NEW QUESTION # 45
One of the newest and least experienced Scrum Teams in your organization has 7 members: 3 are in London (UK), 1 is in Paris (FR), and 3 are in Mumbai (IN). What outcome would you expect? (choose the best answer)

- A. Having team members in multiple locations actually increases productivity because the work can "follow the sun."
- B. The cost of delivering the product will be significantly lower than if all team members were together in London (UK).
- C. Each location should have an on-site Scrum Master.
- D. The team will likely need help with communication and knowledge sharing challenges.

Answer: D

Explanation:
Distributed teams often face challenges related to communication, collaboration, and knowledge sharing, especially if they are in different time zones or have varying levels of experience. In such cases, managers should focus on supporting the team by facilitating effective communication and ensuring that all members have access to the information they need.

NEW QUESTION # 46

Answer: E

NEW QUESTION # 47
True or False: The most important function of an Agile manager is to set goals and hold people accountable for their commitments.

- A. True
- B. False

Answer: B

Explanation:
In Agile, the focus is on empowering teams to set their own goals and take accountability for their work. The manager's role is to facilitate, support, and remove impediments rather than enforcing accountability or setting strict goals.
