation:

According to the TOGAF standard, the objectives of each ADM phase are as follows¹:

*Phase E: Opportunities and Solutions

oDetermine whether an incremental approach is required, and if so identify Transition Architectures that will deliver continuous business value
oIdentify and group major work packages within the Architecture Roadmap
oIdentify and group major implementation projects to realize the Architecture Roadmap
oIdentify dependencies between increments and projects
oEstimate cost, benefit, and risk at a high level for each increment and project
oConduct initial prioritization and sequencing of the Architecture Roadmap and projects

*Phase F: Migration Planning

oGenerate the initial complete version of the Architecture Roadmap, based upon the gap analysis and candidate Architecture Roadmap components from Phases B, C, and D
oConfirm the Transition Architectures with relevant stakeholders
oCreate the Implementation and Migration Plan, including Transition Architectures, work packages, projects, and other activities
oConfirm and agree the Architecture Roadmap and Implementation and Migration Plan with relevant stakeholders

*Phase G: Implementation Governance

oFinalize the Architecture Roadmap and the supporting Implementation and Migration Plan
oEnsure conformance with the Target Architecture by implementation projects
oPerform appropriate Architecture Governance functions for the solution and any implementation-driven architecture Change Requests
oEnsure that the architecture lifecycle is maintained
oEnsure that the Architecture Governance Framework is executed

*Phase H: Architecture Change Management

oEnsure that the business value and cost of work packages and Transition Architectures is understood by key stakeholders
oManage risks and issues related to the Architecture Roadmap and Implementation and Migration Plan
oMonitor the implementation projects and Transition Architectures
oManage changes to the architecture baseline
oManage changes to the Architecture Capability
Therefore, the correct matching of the objectives and the phases is:

*1G: Determine whether an incremental approach is required, and if so identify Transition Architectures that will deliver continuous business value

*2E: Generate the initial complete version of the Architecture Roadmap, based upon the gap analysis and candidate Architecture Roadmap components from Phases B, C, and D

*3F: Finalize the Architecture Roadmap and the supporting Implementation and Migration Plan

*4F: Ensure that the business value and cost of work packages and Transition Architectures is understood by key stakeholders

NEW QUESTION # 106

What can architects present to stakeholders to extract hidden agendas, principles, and requirements that could impact the final Target Architecture?

- A. Alternatives and Trade-offs
- B. Business Scenarios and Business Models
- C. Solutions and Applications
- D. Architecture Views and Architecture Viewpoints

Answer: D

Explanation:

According to the TOGAF Standard, Version 9.2, an architecture view is a representation of a system from the perspective of a related set of concerns¹. It consists of one or more architecture models that demonstrate how the system addresses the stakeholder concerns¹.

An architecture viewpoint is a specification of the conventions for constructing and using an architecture view to address specific stakeholder concerns¹. It defines the perspective, scope, notation, and techniques for creating an architecture view of a system¹. Architects can present architecture views and viewpoints to stakeholders to extract hidden agendas, principles, and requirements that could impact the final Target Architecture, because²³:

Architecture views and viewpoints help to communicate and visualize the architecture in a way that is meaningful and relevant to different stakeholders, addressing their specific interests and needs.

Architecture views and viewpoints help to elicit and validate the stakeholder concerns and requirements, ensuring that they are aligned with the business goals and objectives, and that they are consistent and feasible within the architecture context.

Architecture views and viewpoints help to identify and resolve any conflicts, gaps, or trade-offs among the stakeholder concerns and

requirements, ensuring that they are balanced and prioritized in the architecture design and decision-making. Architecture views and viewpoints help to demonstrate and verify the value and benefits of the architecture to the stakeholders, ensuring that they are satisfied and committed to the architecture outcome and governance.

- 2: The TOGAF Standard, Version 9.2, Chapter 4: Introduction to Part II, Section 4.2: What is an Architecture Framework?
- 3: The TOGAF Standard, Version 9.2, Chapter 31: Architectural Artifacts, Section 31.1: Basic Concepts

NEW QUESTION # 107

Refer to the exhibit.

Consider the illustration of an architecture development cycle.

Select the correct phase names corresponding to the labels 1, 2 and 3?

- A. 1 Architecture Governance - 2 Implementation Governance - 3 Preliminary
- B. 1 Continuous Improvement - 2 Migration Planning - 3 Architecture Vision
- C. 1 Requirements Management - 2 Change Management - 3 Strategy
- D. 1 Requirements Management - 2 Implementation Governance - 3 Preliminary

Answer: C

NEW QUESTION # 108

.....

Finding 60 exam preparation material that suits your learning preferences, timetable, and objectives is essential to prepare successfully for the test. You can prepare for the The Open Group OGEA-101 test in a short time and attain the TOGAF Enterprise Architecture Part 1 Exam certification exam with the aid of our updated and valid exam questions. We emphasize quality over quantity, so we provide you with The Open Group OGEA-101 Actual Exam questions to help you succeed without overwhelming you.
