You can choose the most suitable and convenient one for you.

Microsoft Dynamics 365 Supply Chain Management Functional Consultant

Sample Questions (Q202-Q207):

NEW QUESTION # 202

A bottle manufacturing company uses Dynamics 365 Supply Chain Management to manage operations.

The company plans to install machines that accept empty bottles for a cash refund or donation at several recycling locations.

You need to complete the setup for installation of the assets.

What should you configure for each requirement? To answer, drag the appropriate features to the correct requirements. Each feature may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Features	Requirement	Feature
Asset	Ensure that only bottle machines are installed at the recycling locations.	
Asset type defaults	Configure the assets lifecycle model that is associated to the new machines.	
Functional location types		

Answer:

Explanation:

Features	Requirement	Feature
Asset	Ensure that only bottle machines are installed at the recycling locations.	Asset type defaults
Asset type defaults	Configure the assets lifecycle model that is associated to the new machines.	Asset
Functional location types		

Explanation

Features	Requirement	Feature
Asset	Ensure that only bottle machines are installed at the recycling locations.	Asset type defaults
Asset type defaults	Configure the assets lifecycle model that is associated to the new machines.	Asset
Functional location types		

NEW QUESTION # 203

A company uses Dynamics 365 Supply Chain Management.

The working time template is left blank when the period template is configured.

You need to determine the workdays that will be used in the inventory replenishment reporting.

Which workdays will be used?

- A. calendar setup on the warehouse
- B. system date dimensions
- C. system calendar for the country
- D. 7-day work week
- E. 5-day work week

Answer: D

Explanation:

Explanation

Calendar for a warehouse

You can assign a calendar to a warehouse to indicate the open dates for receiving and shipping. If no calendar has been assigned to a warehouse, it is assumed that it is open all days.

NEW QUESTION # 204

You are the product manager at a distribution company. You are responsible for managing product compliance standards and reporting.

Chemical product, C0001 can be sold in all parts of the United States except for the state of California.

You need to set up these compliance requirements for C0001.

Which four actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Actions

Create an inclusive list type for New York, United States
Create an exclusive list type for California, United States
Add item C0001 to the restricted product lists
Open the Restricted products regional lists form
Create an inclusive list type for the United States
Create a regulated products regional list for California, United States. Add item C0001 to the list
Open the Regulated products regional lists

Answer Area

Answer:

Explanation:

Answer Area
Open the Restricted products regional lists form
Create an inclusive list type for the United States
Create an exclusive list type for California, United States
Add item C0001 to the restricted product lists

- 1 - Open the Restricted products regional lists form
- 2 - Create an inclusive list type for the United States
- 3 - Create an exclusive list type for California, United States.
- 4 - Add item C0001 to the restricted product lists

NEW QUESTION # 205

You are implementing Dynamics 365 Supply Chain Management for a company that uses bill of materials (BOM) templates to expedite setup in the system.

A line must be removed from the BOM, but the system does not allow this.

You need to determine why you are unable to perform this deletion.

Why are you unable to delete the line?

- A. The local version of the BOM template has been associated to a service object.
- B. The BOM template version has already been saved.
- C. The local version of the BOM template has been modified.
- **D. The BOM template has been associated to a service object.**

Answer: D

NEW QUESTION # 206

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

A company plans to configure Dynamics 365 Supply Chain Management to perform preventative maintenance for several machines on its shop floor.

The company has the following requirements:

- Create work orders automatically.
- Inspect assets daily starting June 1 of this year.
- Perform five calibration and safety checks on a set of assets each day to maintain safety compliance.

You need to configure the appropriate solution.

Solution: Create a work order, assign a work order maintenance job for each asset, configure the work order for the requirements, and schedule the work order.

Does the solution meet the goal?

- A. Yes
- B. No

Answer: B

Explanation:

Correct solution:

Create a maintenance plan, assign the assets, configure the maintenance plan for the requirements, and schedule the maintenance plan.

NEW QUESTION # 207

.....
