DumpsFree ensure that the first time you take the exam will be able to pass the exam to obtain the exam certification. Because DumpsFree can provide to you the highest quality analog EC-COUNCIL 312-49v11 Exam will take you into the exam step by step. DumpsFree guarantee that EC-COUNCIL 312-49v11 exam questions and answers can help you to pass the exam successfully.

## EC-COUNCIL 312-49v11 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"> <li>Understanding Hard Disks and File Systems: This domain covers storage media characteristics, disk logical structures, operating system boot processes (Windows, Linux, macOS), file systems analysis, encoding standards, and examination of common file formats.</li> </ul>
Topic 2	<ul style="list-style-type: none"> <li>Mobile Forensics: This domain covers Android and iOS forensics including device architecture, forensics processes, cellular data investigation, file system acquisition, lock bypassing, rooting</li> <li>jailbreaking, and mobile application analysis.</li> </ul>
Topic 3	<ul style="list-style-type: none"> <li>IoT Forensics: This domain addresses IoT device investigation including architecture, OWASP IoT threats, forensic processes, wearable and smart device analysis, hardware-level techniques (JTAG, chip-off), and drone data extraction.</li> </ul>
Topic 4	<ul style="list-style-type: none"> <li>Network Forensics: This domain covers network incident investigation through traffic and log analysis, event correlation, indicators of compromise identification, SIEM usage, and wireless network attack detection and examination.</li> </ul>
Topic 5	<ul style="list-style-type: none"> <li>Computer Forensics in Today's World: This domain covers fundamentals of computer forensics including cybercrime types, investigation procedures, digital evidence handling, forensic readiness, investigator roles and responsibilities, industry standards, and legal compliance requirements.</li> </ul>
Topic 6	<ul style="list-style-type: none"> <li>Cloud Forensics: This domain covers cloud platform forensics (AWS, Azure, Google Cloud) including data storage, logging, forensic acquisition of virtual machines, and investigation of cloud security incidents.</li> </ul>
Topic 7	<ul style="list-style-type: none"> <li>Computer Forensics Investigation Process: This domain addresses the structured investigation phases including first response procedures, lab setup, evidence preservation, data acquisition, case analysis, documentation, reporting, and expert witness testimony.</li> </ul>

Topic 8	<ul style="list-style-type: none"> <li>• <b>Data Acquisition and Duplication:</b> This domain addresses live and dead acquisition techniques, eDiscovery methodologies, data acquisition formats, validation procedures, write protection, and forensic image preparation for examination.</li> </ul>
Topic 9	<ul style="list-style-type: none"> <li>• <b>Email and Social Media Forensics:</b> This domain addresses email crime investigation including message analysis, U.S. email laws, social media activity tracking, footage extraction, and social network graph analysis.</li> </ul>
Topic 10	<ul style="list-style-type: none"> <li>• <b>Malware Forensics:</b> This domain addresses malware investigation including controlled lab setup, static analysis, system and network behavior analysis, suspicious document examination, and ransomware investigation techniques.</li> </ul>
Topic 11	<ul style="list-style-type: none"> <li>• <b>Defeating Anti-Forensics Techniques:</b> This domain teaches methods to overcome evidence hiding techniques including data recovery, file carving, partition recovery, password cracking, steganography detection, encryption handling, and program unpacking.</li> </ul>

## 312-49v11 Study Guides | 312-49v11 Study Demo

Do you have tried the 312-49v11 online test engine? Here we will recommend the 312-49v11 online test engine offered by DumpsFree for all of you. Firstly, 312-49v11 online training can simulate the actual test environment and bring you to the mirror scene, which let you have a good knowledge of the actual test situation. Secondly, the 312-49v11 online practice allows self-assessment, which can bring you some different experience during the preparation. You can adjust your 312-49v11 study plan according to the test result after each practice test.

## EC-COUNCIL Computer Hacking Forensic Investigator (CHFI-v11) Sample Questions (Q24-Q29):

### NEW QUESTION # 24

Debbie has obtained a warrant to search a known pedophiles house. Debbie went to the house and executed the search warrant to seize digital devices that have been recorded as being used for downloading Illicit Images. She seized all digital devices except a digital camera.

Why did she not collect the digital camera?

- A. Debbie overlooked the digital camera because it is not a computer system
- B. The vehicle Debbie was using to transport the evidence was already full and could not carry more items
- C. The digital camera was old. had a cracked screen, and did not have batteries. Therefore, it could not have been used in a crime.
- **D. The digital camera was not listed as one of the digital devices in the warrant**

**Answer: D**

### NEW QUESTION # 25

What value of the "Boot Record Signature" is used to indicate that the boot-loader exists?

- A. AA00
- B. 00AA
- **C. AA55**
- D. A100

**Answer: C**

### NEW QUESTION # 26

A file requires 10 KB space to be saved on a hard disk partition. An entire cluster of 32 KB has been allocated for this file. The remaining, unused space of 22 KB on this cluster will be Identified as \_\_\_\_\_.

- A. Cluster space
- B. Slack space
- C. Sector space
- D. Swap space

**Answer: C**

#### **NEW QUESTION # 27**

A large multinational corporation suspects an internal breach of its data center and hires a forensic investigator. The investigator is required to conduct a search on the emails of an employee who is a US citizen, believed to be communicating classified information with a foreign entity. The forensic investigator, while respecting international laws and US privacy laws, should:

- A. Refer to the Protect America Act of 2007 to conduct surveillance without a specific warrant on the employee's electronic communication
- B. Utilize the Privacy Act of 1974 to access the individual's personal records without their written consent
- C. Use the Foreign Intelligence Surveillance Act of 1978 (FISA) to get judicial authorization for electronic surveillance
- D. Apply the provisions under the Cybercrime Act 2001 of Australia to initiate electronic surveillance

**Answer: C**

#### **NEW QUESTION # 28**

Rebecca, a seasoned forensic investigator, has been called in to investigate a potential data leak at a top-tier tech firm. The leak seems to involve confidential blueprint files which are highly valuable. The firm's network has been breached, and the leak appears to be ongoing. A junior member of Rebecca 's team suggests shutting down the server to prevent further leaks. However, Rebecca knows this would violate a key principle in digital forensics. Which principle is it?

- A. The Federal Rules of Evidence
- B. The Best Evidence Rule
- C. The Principle of Sanitizing Target Media
- D. The Principle of Dale Preservation

**Answer: D**

Explanation:

Option A is the best answer. The wording appears to contain a typo, and in CHFI context this clearly points to the principle of data preservation. CHFI v11 emphasizes live acquisition, order of volatility, evidence preservation, and the need to collect volatile information before actions are taken that may destroy it. In an active breach on a running server, abruptly shutting the system down may destroy critical volatile evidence such as RAM contents, active network connections, running processes, logged-in sessions, encryption artifacts, and other transient indicators that may explain how the leak is occurring.

This is why CHFI distinguishes between live acquisition and dead acquisition and teaches investigators to determine the best acquisition method before taking action. Federal Rules of Evidence and the Best Evidence Rule are legal concepts, but they do not directly describe the operational mistake of powering off a live compromised server. Sanitizing target media applies to preparing destination media for acquisition, not preserving a live source system. Therefore, the key violated principle is the preservation of data, especially volatile evidence on a live system.

#### **NEW QUESTION # 29**

.....

Users using our 312-49v11 study materials must be the first group of people who come into contact with new resources. When you receive an update reminder from 312-49v11 practice questions, you can update the version in time and you will never miss a key message. If you use our study materials, you must walk in front of the reference staff that does not use valid 312-49v11 Real Exam. And you will get the according 312-49v11 certification more smoothly.
