Our Salesforce Sharing-and-Visibility-Architect exam dumps are available for instant download right after purchase, allowing you to start your Salesforce Certified Sharing and Visibility Architect (Sharing-and-Visibility-Architect) preparation immediately.

Salesforce Certified Sharing and Visibility Architect Sample Questions (Q74-Q79):

NEW QUESTION # 74

Universal Containers provides 24x7 support for its customers worldwide using call centers in three different countries with each one covering an 8-hour shift in different time zones. Service reps in a call center have access to the same information but only during their local working hours.

Which feature in Salesforce controls access for specific login hours?

- A. Permission sets
- **B. Profiles**
- C. Set the login hours on user records
- D. Custom permissions

Answer: B

Explanation:

<https://success.salesforce.com/ideaView?id=0873A000000E85KQAS>

NEW QUESTION # 75

Universal Containers, a global corporation of 50,000 users, has a 24x7 call center operated by 20,000 users that includes employees and contractors. Their sales organization is 10,000 strong and they started processing about 100,000 updates to opportunity custom fields called Priority and NextStep. They also started processing 20,000 updates to a highly nested territory hierarchy. There was a third mass update on a Next Step field on the Action Plan custom object that has Case as a lookup field. Users started seeing a Group membership lock error in the system. What is a probable cause for this error?

- A. Lock contention on Territory object because of Territory object updates.
- **B. Lock contention due to system-initiated sharing rule recalculation**
- C. Lock contention on Case records because of Action Plan custom object updates.
- D. Lock contention on Account records because of Opportunity object updates.

Answer: B

NEW QUESTION # 76

Universal Containers (UC) wants to reduce the amount of redundant leads entered into the system. UC also wants to ensure that leads are only edited/reassigned by the lead owner.

Which organization-wide default (OWD) approach should be recommended to help UC implement these requirements?

- A. Implement a Public Read Only/Transfer OWD on Lead.
- B. Implement 2 Public Read-Only OWD on Lead.
- **C. Implement a Private OWD on Lead.**

Answer: C

Explanation:

To ensure that only lead owners can edit or reassign their leads, the OWD for Lead should be set to Private. In a Private model:

* Only the owner (and users above the owner in the Role Hierarchy) can access and edit the record by default.

* Redundant lead entries can be minimized by enforcing validation rules or duplicate management logic.

* Option A: A Public Read Only/Transfer OWD does not restrict edit access to the lead owner, as anyone with appropriate permissions could edit or transfer the leads.

* Option B: Public Read-Only OWD does not align with the requirement to ensure only lead owners can edit or reassign leads.

* Option C (Correct): Private OWD ensures that only the lead owner has edit access, adhering to UC's requirements.

NEW QUESTION # 77

What is a workaround to ownership data skew?

Answer:

Explanation:

You can minimize possible performance impacts by not assigning the user(s) to a role.

Explanation

A workaround to ownership data skew is to minimize possible performance impacts by not assigning the user(s) to a role.

Ownership data skew occurs when a single user owns a large number of records (more than 10,000) of an object, which can cause performance issues when sharing calculations are performed.

By not assigning the user to a role, you can prevent the sharing rules from being applied to the records owned by that user, and reduce the number of rows in the sharing tables.

NEW QUESTION # 78

Universal Containers would like to restrict users' access to export reports. What option supports this requirement?

- A. Remove the Export button from the report page layout.
- **B. Remove the "Export Reports" profile permission.**
- C. Remove the "Report Manager" user permission.
- D. Remove "Allow Export" on the report folder settings.

Answer: B

NEW QUESTION # 79

.....

Our company is a well-known multinational company, has its own complete sales system and after-sales service worldwide. In the same trade at the same time, our Sharing-and-Visibility-Architect real study dumps have become a critically acclaimed enterprise, so, if you are preparing for the exam qualification and obtain the corresponding certificate, so our company launched Sharing-and-Visibility-Architect exam questions are the most reliable choice of you.
