

Key Features Of Desktop VMware 2V0-17.25 Practice Exam Software

P.S. Free 2026 VMware 2V0-17.25 dumps are available on Google Drive shared by Exam4Free: https://drive.google.com/open?id=1rj4K3Ae-hEozlvm_wwnbWOIPVwu4xu1

Web-based VMware Cloud Foundation 9.0 Administrator (2V0-17.25) practice exam is a convenient format to evaluate and improve preparation for the exam. It is a 2V0-17.25 browser-based application, which means you can access it from any operating system with an internet connection and a web browser. Unlike the desktop-based exam simulation software, the VMware Cloud Foundation 9.0 Administrator (2V0-17.25) browser-based practice test requires no plugins and software installation. It makes the VMware 2V0-17.25 online practice exam a perfect tool for those who do not want to go through complicated software installation on their device.

VMware 2V0-17.25 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">• Deploy, Configure, and Operate VMware Cloud Foundation (VCF): This section of the exam measures the skills of VCF Administrators and goes in-depth into deploying, configuring, and managing VMware Cloud Foundation. The deployment portion covers identifying deployment models, configuring private cloud environments, and setting up workload domains and networking. The management objectives focus on lifecycle operations such as fleet management, identity and role-based access, licensing, certificate handling, and importing existing vCenters. Operations are assessed through capabilities like monitoring health, logs, networks, and storage, along with creating dashboards, configuring alerts, and ensuring compliance. The automation portion evaluates skills in using VCF Automation for multi-tenancy, provider networking, content libraries, governance policies, and extensibility to automate business processes. It also includes knowledge of deploying Supervisor-based services within Cloud Foundation.
Topic 2	<ul style="list-style-type: none">• VMware Cloud Foundation Fundamentals: This section of the exam measures the skills of Private Cloud Engineers and covers the basic building blocks of VMware Cloud Foundation. It includes the vision and use cases for private cloud, along with the value it provides to businesses. Candidates are expected to understand compute fundamentals such as deploying and managing vCenter, ESXi, clusters, and virtual machines. Storage fundamentals include configuring vSphere storage, setting up vSAN clusters, applying storage policies, and understanding resilience options. Networking fundamentals are also assessed, with a focus on configuring connectivity, fabrics, routing, and network services in a VMware environment.
Topic 3	<ul style="list-style-type: none">• IT Architectures, Technologies, Standards: This section of the exam measures the skills of Cloud Architects and focuses on understanding the broader context of IT architectures, common technologies, and industry standards. While it does not have testable objectives, it sets the foundation for how VMware Cloud Foundation aligns with enterprise cloud strategies.

Topic 4	<ul style="list-style-type: none"> • Plan and Design the VMware by Broadcom Solution: This section of the exam measures the skills of Solution Designers and emphasizes the ability to plan and design VMware by Broadcom solutions. Although no testable objectives are defined here, it reinforces the importance of architectural planning and design considerations for large-scale cloud deployments.

VMware 2V0-17.25 Valuable Feedback & 2V0-17.25 Detail Explanation

Good site produces high-quality 2V0-17.25 reliable dumps torrent. If you decide to purchase relating products, you should make clear if this company has power and if the products are valid. 2V0-17.25 reliable dumps torrent. Some companies have nice sales volume by low-price products, their questions and answers are collected in the internet, it is very inexact. If you really want to pass exam one-shot, you should take care about that. High-quality VMware 2V0-17.25 Reliable Dumps torrent with reasonable price should be the best option for you.

VMware Cloud Foundation 9.0 Administrator Sample Questions (Q24-Q29):

NEW QUESTION # 24

An organization is implementing a downtime avoidance solution and wants to ensure continuous availability of applications across separate sites that are connected via a high bandwidth/low latency link. Which two VMware Cloud Foundation components support this capability with stretched clusters? (Choose two.)

- A. vSAN
- B. NSX Firewall
- C. vSphere
- D. vVOL
- E. vSphere Replication

Answer: A,C

Explanation:

vSAN: vSAN supports stretched clusters, allowing data to be mirrored across multiple sites to ensure continuous availability and enable high availability for virtual machines in case of a site failure.

vSphere: vSphere also supports stretched clusters, enabling the high availability of applications across multiple sites by allowing virtual machines to be run on either site in the event of a failure.

NEW QUESTION # 25

An administrator has been tasked with creating an alert in VMware Cloud Foundation (VCF) Operations with the following settings:

- Wait cycle: 2
- Cancel cycle: 2

Assuming the alert is not resolved, how much time elapses by default between the symptom triggering and the alert automatically cancelling itself?

- A. 4 minutes
- B. 40 minutes
- C. 20 minutes
- D. 10 minutes

Answer: C

NEW QUESTION # 26

What prerequisite must an administrator complete in VMware Cloud Foundation (VCF) to be able to configure Provider Networking in VCF Automation?

- A. Create a VDS in Provider Management.

- B. Create a TO Gateway in NSX Manager.
- C. Create a VDS in vCenter.
- D. Create a TO Gateway in the Organization.

Answer: B

Explanation:

Before Provider Networking can be configured in VCF Automation, a Tier-0 (T0) Gateway must be created in NSX Manager. The T0 Gateway provides the north-south connectivity required for tenant networking and is a prerequisite for attaching provider networks in VCF.

NEW QUESTION # 27

A specific VM is unable to communicate with other VMs in the same network. An administrator needs to identify and resolve the network connectivity issue.

What three steps should the administrator follow? (Choose three.)

- A. Use the ESXi command line to check the status of the VM Kernel adapter
- B. Check the network adapter settings in vCenter Server
- C. Restart the VM to reset its network connections
- D. Verify the port group settings and VLAN configuration
- E. Verify that the VM is connected to the correct port group

Answer: B,D,E

Explanation:

Port group settings and VLAN configurations need to be correct for VMs to communicate with each other on the same network. Ensuring they are properly configured is essential.

It's important to check that the VM is connected to the correct port group that matches the network configuration of the other VMs. The network adapter settings in vCenter Server should be reviewed to ensure there are no misconfigurations that could prevent network communication.

NEW QUESTION # 28

Which factors should be considered when sizing an environment for vCenter Server Appliance (VCSA)?

- A. Frequency of tasks such as vMotion and snapshots
- B. Number of ESXi hosts and virtual machines
- C. CPU socket licensing for each ESXi host
- D. Historical and expected growth of the inventory

Answer: A,B,D

Explanation:

The size of vCenter depends on how many hosts and VMs (A), growth projections (C), and the operational load from tasks (D). CPU socket licensing (B) is an administrative/legal factor, not a direct sizing requirement for the VCSA resource needs.

NEW QUESTION # 29

.....

You can also trust Exam4Free 2V0-17.25 exam practice questions and start this journey with complete peace of mind and satisfaction. The Exam4Free is offering real, valid, and error-free 2V0-17.25 exam practice test questions in three different formats. These formats are 2V0-17.25 PDF Dumps Files, desktop practice test software, and web-based practice test software. All these three 2V0-17.25 exam question formats contain the real 2V0-17.25 exam practice questions that help you to prepare well for the final VMware Cloud Foundation 9.0 Administrator exam.
