A generally accepted view on society is only the professionals engaged in professionally work, and so on, only professional in accordance with professional standards of study materials, as our Google Cloud Certified - Professional Cloud Database Engineer study questions, to bring more professional quality service for the user. Our study materials can give the user confidence and strongly rely on feeling, lets the user in the reference appendix not alone on the road, because we are to accompany the examinee on Professional-Cloud-Database-Engineer Exam, candidates need to not only learning content of teaching, but also share his arduous difficult helper, so believe us, we are so professional company.

Google Cloud Certified - Professional Cloud Database Engineer Sample Questions (Q127-Q132):

NEW QUESTION # 127

You are a DBA on a Cloud Spanner instance with multiple databases. You need to assign these privileges to all members of the application development team on a specific database:

Can read tables, views, and DDL

Can write rows to the tables
Can add columns and indexes
Cannot drop the database
What should you do?

- **A. Assign the Cloud Spanner Database User role.**
- B. Assign the Cloud Spanner Database Reader and Cloud Spanner Backup Writer roles.
- C. Assign the Cloud Spanner Admin role.
- D. Assign the Cloud Spanner Database Admin role.

Answer: A

NEW QUESTION # 128

You are managing a small Cloud SQL instance for developers to do testing. The instance is not critical and has a recovery point objective (RPO) of several days. You want to minimize ongoing costs for this instance. What should you do?

- A. Take no backups, and turn off transaction log retention.
- **B. Take one manual backup per day, and turn off transaction log retention.**
- C. Turn on automated backup, and turn on transaction log retention.
- D. Turn on automated backup, and turn off transaction log retention.

Answer: B

NEW QUESTION # 129

Your organization has a security policy to ensure that all Cloud SQL for PostgreSQL databases are secure.

You want to protect sensitive data by using a key that meets specific locality or residency requirements. Your organization needs to control the key's lifecycle activities. You need to ensure that data is encrypted at rest and in transit. What should you do?

- A. Create the database persistent disk with customer-managed encryption keys.
- B. Create the database with Google-managed encryption keys.
- C. Create the database persistent disk with Google-managed encryption keys.
- **D. Create the database with customer-managed encryption keys.**

Answer: D

NEW QUESTION # 130

You currently have a MySQL database running on Cloud SQL with a read replica in a different zone for non-mission critical analytics workloads. You want to enable high availability (HA) for the analytic workloads while keeping costs low. What should you do?

- **A. Enable HA on the current read replica.**
- B. Create a new HA instance in the same zone db lie primary.
- C. Increase the size of the read replica Instance and enable MA.
- D. Create a new MA Instance in a different region than the primary.

Answer: A

NEW QUESTION # 131

You are designing a highly available (HA) Cloud SQL for PostgreSQL instance that will be used by 100 databases. Each database contains 80 tables that were migrated from your on-premises environment to Google Cloud. The applications that use these databases are located in multiple regions in the US, and you need to ensure that read and write operations have low latency. What should you do?

- A. Deploy 4 Cloud SQL instances in the us-central1 region with HA enabled, and create read replicas in us-central1, us-east1, and us-west1.
- B. Deploy 2 Cloud SQL instances in the us-central1 region with HA enabled, and create read replicas in us-east1 and us-west1.
- C. Deploy 4 Cloud SQL instances in the us-central1 region, and create read replicas in us-central1, us-east1 and us-west1.
- **D. Deploy 2 Cloud SQL instances in the us-central1 region, and create read replicas in us-east1 and us-west1.**

Answer: D

NEW QUESTION # 132

.....

Because the busy people seldom have much time to read the books they need. So how should people get their dreaming Professional-Cloud-Database-Engineer certification by passing the exam? At this time, people should to need some good Professional-Cloud-Database-Engineer study materials. Not only will our Professional-Cloud-Database-Engineer Exam Questions help you pass exam, but it will also save your valuable time. Now you can free download the demos of our Professional-Cloud-Database-Engineer exam questions to have an experience the good quality and validity.
