Free PDF Quiz Marvelous SAP C_SIGVT_2506 Reliable Test Camp

The system of our C_SIGVT_2506 latest exam file is great. It is developed and maintained by our company's professional personnel and is dedicated to provide the first-tier service to the clients. Our system updates the C_SIGVT_2506 exam questions periodically and frequently to provide more learning resources and responds to the clients' concerns promptly. Our system will supplement new C_SIGVT_2506 latest exam file and functions according to the clients' requirements and surveys the clients' satisfaction degrees about our C_SIGVT_2506 cram materials. Our system will do an all-around statistics of the sales volume of our C_SIGVT_2506 exam questions at home and abroad and our clients' positive feedback rate of our C_SIGVT_2506 latest exam file. Our system will deal with the clients' online consultation and refund issues promptly and efficiently. So our system is great.

SAP Certified Associate - Validating Business Transformation Sample Questions (Q20-Q25):

NEW QUESTION # 20

What transformation method does SAP Signavio use to offer fast insights with minimal setup?

- A. Clone and Execute
- B. Plug and Gain
- C. Extend and Merge
- D. Lift and Shift

Answer: B

NEW QUESTION # 21

Which SAP service offering provides enhanced business transformation support with proactive insights and service SLAs?

- A. SAP Partner Connect
- B. SAP Customer Engagement Initiative
- **C. SAP Preferred Success**
- D. SAP Influence

Answer: C

Explanation:

SAP Preferred Success is an advanced support program designed to strengthen cloud transformation outcomes. It provides proactive guidance, insight-driven recommendations, continuous adoption monitoring, and defined service-level agreements. These services help ensure that customers achieve value realization and maintain stable solution operations. The other programs focus on partner networks, feedback channels, or collaborative influence-not transformation-focused support with SLAs.

NEW QUESTION # 22

Which tool is used for business process analysis in the RISE toolchain?

- A. SAP LeanIX
- B. SAP Enable Now
- C. SAP Business Technology Platform
- **D. SAP Signavio**

Answer: D

Explanation:

SAP Signavio is SAP's dedicated suite for business process analysis and optimization. Within the RISE with SAP toolchain, Signavio enables organizations to evaluate existing processes, identify performance gaps, benchmark operations, and design optimized target processes. It is used heavily during the Discover and Prepare phases to guide fit-to-standard workshops. The other tools support architecture, extensions, and training but do not serve as the main process analysis engine.

NEW QUESTION # 23

Which of the following are dimensions of the clean core concept?

(3 correct answers)

- **A. Configurations**
- B. Operations
- **C. Processes**
- D. Applications
- **E. Integrations**

Answer: A,C,E

Explanation:

The clean core concept is fundamental to SAP's cloud strategy and governs how organizations should structure their ERP systems to remain flexible, upgradeable, and stable. One key dimension is Configurations

, which must follow SAP-recommended patterns and avoid unnecessary customizations that compromise upgradeability.

Configurations define how the system behaves, and keeping them standardized ensures that the core can remain clean.

A second dimension is Integrations. Clean core principles emphasize using SAP-approved integration patterns, APIs, and event-driven models rather than modifying the underlying system. By handling extensions and integrations through platforms like SAP Business Technology Platform, organizations avoid invasive changes that would otherwise jeopardize upgrades or system stability.

A third dimension is Processes, referring to the ability to adopt SAP's standard end-to-end processes wherever possible. Aligning with SAP best practices minimizes the need for enhancements in the core system and ensures compatibility with future innovations.

Applications and operations are not part of the formal clean core dimensions; rather, they are broader parts of the overall IT landscape. The clean core dimensions focus specifically on system configuration, integration behavior, and business process alignment-ensuring that SAP systems remain cloud-ready and agile.

NEW QUESTION # 24

Which tool is used for business process analysis in the RISE tochain?

- A. SAP LeanIX
- B. SAP Enable Now
- C. SAP Business Technology Platform
- **D. SAP Signavio**

Answer: D

NEW QUESTION # 25
