영어가 서툴러 국제승인 인기 IT인증자격증 필수시험 과목인Pegasystems인증 PEGACPDC25V1시험에 도전할 엄두도 낼수 없대구요? 이런 생각은 이 글을 보는 순간 버리세요. Pegasystems인증 PEGACPDC25V1시험을 패스하려면 DumpTOP가 고객님의 결을 지켜드립니다. DumpTOP의Pegasystems인증 PEGACPDC25V1덤프는 Pegasystems인증 PEGACPDC25V1시험패스 특효약입니다. 영어가 서툴러고 덤프범위안의 문제만 기억하면 되기에 영어로 인한 문제는 걱정하지 않으셔도 됩니다.

최신 Pega Decisioning Consultant PEGACPDC25V1 무료샘플문제 (Q57-Q62):

질문 # 57

In a decision strategy, you can use aggregation components to _____.

- A. filter actions based on priority and relevance
- B. set a text value to a strategy property
- C. make calculations based upon a list of actions
- D. choose between actions

정답: C

설명:

Aggregation components are used to perform calculations on a list of actions, such as sum, average, count, minimum, or maximum. For example, you can use an aggregation component to calculate the total value of all the actions in a group. Verified References: Pega Academy - Decisioning Consultant - Aggregating actions

질문 # 58

U+ Bank wants to offer credit cards only to low-risk customers. The customers are divided into various risk segments from Good to Very Poor. The risk segmentation rules that the business provides use the Average Balance and the customer Credit Score. As a decisioning architect, you decide to use a decision table and a decision strategy to accomplish this requirement in Pega Customer Decision Hub.

Using the decision table, which label is returned for a customer with a credit score of 240 and an average balance 35000?

- A. Good
- B. Poor

- C. Very Poor
- D. Fair

정답: B

설명:

Using the decision table, you can find the label for a customer with a credit score of 240 and an average balance of 35000 by following these steps:

Start from the top row and check if the customer's credit score is less than 150. If yes, then the label is Very Poor. If no, then move to the next row.

Check if the customer's credit score is less than 175 and their average balance is less than 25000. If yes, then the label is Poor. If no, then move to the next row.

Check if the customer's credit score is less than 200 and their average balance is less than 50000. If yes, then the label is Fair. If no, then move to the next row.

Check if the customer's credit score is less than 250 and their average balance is less than 75000. If yes, then the label is Good. If no, then move to the last row.

The last row applies to all other cases that do not match any of the previous conditions. The label for this row is Very Poor.

In this case, the customer's credit score is not less than 150, so the first row does not apply. The customer's credit score is less than 175, but their average balance is not less than 25000, so the second row does not apply either. The customer's credit score is not less than 200, so the third row does not apply. The customer's credit score is less than 250 and their average balance is less than 75000, so the fourth row applies. Therefore, the label for this customer is Poor.

질문 # 59

MyCo, a telecom company, uses Pega Customer Decision Hub to present offers to qualified customers. The business recently decided to send offer messages through the email channel. The Design department has designed an email treatment which includes dynamic placeholders.

As a deaccessioning architect, what do you use in order to test the visualization and the rendering of the email content, including replacing of the placeholders with customer information?

- A. Preview section from the email content editor
- B. A list of customer email addresses from the Test email tab
- **C. A seed list from the Test email tab**
- D. Schedule an outbound run with a limited number of customers

정답: C

설명:

To test the visualization and the rendering of the email content, including replacing of the placeholders with customer information, you use a seed list from the Test email tab. A seed list is a predefined set of customers that you can use to test your email treatments before sending them to your target audience. You can select one or more customers from the seed list and send them a test email with your treatment. You can then verify how the email looks in their inbox and how the placeholders are replaced with their actual values. Verified Reference: [Pega Academy - Decisioning Consultant - Testing email treatments]

질문 # 60

U+ Bank wants to offer a Gold credit card to customers who have an annual income of more than USD150000. What do you configure in the Next-Best-Action Designer to achieve this outcome?

- A. Prioritization formula
- B. Customer segment
- **C. Engagement policy condition**
- D. Audience

정답: C

설명:

An engagement policy condition is a rule that determines whether a customer is eligible, applicable, or suitable for an offer. You can use engagement policy conditions to filter customers based on their attributes or behaviors. In this case, the bank wants to offer a Gold credit card to customers who have an annual income of more than USD150000, so creating an engagement policy condition based on the income attribute is the best option. Verified Reference: [Pega Decisioning Consultant | Pega Academy]

질문 # 61

U+- Bank, a retail bank, has recently Implemented a project in which qualified customers see mortgage offers when they log in to the web self-service portal.

Currently, only the customers who satisfy the following engagement policy conditions receive the Fifteen-year fixed-rate mortgage offer:

Offer	Eligibility	PEGA Applicability	Suitability
Fifteen-year fixed-rate mortgage	Age >= 18	Annual Income > 10000	Credit Score > 500

The bank decides to make two changes:

1. Update the suitability condition for the Fifteen-year fixed-rate mortgage offer.
2. Introduce a new offer, Twenty-year fixed-rate mortgage.

The following table shows the new engagement policy conditions for both mortgage offers:

Offer	Eligibility	Applicability	Suitability
Fifteen-year fixed-rate mortgage	Age >= 18	Annual Income > 10000	Credit Score > 450
Twenty-year fixed-rate mortgage	Age >= 18	Annual Income > 12000	Credit Score > 600

What is the best practice to fulfill this change management requirement in the business operations environment?

- A. Create a single change request in the 1:1 Operations Manager portal.
- B. Create a single change request in the Pega Customer Decision Hub portal.
- **C. Create two change requests in the 1:1 Operations Manager portal.**
- D. Create two change requests: one in the Pega Customer Decision Hub portal and the other in the 1:1 Operations Manager portal.

정답: C
