Salesforce Certified Education Cloud Consultant Sample Questions (Q143-Q148):

NEW QUESTION # 143

A CRM committee for a university has asked a consultant about the major release cadence of Salesforce.org and Salesforce.com platform enhancements.

When are Salesforce.org releases?

- A. Approximately one month before Salesforce.com releases

- B. Approximately two weeks after Salesforce.com releases
- C. Approximately one month after Salesforce.com releases
- D. Approximately two weeks before Salesforce.com releases

Answer: B

Explanation:

Salesforce.org releases are approximately two weeks after Salesforce.com releases. This means that Salesforce.org customers can benefit from both platform enhancements and industry-specific solutions in a timely manner. The other options are incorrect because they do not reflect the actual release cadence of Salesforce.org. Reference:

NEW QUESTION # 144

A university has hired a consultant to help it plan the campus's enterprise roadmap for Salesforce. The CIO wants to use a single Salesforce org across the university and is interested in learning more about the Education Data Architecture (EDA). The university has two existing Salesforce orgs, one uses Person Accounts, and the other org uses a custom data architecture. What should the consultant do first to assess the situation?

- A. Install EDA into one of the production environments.
- B. Create a new Salesforce org using EDA as the foundation.
- C. Submit a Salesforce Support case to merge orgs.
- D. Document solution requirements from the groups involved.

Answer: D

Explanation:

The first thing that the consultant should do to assess the situation is to document solution requirements from the groups involved. This will help the consultant understand the current state, pain points, goals, and needs of each group that uses or will use Salesforce, and how they relate to each other. This will also help the consultant determine whether EDA is a suitable solution for all groups, or whether some customization or integration is needed. Submitting a Salesforce Support case to merge orgs, installing EDA into one of the production environments, and creating a new Salesforce org using EDA as the foundation are not good first steps, because they do not involve gathering requirements from the stakeholders, and they may cause data loss or disruption. NEW QUESTION # 145

International Programs wants to track the emergency contacts for students who are studying abroad. Which functionality should a consultant implement to meet this requirement?

- A. Relationships
- B. Household Accounts
- C. Success Teams
- D. Affiliations

Answer: A

Explanation:

Relationships is a functionality that the consultant can implement to meet the requirement of tracking the emergency contacts for students who are studying abroad. Relationships is a feature that allows the consultant to create and manage connections between Contacts in EDA. Relationships can be used to track various types of connections, such as family, friends, mentors, or emergency contacts. The consultant can create a custom Relationship Type for emergency contacts and associate it with the students who are studying abroad. Household Accounts, Affiliations, and Success Teams are not functionalities that can track the emergency contacts for students who are studying abroad. Reference:

NEW QUESTION # 146

Recruiters at an institution are evaluating tools to enhance their email. They want to see when a student has opened an email or clicked on a link. Recruiters also want to insert time slots directly from their calendar into an email and allow students to choose the meeting time.

Which solution should the consultant recommend?

- A. Einstein Activity Capture
- B. Custom automation
- C. Gmail Integration
- **D. Salesforce Inbox**

Answer: D

Explanation:

Salesforce Inbox is a solution that the consultant can recommend to enhance the email functionality for recruiters. Salesforce Inbox allows recruiters to see when a student has opened an email or clicked on a link, using email tracking features. Salesforce Inbox also allows recruiters to insert time slots directly from their calendar into an email and allow students to choose the meeting time, using meeting scheduling features. Gmail Integration, custom automation, and Einstein Activity Capture are not solutions that can provide the email functionality that recruiters want. Reference:

NEW QUESTION # 147

The Recruitment and Admissions office has an existing Salesforce environment they wants to expand to include all of the school's operations and service. The school has asked the consultant for recommendations to ensure the expansion is efficient,, and will meet the need of new existing user.

Which should the consultant recommend to meet the requirements?

- A. Grant System Admin access for each department leader.
- B. Encourage users to post ideas on Chatter.
- **C. Build a Center of Excellence.**
- D. Create a Trailmix for new users.

Answer: C

Explanation:

The consultant should recommend the school to build a Center of Excellence, because this can ensure that the expansion of their Salesforce environment is efficient, scalable, and will meet the needs of new and existing users. A Center of Excellence is a team or a group of teams that provide leadership, best practices, governance, and support for Salesforce within an organization. A Center of Excellence can help the school align their Salesforce strategy with their business goals, manage change and adoption, optimize performance and security, and foster innovation and collaboration. Creating a Trailmix for new users, granting System Admin access for each department leader, and encouraging users to post ideas on Chatter are not recommendations that can ensure that the expansion of the Salesforce environment is efficient, scalable, and will meet the needs of new and existing users.
