## **Amazon AWS Certified Developer Associate Exam (DVA-C02) Sample Questions (Q285-Q290):**

### NEW QUESTION # 285

An EC2 instance has one additional EBS volume attached to it. How can a user attach the same volume to another running instance in the same AZ?

- A. Terminate the first instance and only then attach to the new instance
- B. No need to detach. Just select the volume and attach it to the new instance, it will take care of mapping internally
- **C. Detach the volume first and attach to new instance**
- D. Attach the volume as read only to the second instance

**Answer: C**

Explanation:

If an EBS volume is attached to a running EC2 instance, the user needs to detach the volume from the original instance and then attach it to a new running instance. The user doesn't need to stop / terminate the original instance.

<http://docs.aws.amazon.com/AWSEC2/latest/UserGuide/ebs-detaching-volume.html>

### NEW QUESTION # 286

A Developer created configuration specifications for an AWS Elastic Beanstalk application in a file named `healthcheckurl.yaml` in the `.ebextensions/directory` of their application source bundle. The file contains the following:

```
option_settings:
  - namespace: aws:elasticbeanstalk:application
    option_name: Application Healthcheck URL
    value: /health-check
```

After the application launches, the health check is not being run on the correct path, even though it is valid.

What can be done to correct this configuration file?

- A. Rename the file to a `.config` extension.
- **B. Change the configuration section from `options_settings` to `resources`.**
- C. Change the namespace of the option settings to a custom namespace.
- D. Convert the file to JSON format.

**Answer: B**

### NEW QUESTION # 287

It is advised that you watch the Amazon CloudWatch "`_____`" metric (available via the AWS Management Console or Amazon Cloud Watch APIs) carefully and recreate the Read Replica should it fall behind due to replication errors.

- **A. Replica Lag**
- B. Write Lag
- C. Read Replica
- D. Single Replica

**Answer: A**

### NEW QUESTION # 288

You have been doing a lot of testing of your VPC Network by deliberately failing EC2 instances to test whether instances are failing over properly. Your customer who will be paying the AWS bill for all this asks you if he being charged for all these instances. You try to explain to him how the billing works on EC2 instances to the best of your knowledge. What would be an appropriate response to give to the customer in regards to this?

- A. Billing commences when Amazon EC2 initiates the boot sequence of an AMI instance and billing ends as soon as the instance starts to shutdown.
- B. Billing only commences only after 1 hour of uptime and billing ends when the instance terminates.

- C. Billing commences when Amazon EC2 AMI instance is completely up and billing ends as soon as the instance starts to shutdown.
- **D. Billing commences when Amazon EC2 initiates the boot sequence of an AMI instance and billing ends when the instance shuts down.**

**Answer: D**

Explanation:

Billing commences when Amazon EC2 initiates the boot sequence of an AMI instance. Billing ends when the instance shuts down, which could occur through a web services command, by running "shutdown -h", or through instance failure.

### NEW QUESTION # 289

A company maintains a REST service using Amazon API Gateway and the API Gateway native API key validation. The company recently launched a new registration page, which allows users to sign up for the service. The registration page creates a new API key using CreateApiKey and sends the new key to the user.

When the user attempts to call the API using this key, the user receives a 403 Forbidden error. Existing users are unaffected and can still call the API.

What code updates will grant these new users access to the API?

- A. The createDeployment method must be called so the API can be redeployed to include the newly created API key.
- B. The updateAuthorizer method must be called to update the API's authorizer to include the newly created API key.
- **C. The createUsagePlanKey method must be called to associate the newly created API key with the correct usage plan.**
- D. The importApiKeys method must be called to import all newly created API keys into the current stage of the API.

**Answer: C**
