

# H20-923\_V1.0 Latest Exam Cram | H20-923\_V1.0 Exam Papers

BTW, DOWNLOAD part of TrainingDumps H20-923\_V1.0 dumps from Cloud Storage: <https://drive.google.com/open?id=1eMcoVcfâL37LKtW6IJZSpMwFQTPQBzI5>

As you can find that on our website, we have three versions of our H20-923\_V1.0 study materials for you: the PDF, Software and APP online. The PDF can be printable. While the Software and APP online can be used on computers. When you find it hard for you to learn on computers, you can learn the printed materials of the H20-923\_V1.0 Exam Questions. What is more, you absolutely can afford for the three packages. The price is set reasonably. And the Value Pack of the H20-923\_V1.0 practice guide contains all of the three versions with a more favourable price.

After taking a bird's eye view of applicants' issues, TrainingDumps has decided to provide them with the real H20-923\_V1.0 Questions. These Huawei H20-923\_V1.0 dumps pdf is according to the new and updated syllabus so they can prepare for HCSP-Field-Data Center Facility V1.0 (H20-923\_V1.0) certification anywhere, anytime, with ease. A team of professionals has made the product of TrainingDumps after much hard work with their complete potential so the candidates can prepare for HCSP-Field-Data Center Facility V1.0 (H20-923\_V1.0) practice test in a short time.

## H20-923\_V1.0 Exam Papers | Test H20-923\_V1.0 Registration

The privacy protection of users is an eternal issue in the internet age. Many illegal websites will sell users' privacy to third parties, resulting in many buyers are reluctant to believe strange websites. But you don't need to worry about it at all when buying our H20-923\_V1.0 Learning Engine. We assure you that we will never sell users' information on the H20-923\_V1.0 exam questions because it is damaging our own reputation. And we will help you on the H20-923\_V1.0 study materials if you have any question.

## Huawei HCSP-Field-Data Center Facility V1.0 Sample Questions (Q12-Q17):

### NEW QUESTION # 12

If the SPD indicator of a smart module is green, the SPD is running properly. If the SPD indicator is red, the SPD is faulty and must be replaced immediately.

- A. True
- B. False

**Answer: A**

**Explanation:**

In Huawei data center power distribution design, the SPD (Surge Protective Device) provides overvoltage surge protection for sensitive loads by diverting transient energy to ground through internal protection components. The SPD status indicator is used for O&M judgment of protection availability. When the indicator is green, it indicates the SPD protection components are within normal working condition and the surge protection path remains effective. When the indicator turns red, it typically means the SPD's internal protection element has degraded or disconnected (end-of-life or failure after cumulative surges), and the device can no longer provide

the rated protection level. In this condition, the distribution system is left exposed to surge risk, especially during thunderstorms, switching operations, or upstream disturbances. Therefore, Huawei O&M practice treats a red SPD indicator as a replacement trigger, requiring immediate corrective action: confirm alarm/status, ensure safe isolation following electrical safety procedures, and replace the SPD module to restore protection and maintain power system reliability.

### NEW QUESTION # 13

Which of the following are the user roles of Power Partner?

- A. Service engineer
- B. Inventory operations manager
- C. Project manager
- D. Startup engineer
- E. Service manager of a rep office
- F. DOC

Answer: A,B,C,D,E,F

### NEW QUESTION # 14

The FusionCol8000-A230 unit uses two systems. Each system uses three compressors connected in parallel and two EEVs.

- A. False
- B. True

Answer: A

Explanation:

For FusionCol8000-A230, the "two systems" part is correct: Huawei's quick guide explicitly states that the indoor and outdoor units consist of two independent cooling systems, which is the basis for redundancy and staged capacity control.

However, the rest of the statement ("each system uses three compressors connected in parallel and two EEVs") is not supported as a fixed, universal configuration in the installation/commissioning guide text that is available here. In Huawei smart cooling designs, compressor quantity and the number of electronic expansion valves (EEVs) are model- and configuration-dependent and are tied to how the refrigerant circuit is partitioned (for example, multiple compressor stages for capacity modulation, and one or more EEVs for different evaporator branches). Because the documentation we can directly verify confirms two independent systems but does not confirm "three compressors per system" as an explicit requirement, the combined statement (two systems + specific compressor/EEV counts) is judged false: one part is verified true, while the detailed component count cannot be confirmed as stated.

### NEW QUESTION # 15

Which O&M practice is most effective for identifying cooling inefficiency caused by airflow problems in an operating data center?

- A. Disable temperature sensors to prevent false alarms
- B. Lower supply air temperature to the minimum possible value at all times
- C. Run humidification continuously regardless of ambient conditions
- D. Compare rack inlet temperatures, return air temperatures, and fan speed trends to detect recirculation and bypass

Answer: D

Explanation:

Huawei facility O&M methods emphasize using monitored operating data to locate inefficiencies before they become faults. Airflow-related cooling inefficiency commonly appears as hot spots at rack inlets, elevated return air temperature fluctuations, abnormal fan speed increases, or uneven temperature distribution across aisles. By trending rack inlet temperature sensors alongside cooling unit supply

/return temperatures and fan speed or airflow commands, operations teams can distinguish between insufficient cooling capacity and poor airflow organization. Recirculation (hot air returning to rack inlets) often raises localized inlet temperatures without a proportional rise in room average temperature, while bypass (cold air short-circuiting back to returns) reduces cooling effectiveness and can drive fans to higher speeds unnecessarily. Data-driven checks support targeted corrective actions such as sealing cable openings, adjusting floor tile placement, restoring containment integrity, balancing airflow, or optimizing setpoints. This approach improves thermal stability, prevents overcooling, reduces energy waste, and aligns with Huawei's emphasis on integrated monitoring and closed-loop optimization for reliable, efficient operation.

### NEW QUESTION # 16

The maintenance bypass switch cannot be turned on when the UPS5000-H works in normal mode.

- A. True
- B. False

**Answer: A**

Explanation:

In UPS5000-H operation, normal mode means the load is supplied by the inverter, and the rectifier/charger maintains the DC link and batteries. The maintenance bypass switch (maintenance bypass breaker) is a mechanical isolation path intended to keep the load powered while the UPS is taken out of service for inspection or repair. Because it changes the power path and can create unsafe or unintended parallel paths if operated incorrectly, it is not permitted to simply close the maintenance bypass switch while the UPS is in normal mode. The correct O&M logic is to perform a controlled transfer first (typically transferring the load to static bypass with proper synchronization and confirmation that bypass power is healthy), and only then close the maintenance bypass switch so the UPS can be safely isolated. This prevents disturbance to the load, avoids synchronization/transfer hazards, and protects personnel from incorrect switching operations.

Therefore, the statement is true in the sense of standard UPS5000-H operating procedure and safety interlock intent.

### NEW QUESTION # 17

.....

The Huawei H20-923\_V1.0 exam is necessary for you if you want to improve your professional career. Huawei H20-923\_V1.0 exam questions change from time to time so, it is important to check for updates regularly otherwise you can miss an important thing in the middle of your Huawei H20-923\_V1.0 Questions preparation. After the purchase, you will get H20-923\_V1.0 dumps' latest updates for up to 90 days as soon as they are available. If the TrainingDumps introduces new updates to H20-923\_V1.0 study material within 90 days of your purchase then you will get them free of cost.

**H20-923\_V1.0 Exam Papers:** [https://www.trainingdumps.com/H20-923\\_V1.0\\_exam-valid-dumps.html](https://www.trainingdumps.com/H20-923_V1.0_exam-valid-dumps.html)

So our H20-923\_V1.0 practice materials can not only help you get more useful knowledge than other practice materials, but gain more skills to pass the exam with efficiency, Our H20-923\_V1.0 exam study material will be sent to your mailbox in ten minutes after your payment, and we guarantee that you will receive the Huawei H20-923\_V1.0 pdf vce training within the required time, Our preparation material for H20-923\_V1.0 HCSP-Field-Data Center Facility V1.0 Exam is duly prepared by the subject matter experts and available in two easy formats, including PDF and Practice exam questions.

Retakes cost money, too, British historian Hugh Trevor-Roper, So our H20-923\_V1.0 practice materials can not only help you get more useful knowledge than other practice materials, but gain more skills to pass the exam with efficiency.

## **H20-923\_V1.0 Latest Exam Cram | Huawei H20-923\_V1.0 Exam Papers: HCSP-Field-Data Center Facility V1.0 Latest Released**

Our H20-923\_V1.0 Exam study material will be sent to your mailbox in ten minutes after your payment, and we guarantee that you will receive the Huawei H20-923\_V1.0 pdf vce training within the required time.

Our preparation material for H20-923\_V1.0 HCSP-Field-Data Center Facility V1.0 Exam is duly prepared by the subject matter experts and available in two easy formats, including PDF and Practice exam questions.

Confronting obstacles or bottleneck during your process of reviewing, our H20-923\_V1.0 practice materials will fix all problems of the exam and increase your possibility of getting dream opportunities dramatically.

As you all know that the HCSP-Field-Data Center Facility V1.0 (H20-923\_V1.0) exam is the most challenging exam, since it's difficult to find preparation material for passing the Huawei H20-923\_V1.0 exam
