## Pass UiPath UiAAAv1 Guaranteed, UiAAAv1 Practice Exam Online

UiAAAv1 exam and they all got help from real and updated UiPath UiAAAv1 exam questions. You can also be the next successful candidate for the UiAAAv1 certification exam. No doubt the UiPath UiAAAv1 Certification Exam is one of the most difficult UiPath certification exams in the modern UiPath world. This UiAAAv1 exam always gives a tough time to their candidates.

## UiPath Agentic Automation Associate Sample Questions (Q36-Q41):

### NEW QUESTION # 36

A Virtual Delivery Agent (VDA) is unable to register with the Delivery Controller. Which three factors could be causing this issue? (Choose three.)

- A. Citrix ICA service NOT running
- B. Incorrectly configured reverse DNS lookups in a forest
- C. Time differences between VDA-enabled machines and the Domain Controller
- D. Improperly configured firewalls
- E. Incorrectly configured Citrix policy in Active Directory

**Answer: A,C,D**

Explanation:

Improperly configured firewalls can block communication between the VDA and Delivery Controller.

Time differences greater than 5 minutes between the VDA and Domain Controller can prevent Kerberos authentication, leading to registration failure.

The Citrix ICA service (BrokerAgent) must be running for the VDA to register; if stopped, registration will fail.

### NEW QUESTION # 37

Which machine catalog supports the deployment of image updates using Citrix Studio?

- A. Citrix Provisioning
- B. Remote PC Access
- C. Manual provisioning
- D. Machine Creation Services

**Answer: D**

Explanation:

Machine Creation Services (MCS) integrates with Citrix Studio to manage and deploy image updates. When the master image is updated, MCS can roll out those changes to all machines in the catalog, making it the catalog type that supports image updates directly from Studio.

### NEW QUESTION # 38

Scenario: While using Citrix Studio to create a new Delivery Group, a Citrix Administrator does NOT see any machine catalogs listed, but does see an error message. The administrator successfully verified the presence of machine catalogs in the Machine Catalogs node of Citrix Studio. Which issue can cause this to happen?

- A. There are no unassigned machine catalog machines.
- B. The Virtual Delivery Agent (VDA) version is lower than 7.15 LTSR.
- C. No machine catalog machines have been started.
- D. The administrator has insufficient permissions to create the Delivery Group.

**Answer: A**

Explanation:

When creating a Delivery Group, Citrix Studio only displays machine catalogs that contain unassigned machines. If all machines in the catalog are already assigned, the catalog will not appear in the Delivery Group creation wizard, even though it is visible under the Machine Catalogs node.

### NEW QUESTION # 39

Scenario: A Citrix Administrator needs to gather historical reporting statistics from the Virtual Delivery Agent (VDA) machines, as users are reporting latency and overall performance issues within their sessions. The administrator believes these issues are related to high CPU and memory usage. What can the administrator enable to gather this monitoring data from the VDA machines?

- A. Trends > Machine Usage within Citrix Director
- B. Process Monitoring HDX policy in Citrix Studio
- C. Trends > Sessions within Citrix Director
- D. Resource Monitoring HDX policy in Citrix Studio

**Answer: D**

Explanation:

Enabling the Resource Monitoring HDX policy allows collection of CPU and memory utilization data from VDA machines. This data is then sent to Citrix Director for historical reporting, helping administrators analyze performance issues such as latency caused by high resource usage.

### NEW QUESTION # 40

Which three authentication features require Citrix XML Service trust to be enabled within a Citrix Virtual Apps and Desktops infrastructure? (Choose three.)

- A. Pass-through
- B. HTTP Basic
- C. Smart Access

- D. Pass-through from NetScaler Gateway
- E. Smart card

Answer: A,B,D

Explanation:

Citrix XML Service trust must be enabled when authentication credentials need to be passed securely from StoreFront to the Delivery Controller. This applies to HTTP Basic authentication, pass-through from NetScaler Gateway, and pass-through authentication, all of which rely on trusted XML communication.

## NEW QUESTION # 41

.....

There is no need to worry about failure when you already have the most probable UiPath Agentic Automation Associate (UiAAAv1) questions in the Cert2Pass PDF document. All you need is to stay positive, put in your best efforts, and be confident while appearing for the UiPath UiAAAv1 Exam. Laptops, smartphones, and tablets support the PDF format.
