SAP Certified Associate - Implementation Consultant - SAP S/4HANA Cloud Public Edition, Sourcing and Procurement Sample Questions (Q48-Q53):

NEW QUESTION # 48

Which of the following reasons can an employee select to dismiss a situation message using My Situations app? Note: There are 3 correct answers to this question.

- A. Resolved
- B. Reject
- C. Approve
- D. Obsolete
- E. Invalid

Answer: A,D,E

NEW QUESTION # 49

Which of the following activities are part of the key process flow for Scheduling Agreements in Procurement (I3MR)? Note: There are 3 correct answers to this question.

- A. Create or change scheduling agreement
- B. Maintain quota arrangement
- C. Monitor down payment process
- D. Maintain delivery schedule
- E. Maintain service entry sheet

Answer: A,B,D

NEW QUESTION # 50

You have assigned a business role to an end user who has been granted access to only one specific application. While you have a day off, it turns out that the app doesn't show up on the user's launchpad. What can the user do?

- A. Create a page and assign it to the launchpad space.
- B. Use the search function to find the app.
- C. Assign a different business role that provides access.
- D. Assign a launchpad space to the business role.

Answer: B

Explanation:

If an end user has been granted access to only one specific application but the app does not appear on their launchpad, they can use the search function in the SAP Fiori launchpad to locate the app. This is a common troubleshooting step when apps are not visible due to configuration issues or missing assignments.

* Use the search function to find the app (Option C): The SAP Fiori launchpad includes a search bar that allows users to search for apps by name or description. Even if an app is not pinned to the launchpad or assigned to a page, it can still be accessed through the search function if the user has the necessary permissions. The SAP Fiori Launchpad User Guide confirms this functionality.

* A. Assign a launchpad space to the business role: Assigning a launchpad space is an administrative task and cannot be performed by the end user. Only administrators with the appropriate permissions can make this change.

* B. Create a page and assign it to the launchpad space: Creating a page and assigning it to a launchpad space is also an administrative task and cannot be done by the end user.

* D. Assign a different business role that provides access: Assigning business roles is an administrative task and cannot be performed by the end user.

* SAP Fiori Launchpad User Guide: Explains how to use the search function to locate apps in the SAP Fiori launchpad. <https://help.sap.com>

* SAP Role-Based Access Control Guide: Provides details on how business roles and launchpad spaces are configured.

Why Option C is Correct: Why the Other Options Are Incorrect: Key References:

NEW QUESTION # 51

What does the task list in My Outbox show?

- A. Your tasks that the deadline were passed.
- B. Your completed and suspended tasks.

- C. Your tasks that are to be sent to your manager.
- **D. Your tasks that are not completed yet.**

Answer: D

Explanation:

The My Outbox task list in SAP S/4HANA Cloud Public Edition displays tasks assigned to the user that are still pending or incomplete. This feature helps users track their open tasks and ensures timely completion of activities within the system.

* Your tasks that are not completed yet (Option C): The My Outbox functionality is designed to show tasks that require action from the user but have not yet been completed. This includes tasks such as approvals, reviews, or other workflow-related activities.

The SAP Fiori User Experience Guide confirms this behavior.

* A. Your completed and suspended tasks: Completed and suspended tasks are typically found in the "Completed Tasks" or "History" sections, not in the My Outbox task list.

* B. Your tasks that the deadline was passed: Overdue tasks may appear in the My Outbox list, but they are still considered incomplete tasks. The primary focus of My Outbox is to display tasks that are pending, regardless of whether they are overdue.

* D. Your tasks that are to be sent to your manager: Tasks that need to be escalated or forwarded to a manager are part of the workflow process but are not specifically displayed in the My Outbox task list.

* SAP Fiori User Experience Guide: Explains the functionality of the My Outbox task list and how it displays pending tasks. <https://help.sap.com>

* SAP S/4HANA Cloud Workflow Guide: Provides details on how tasks are managed and displayed in the system.

Why Option C is Correct: Why the Other Options Are Incorrect: Key References:

NEW QUESTION # 52

Which of the values are mandatory when creating purchase orders in procurement of stock material? Note:

There are 2 correct answers to this question.

- A. Account assignment category
- **B. Purchasing organization**
- C. Cost center
- **D. Material number**

Answer: B,D

Explanation:

When creating purchase orders for stock material in SAP S/4HANA Cloud Public Edition, certain fields are mandatory to ensure proper procurement processes. Below is an explanation of the correct answers:

* Purchasing organization (A): The purchasing organization is a key organizational unit responsible for procurement activities. It must be specified to determine the procurement rules, conditions, and workflows applicable to the purchase order.

* Material number (D): The material number uniquely identifies the stock material being procured. It links the purchase order to the material master record, ensuring accurate tracking and inventory management.

* Cost center (B): Cost centers are relevant for account assignment but are not mandatory for stock material procurement unless specific accounting requirements exist.

* Account assignment category (C): Account assignment categories are required for non-stock materials (e.g., consumables) but are not necessary for stock material procurement, as the system automatically assigns the goods receipt to inventory accounts.
