

GEIR exams questions and answers & dumps PDF for GIAC Enterprise Incident Response

Question #1 of 80

Question ID: 1268537

An investor purchases \$1 million of Canadian bonds and is concerned about the bonds defaulting. The investor wishes to transfer this default risk to a third party, so he enters a fixed credit default swap (CDS) spread agreement with First Bank. Assume that the recovery rate is zero and that there is no accrued interest in the event that Canada defaults. Which of the following statements about the CDS between the investor and First Bank is correct?

- A) A paper loss occurs for the investor if the correlation risk between First Bank and Canada increases because the value of the CDS spread will increase.
- B) The fixed CDS spread is valued based on the default probability of the reference asset and the joint default correlation of First Bank and Canada. 
- C) The investor has wrong-way risk if there is negative correlation risk between First Bank and Canada.
- D) Increasing correlation risk decreases the probability that the worst case scenario occurs.

Explanation

The fixed CDS spread is valued based on the default probability of the reference asset (Canadian bond) and the joint default correlation of First Bank (counterparty) and Canada. A paper loss occurs for the investor (CDS spread buyer) if the correlation risk between First Bank and Canada increases because the value of the CDS spread will decrease. The investor has wrong-way risk if there is positive correlation risk between First Bank and Canada. Increasing correlation risk increases the probability that the worst case scenario occurs where both First Bank and Canada default.

(Book 1, Module 7.1, LO 7.a)

Question #2 of 80

Question ID: 1268550

A financial advisor is educating his client about rating migrations. The client wishes to only put money into investment-grade bonds. Which of the following statements can the advisor make, using Moody's rating migration matrix as a source?

- A) Aaa rated bonds are the most likely of all the ratings to maintain their initial rating as their final rating. 
- B) Bonds that initially rate as investment grade will remain as investment grade until they mature.
- C) If the initial rating is investment grade (Baa or higher), there is about a 50% chance that its final rating will stay the same.
- D) The investment-grade bonds will generally provide a higher yield to investors than non-investment grade bonds.

Explanation

The students can give unlimited to track the performance of their last given tests in order to see their mistakes and try to avoid them while giving the final test. Customers of Dumpkiller will receive updates till 1 year after their purchase. Anyone can try a free demo of the GIAC Enterprise Incident Response (GEIR) practice material before making purchase. There is a 24/7 available support system that assists users whenever they are stuck in any problem or issues. This product is a complete package and a blessing for those who want to pass the GIAC GEIR test in a single try.

Our windows software of the GEIR study materials are designed to simulate the real test environment. If you want to experience the real test environment, you must install our GEIR preparation questions on windows software. Also, it only support running on Java environment. If you do not install the system, the system of our GEIR Exam Brainsdumps will automatically download to ensure the normal operation.
