Our CLO-002 experts deem it impossible to drop the exam, if you believe that you have learnt the contents of our CLO-002 study guide and have revised your learning through the CLO-002 Practice Tests. If you still fail to pass the exam, you can take back your money in full without any deduction. Such bold offer is itself evidence on the excellence of our products and their indispensability for all those who want success without any second thought.

Intended Candidates and Requirements

The intended audience for this certification and its exam is the IT professionals and business analysts who consistently help an organization decide what Cloud service provider to use, as well as when to implement and what data to migrate to the Cloud platform. These individuals have an understanding of the fundamental business & technical components associated with Cloud evaluation. They also have an insight of certain security measures and concerns.

The CompTIA Cloud Essentials+ certification has no formal requirements. However, CompTIA recommends that the candidates have at least six months to one year of practical experience in an IT environment as a Business Analyst and some level of exposure to Cloud technologies.

Due to these regular updates, you will get a better experience.

CompTIA Cloud Essentials+ Certification Exam Sample Questions (Q79-Q84):

NEW QUESTION # 79
Which of the following indicates the BEST method for maintaining Strategic Flexibility?

- A. Multiple cloud vendors who are geographically co-located
- B. Multiple cloud vendors who are geographically separated
- C. Single cloud vendor
- D. Single datacenter location

Answer: B

NEW QUESTION # 80
In which of the following service management design lifecycle processes would cloud service component attributes be identified?

- A. Service asset and configuration management
- B. Supplier management
- C. Information security management
- D. Knowledge management

Answer: A

NEW QUESTION # 81
Synchronization of updates is _____ than replicating data across locations because it gives better assurance that data is always _____ everywhere.

- A. better, up to date
- B. better, secure
- C. worse, up to date
- D. worse, secure

Answer: A

NEW QUESTION # 82
Which of the following storage features allows cloud application resources to grow automatically past projected levels?

- A. Capacity on demand
- B. Encryption
- C. Deduplication
- D. Compression

Answer: A

Explanation:
Capacity on demand allows cloud resources, such as storage, to automatically scale up based on usage. This feature ensures that cloud applications can accommodate increased data storage needs without requiring manual intervention. As the data grows past projected levels, the system dynamically adjusts the capacity to meet the demand, making it a key feature for applications with variable workloads.

NEW QUESTION # 83
A company's finance department wants to be able to view the consumption of cloud resources so it can prepare weekly reports for the Chief Financial Officer (CFO). Which of the following company policies should best be referenced to gain the CFO's approval for this request?

- A. Communication
- B. Access and control
- C. Department-specific
- D. Change management

Answer: B

Explanation:

The Access and control policy defines who has permission to access specific resources and data within the company. In this case, it would govern how the finance department can access the cloud resource consumption data to prepare reports for the CFO. The policy should ensure that the finance team has the necessary permissions while maintaining appropriate security and access controls.

NEW QUESTION # 84

......

When you have adequately prepared for the CompTIA Cloud Essentials+ Certification Exam (CLO-002) questions, only then you become capable of passing the CompTIA exam.
