## Lpi LPIC-1 Exam 101, Part 1 of 2, version 5.0 Sample Questions (Q38-Q43):

### NEW QUESTION # 38

Which command displays a list of all background tasks running in the current shell? (Specify ONLY the command without any path or parameters.)

**Answer:**

Explanation:

jobs

Explanation

The jobs command displays a list of all background tasks running in the current shell. A background task is a process that is started with the & operator or suspended with Ctrl+Z and resumed with the bg command. The jobs command shows the job number, the status, and the command name of each background task. For example, the following output shows two background tasks: one is running (sleep 10) and one is stopped (ping www.howtogeek.com).

1- Running sleep 10 & 2+ Stopped ping www.howtogeek.com
