To cope with the fast growing market, we will always keep advancing and offer our clients the most refined technical expertise and excellent services about our C_BW4H_2505 exam questions. In the meantime, all your legal rights will be guaranteed after buying our C_BW4H_2505 Study Materials. For many years, we have always put our customers in top priority. Not only we offer the best C_BW4H_2505 training prep, but also our sincere and considerate attitude is praised by numerous of our customers.

SAP C_BW4H_2505 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">• Fundamentals: This section of the exam measures the foundational understanding of SAP Consultants and covers essential terms and concepts related to SAP BW• 4HANA and SAP Business Data Cloud. It focuses on the core framework and architecture necessary to navigate and work with these platforms.
Topic 2	<ul style="list-style-type: none">• Data Acquisition into SAP BW• 4HANA: This section tests how Data Engineers manage data integration into SAP BW• 4HANA from multiple sources. It covers essential knowledge of tools and processes used for data extraction, transformation, and loading into the SAP environment.
Topic 3	<ul style="list-style-type: none">• Native SAP HANA Modeling: This section evaluates the ability of SAP Consultants to describe and apply native modeling options in SAP HANA. It emphasizes understanding how to build optimized data structures directly within the HANA platform.
Topic 4	<ul style="list-style-type: none">• SAP BW Query Design: This section of the exam assesses the ability of Data Engineers to create and run queries using SAP BW• 4HANA. It evaluates how well candidates can work with query components to retrieve and structure data effectively for reporting and analysis.
Topic 5	<ul style="list-style-type: none">• SAP BW• 4HANA Modeling: This section targets the skills of Data Engineers in selecting appropriate modeling options and applying best practices like LSA++ within SAP BW• 4HANA. It focuses on designing scalable, high-performing data models.
Topic 6	<ul style="list-style-type: none">• Data Acquisition into SAP HANA: This section evaluates the capacity of SAP Consultants to integrate various data sources into SAP HANA. It assesses their ability to understand different ingestion techniques and ensure data accessibility for processing.

Topic 7	<ul style="list-style-type: none"> • SAP BW • 4HANA Data Flow: This section of the exam measures the practical ability of SAP Consultants to load data within the SAP BW • 4HANA environment. It assesses familiarity with data movement and transformation processes across different layers of the system.
Topic 8	<ul style="list-style-type: none"> • InfoObjects and InfoProviders: This section tests the knowledge of Data Engineers in working with InfoObjects and InfoProviders in SAP BW • 4HANA. It involves handling data structures used for organizing, storing, and accessing analytical data.
Topic 9	<ul style="list-style-type: none"> • SAP Analytics Tools and SAP Analytics Cloud: This section evaluates the skills of SAP Consultants in using tools like SAP Analytics Cloud, Lumira, and Analysis for Office to visualize and interpret data. It focuses on the consultant's ability to apply business intelligence tools within the SAP ecosystem.

Latest C_BW4H_2505 Dumps Pdf & Latest C_BW4H_2505 Test Sample

As the famous saying goes, time is life. Time is so important to everyone because we have to use our limited time to do many things. Especially for candidates to take the C_BW4H_2505 exam, time is very precious. They must grasp every minute and every second to prepare for it. From the point of view of all the candidates, our C_BW4H_2505 training quiz give full consideration to this problem. And we can claim that if you study our C_BW4H_2505 study materials for 20 to 30 hours, you can pass the exam for sure.

SAP Certified Associate - Data Engineer - SAP BW/4HANA Sample Questions (Q36-Q41):

NEW QUESTION # 36

Which SAP solutions can leverage the Write Interface for DataStore objects (advanced) to push data into the inbound table of DataStore objects (advanced)? Note: There are 2 correct answers to this question.

- A. SAP Data Services
- B. SAP Process Integration
- C. SAP Landscape Transformation Replication Server

Answer: A,B

NEW QUESTION # 37

What are some of the variable types in a BW query that can use the processing type SAP HANA Exit? Note: There are 2 correct answers to this question.

- A. Formula
- B. Hierarchy node
- C. Characteristic value
- D. Text

Answer: A,C

NEW QUESTION # 38

Which of the Augmented Analytics Smart Features in SAP Analytics Cloud generates multi-tabbed stories with Overview, Key Influencers, Unexpected Values, and Simulation tabs?

- A. Smart Predict
- B. Smart Discovery

- C. Search to Insight
- D. Predictive Forecast

Answer: B

NEW QUESTION # 39

Which SAP BW/4HANA objects can be used as sources of a data transfer process (DTP)? Note: There are 2 correct answers to this question.

- A. Open ODS view
- **B. InfoSource**
- C. CompositeProvider
- **D. DataStore Object (advanced)**

Answer: B,D

Explanation:

In SAP BW/4HANA, a Data Transfer Process (DTP) is used to transfer data between source and target objects.

The source objects for a DTP must be compatible with the DTP's functionality, which includes extracting, transforming, and loading data. Below is an explanation of the correct answers:

A). DataStore Object (advanced) A DataStore Object (advanced) is a flexible and powerful object in SAP BW/4HANA that stores detailed data for reporting and analysis. It can serve as a source for a DTP because it supports both inbound and outbound data flows. Data from a DataStore Object (advanced) can be extracted, transformed, and loaded into other objects such as another DataStore Object, InfoCube, or Composite Provider.

* The SAP BW/4HANA Modeling Guide confirms that DataStore Objects (advanced) are fully supported as sources for DTPs, enabling seamless data integration.

C). InfoSource An InfoSource acts as an intermediate layer between data sources and targets in SAP BW/4HANA. It consolidates data from multiple sources and provides a unified structure for data transfer.

InfoSources can be used as sources for DTPs, especially when data needs to be transformed or enriched before being loaded into a target object.

Reference: The SAP BW/4HANA Data Modeling Guide highlights that InfoSources are commonly used as sources for DTPs to facilitate data transformation and consolidation.

Incorrect Options B. Open ODS view An Open ODS view is designed to provide direct access to data stored in SAP HANA tables or external sources. While Open ODS views are useful for real-time reporting and analytics, they cannot serve as direct sources for DTPs. Instead, they are typically consumed by queries or Composite Providers.

Reference: The SAP BW/4HANA Modeling Guide explicitly states that Open ODS views are not supported as sources for DTPs.

D). CompositeProvider A Composite Provider combines data from multiple sources (e.g., InfoProviders, Open ODS views, or HANA tables) into a unified structure for reporting. However, Composite Providers are not designed to act as sources for DTPs. They are primarily used for querying and reporting purposes.

Reference: The SAP BW/4HANA Query Design Guide confirms that Composite Providers are not supported as sources for DTPs.

NEW QUESTION # 40

You use a measure with semantic type "Amount with Currency Code" in your SAP HANA HDI calculation view. Which kind of currency reference can be assigned to the measure? Note: There are 2 correct answers to this question.

- A. A column from another SAP HANA view
- **B. Another column of the same SAP HANA view**
- **C. A variable in the same SAP HANA view**
- D. A fixed currency from table TCURC

Answer: B,C

NEW QUESTION # 41

.....

Our App online version of C_BW4H_2505 study materials, it is developed on the basis of a web browser, as long as the user terminals on the browser, can realize the application which has applied by the C_BW4H_2505 simulating materials of this learning

model, users only need to open the App link, you can quickly open the learning content in real time in the ways of the C_BW4H_2505 Exam Guide, can let users anytime, anywhere learning through our App, greatly improving the use value of our C_BW4H_2505 exam prep.
