- B. Maintain and review a lessons learned repository to improve delivery of future projects.
- C. Engage the project management office (PMO) to take responsibility identifying lessons learned on projects.
- D. Perform a root cause analysis to identify alternative approaches for performing the next project.

Answer: D

NEW QUESTION # 375
A learn using Kanban identifies mat their cycle time has significant variation After brainstorming, the team determines that the root cause is the stones' varying sizes and risks What should the team do?

- A. Create a triage step on the Kanban board to pre-identify risky stones
- B. Reduce work in progress (W1P) limits to accommodate slack for riskier stories
- C. Create a dedicated overflow swimlane on the Kanban board for stones that are loo large
- D. Set a policy lo break down stories larger than a specified complexity, then adjust the WIP

Answer: B

NEW QUESTION # 376
According to the Agile Manifesto, which of the following describes the more valued items?

- A. Individual interactions, working software, customer collaboration, and responding to change
- B. Customer collaboration, following a plan, working software, and individual interactions
- C. Working software, individual interactions, responding to change, and comprehensive documentation
- D. Responding to change, individual interactions, processes and tools, and customer collaboration

Answer: A

NEW QUESTION # 377
An agile coach advised a project manager to continuously improve their ability to support their team and remove any obstacles in the project's way. What role is the agile coach advising to the project manager to take on?

- A. People manager
- B. Scrum master
- C. Squad leader
- D. Servant leader

Answer: D

Explanation:
The role of a servant leader focuses on serving the team by removing obstacles, providing support, and ensuring that the team has what it needs to be successful. The agile coach is advising the project manager to adopt this mindset, which is central to Agile leadership. In this role, the project manager focuses on enabling the team's success rather than taking a directive or authoritative approach.

NEW QUESTION # 378

Based on the following figure, during Iteration 5, there was an increase in story point value (shown on the graph); however, the team completed all of the work it promised to deliver in the iteration and existing estimates were not changed. From this information, one can infer that:

- A. Work was removed from the Product Backlog.
- B. The team's velocity decreased.
- C. Work was added to the Product Backlog.
- D. The team's velocity increased.

Answer: C

Explanation:
