CompTIA CASP+ CAS-004

645 Practice Test Questions

in PDF Format with Verified Answers

2026 Latest GetValidTest CAS-004 PDF Dumps and CAS-004 Exam Engine Free Share: https://drive.google.com/open?id=1xnbrfLNZN_jYib-HUfkgS5f-4vWar1jW

GetValidTest provides CompTIA Advanced Security Practitioner (CASP+) Exam CAS-004 desktop-based practice software for you to test your knowledge and abilities. The CompTIA Advanced Security Practitioner (CASP+) Exam CAS-004 desktop-based practice software has an easy-to-use interface. You will become accustomed to and familiar with the free demo for CompTIA Advanced Security Practitioner (CASP+) Exam CAS-004 Exam Questions. Exam self-evaluation techniques in our CompTIA Advanced Security Practitioner (CASP+) Exam CAS-004 desktop-based software include randomized questions and timed tests. These tools assist you in assessing your ability and identifying areas for improvement to pass the CompTIA Advanced Security Practitioner (CASP+) Exam certification exam.

GetValidTest's CompTIA CAS-004 Exam Training materials is virtually risk-free for you at the time of purchase. Before you buy, you can enter GetValidTest website to download the free part of the exam questions and answers as a trial. So you can see the quality of the exam materials and we GetValidTest's friendly web interface. We also offer a year of free updates. If you do not pass the exam, we will refund the full cost to you. We absolutely protect the interests of consumers. Training materials provided by GetValidTest are very practical, and they are absolutely right for you. We can make you have a financial windfall.

Quiz The Best CompTIA - CAS-004 - CompTIA Advanced Security Practitioner (CASP+) Exam Reliable Dumps Free

It is our company that can provide you with special and individual service which includes our CAS-004 preparation quiz and good after-sale services. Our experts will check whether there is an update on the question bank every day, so you needn't worry about the accuracy of CAS-004 study materials. If there is an update system, we will send them to the customer automatically. As is known to all, our CAS-004 simulating materials are high pass-rate in this field, that's why we are so famous. If you are still hesitating, our products should be wise choice for you.

CompTIA Advanced Security Practitioner (CASP+) Exam Sample Questions (Q550-Q555):

NEW QUESTION # 550

A company suspects a web server may have been infiltrated by a rival corporation. The security engineer reviews the web server logs and finds the following:

□ The security engineer looks at the code with a developer, and they determine the log entry is created when the following line is run:
□ Which of the following is an appropriate security control the company should implement?

- A. Parameterize a query in the path variable to prevent SQL injection.
- B. Use server-side processing to avoid XSS vulnerabilities in path input.
- C. Restrict directory permission to read-only access.
- **D. Separate the items in the system call to prevent command injection.**

Answer: D

Explanation:

The company using the wrong port is the most likely root cause of why secure LDAP is not working. Secure LDAP is a protocol that provides secure communication between clients and servers using LDAP (Lightweight Directory Access Protocol), which is a protocol that allows querying and modifying directory services over TCP/IP. Secure LDAP uses SSL (Secure Sockets Layer) or TLS (Transport Layer Security) to encrypt LDAP traffic and prevent unauthorized disclosure or interception.

NEW QUESTION # 551

A security engineer needs to recommend a solution that will meet the following requirements:

Identify sensitive data in the provider's network

Maintain compliance with company and regulatory guidelines

Detect and respond to insider threats, privileged user threats, and compromised accounts Enforce datacentric security, such as encryption, tokenization, and access control Which of the following solutions should the security engineer recommend to address these requirements?

- **A. DLP**
- B. SWG
- C. WAF
- D. CASB

Answer: A

Explanation:

DLP (data loss prevention) is a solution that can meet the following requirements: identify sensitive data in the provider's network, maintain compliance with company and regulatory guidelines, detect and respond to insider threats, privileged user threats, and compromised accounts, and enforce data-centric security, such as encryption, tokenization, and access control. DLP can monitor, classify, and protect data in motion, at rest, or in use, and prevent unauthorized disclosure or exfiltration. WAF (web application firewall) is a solution that can protect web applications from common attacks, such as SQL injection or cross-site scripting, but it does not address the requirements listed. CASB (cloud access security broker) is a solution that can enforce policies and controls for accessing cloud services and applications, but it does not address the requirements listed. SWG (secure web gateway) is a solution that can monitor and filter web traffic to prevent malicious or unauthorized access, but it does not address the requirements listed. NEW QUESTION # 552

A company is migrating its data center to the cloud. Some hosts had been previously isolated, but a risk assessment convinced the engineering team to reintegrate the systems. Because the systems were isolated, the risk associated with vulnerabilities was low. Which of the following should the security team recommend be performed before migrating these servers to the cloud?

- **A. Performing patching and hardening**
- B. Creating a honeypot and adding decoy files
- C. Deploying host and network IDS
- D. Implementing least functionality and time-based access

Answer: A

Explanation:

Before migrating previously isolated systems to the cloud, it is essential to perform patching and hardening.

These systems may have been neglected while isolated, so updating them with the latest security patches and applying hardening measures (such as disabling unnecessary services and implementing strict access controls) is crucial to reduce vulnerabilities. This ensures that the systems are secure before they are exposed to the wider cloud environment. CASP+ emphasizes the importance of securing systems through patch management and hardening before integrating them into more exposed environments like the cloud.

NEW QUESTION # 553

A security analyst notices a number of SIEM events that show the following activity:

Which of the following response actions should the analyst take FIRST?

- A. Disable powershell.exe on all Microsoft Windows endpoints.
- B. Restart Microsoft Windows Defender.
- C. Disable local administrator privileges on the endpoints.
- D. Configure the forward proxy to block 40.90.23.154.

Answer: D

Explanation:

Stop the data exfiltration and sever all malicious traffic first, and then clean up the internal mess.

NEW QUESTION # 554

The Chief Executive Officer (CEO) of a fast-growing company no longer knows all the employees and is concerned about the company's intellectual property being stolen by an employee.

Employees are allowed to work remotely with flexible hours, creating unpredictable schedules.

Roles are poorly defined due to frequent shifting needs across the company.

Which of the following new initiatives by the information security team would BEST secure the company and mitigate the CEO's concerns?

- A. Report data from a user-behavior monitoring tool and assign security analysts to review it daily
- B. Seed company fileshares and servers with text documents containing fake passwords and then monitor for their use.
- C. Begin simulated phishing campaigns for employees and follow up with additional security awareness training.
- D. Implement DLP to monitor data transfer between employee accounts and external parties and services

Answer: D

NEW QUESTION # 555

.....

GetValidTest is a reliable study center providing you the valid and correct CAS-004 questions & answers for boosting up your success in the actual test. CAS-004 PDF file is the common version which many candidates often choose. If you are tired with the screen for study, you can print the CAS-004 Pdf Dumps into papers. With the pdf papers, you can write and make notes as you like, which is very convenient for memory. We can ensure you pass with CompTIA study torrent at first time.
