

2V0-13.25 PDF Questions [2026] -Get Excellent Scores

Activity Director Class Exam (2025 / 2026) Expected Questions And Revised Correct Answers | Excellent Scores

two main theories of aging - **Correct-answer:**Biological and psychological

activity theory - **Correct-answer:**Most older persons are happy when active.

Seniors do the same activities as they did in their middle years.

Seniors rust out before they wear out

most older adults can.. - **Correct-answer:**learn new things

the reason women live longer than men is that they have less stress then men -

Correct-answer:false

VMware Cloud Foundation 9.0 Architect exam is one of the top-rated VMware 2V0-13.25 Exams. This VMware Cloud Foundation 9.0 Architect exam offers an industrial-recognized way to validate a candidate's skills and knowledge. Everyone can participate in VMware Cloud Foundation 9.0 Architect exam requirements after completing the VMware Cloud Foundation 9.0 Architect exam. With the VMware Cloud Foundation 9.0 Architect exam you can learn in-demand skills and upgrade your knowledge. You can enhance your salary package and you can get a promotion in your company instantly.

VMware 2V0-13.25 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">• Troubleshoot and Optimize the VMware Solution: This section of the exam measures the skills of Operations Engineers. There are no explicitly testable objectives provided in this domain, but candidates are expected to understand troubleshooting and optimization principles to maintain the VMware environment effectively in real-world deployments.

Topic 2	<ul style="list-style-type: none"> Plan and Design the VMware Solution: This section measures the skills of Cloud Infrastructure Designers. It focuses on gathering and analyzing business requirements and then transforming them into conceptual, logical, and physical models of VMware Cloud Foundation. Candidates are expected to identify prerequisites and make design decisions across fleet topologies, networking, management domains, workload domains, automation, and operations. The section also includes designing for availability within and across zones, creating strategies for manageability such as lifecycle, scalability, and capacity, and ensuring performance and recoverability through BCDR strategies. Additional emphasis is given to designing secure environments, workload migration strategies, and creating consumption, automation, and monitoring strategies to support modern applications and governance.
Topic 3	<ul style="list-style-type: none"> VMware Products and Solutions: This section of the exam evaluates the knowledge of VMware Solution Specialists and focuses on VMware Cloud Foundation (VCF). Candidates must be able to identify and differentiate between various VCF architecture options in given scenarios. The emphasis is on understanding the key products and how they integrate into enterprise design choices.
Topic 4	<ul style="list-style-type: none"> Install, Configure, Administrate the VMware Solution: This section of the exam is relevant to System Administrators. Although it has no directly testable objectives, it underlines the expectation that candidates are familiar with installation, configuration, and administration tasks that form the foundation for VMware Cloud Foundation solutions.
Topic 5	<ul style="list-style-type: none"> IT Architectures, Technologies, Standards: This section of the exam measures the skills of IT Architects and covers the ability to distinguish business requirements from technical ones. It expects candidates to understand the differences between conceptual, logical, and physical designs while also differentiating requirements, assumptions, constraints, and risks. Core concepts of availability, manageability, performance, recoverability, and security (AMPRS) are tested. Learners also need to document risk mitigation strategies, design decisions, and create a validation strategy that ties requirements to practical implementation.

2V0-13.25 Reliable Test Pattern - Reliable Exam 2V0-13.25 Pass4sure

With limited time for your preparation, many exam candidates can speed up your pace of making progress. Our 2V0-13.25 practice materials will remedy your faults of knowledge understanding for our 2V0-13.25 exam questions contain everything you need in the real 2V0-13.25 exam. You won't regret your decision of choosing our 2V0-13.25 training guide. In contrast, they will inspire your potential without obscure content to feel. After getting our 2V0-13.25 exam prep, you will not live under great stress during the exam period.

VMware Cloud Foundation 9.0 Architect Sample Questions (Q34-Q39):

NEW QUESTION # 34

When sizing a VMware Cloud Foundation VI Workload Domain, which three factors should be considered when calculating usable compute capacity? (Choose three.)

- A. vSAN
- B. vSphere HA
- C. Storage DRS
- D. Core Dumps
- E. NSX
- F. NIOC

Answer: A,B,F

Explanation:

When sizing a VMware Cloud Foundation (VCF) VI Workload Domain, calculating usable compute capacity involves determining the resources available for workloads after accounting for overheads and system-level requirements. In VCF 5.2, a VI Workload Domain integrates vSphere, vSAN, and NSX, and certain factors directly impact the compute capacity available to virtual machines. Based on the official VMware Cloud Foundation 5.2 documentation, the three key factors to consider are vSphere HA, vSAN, and

NIOC.

NEW QUESTION # 35

Which Broadcom products are used to optimize storage performance in VMware Cloud Foundation environments?

- A. Broadcom Ethernet adapters
- **B. Broadcom NVMe SSDs**
- **C. Broadcom Fibre Channel HBAs**
- D. Broadcom RAID controllers

Answer: B,C

Explanation:

Broadcom NVMe SSDs and Fibre Channel HBAs optimize storage performance in VMware Cloud Foundation.

NEW QUESTION # 36

Which VMware tools help ensure security and compliance in VMware Cloud Foundation?

- **A. VMware NSX**
- B. VMware vSphere
- **C. VMware vRealize Suite**
- D. VMware vSAN

Answer: A,C

Explanation:

VMware NSX and vRealize Suite provide essential security and compliance features within VMware Cloud Foundation environments.

NEW QUESTION # 37

Which Broadcom storage solutions are optimized for use in VMware Cloud Foundation environments?

- A. Broadcom Ethernet adapters
- **B. Broadcom RAID controllers**
- **C. Broadcom NVMe SSDs**
- D. Broadcom Fibre Channel HBAs

Answer: B,C

Explanation:

Broadcom NVMe SSDs and RAID controllers are optimized for use in VMware Cloud Foundation environments.

NEW QUESTION # 38

What is the purpose of a vSphere cluster?

- **A. Group ESXi hosts for resource pooling**
- B. Provide network isolation
- C. Distribute workloads manually
- D. Manage storage arrays

Answer: A

Explanation:

A cluster groups hosts to pool resources and enable advanced features.
